CHAPTER I: GLOBAL ISSUES

Review of the International Situation

5. The Ministers emphasized that the current global scenario presents great challenges in the areas of peace and security, economic development and social progress, human rights and the rule of law to Non-Aligned Countries. They affirmed that many new areas of concern and challenges have emerged, particularly the global financial and economic crisis, which warrant the renewal of commitment by the international community to uphold and defend the purposes and principles of the Charter of the United Nations (UN) and the principles of international law. In taking stock of developments at the international level since the XVII Summit of Ministers of the Movement, they noted with concern that the collective desire of the Movement to establish a peaceful and prosperous world as well as a just and equitable world order remains encumbered by fundamental impediments. These impediments are in the form of, inter alia, the severe adverse impact of the global financial and economic crises on the economic growth and development of developing countries which could lead to increasing poverty and deprivation in these countries, the continuing lack of resources and underdevelopment of the majority of the developing world, on the one hand; and in the form of, inter alia, the continuing unequal terms of trade and the lack of cooperation from developed countries, as well as the coercive and unilateral measures imposed by some of them and the use of force or the threats of use of force, on the other hand. The rich and powerful countries continue to exercise an inordinate influence in determining the nature and direction of international relations, including economic and trade relations, as well as the rules governing these relations, under the pretext of “Democracy”, “Human Rights” and “Anti-Terrorism”, many of which are at the expense of developing countries.

6. The Ministers reaffirmed that the Movement will remain guided in its endeavors by its Founding Principles, the principles enshrined in the Declaration on the Purposes and Principles and the Role of the Non-Aligned Movement in the Present International Juncture adopted in the 14th NAM Summit in Havana, the Bali Commemorative Declaration on the Fiftieth Anniversary of the Establishment of the Non-Aligned Movement, as well as the UN Charter and the international law. To this end, the Movement will continue to uphold the principles of sovereignty and sovereign equality of States, territorial integrity and non-interference in the internal affairs of any State or Nation; take effective measures for the suppression of acts of aggression or other breaches of peace to defend, promote, and encourage the settlement of international disputes by peaceful means in such a manner that international peace and security and justice are not endangered; refrain in international relations from the threat or use of force, including aggressive military exercises against the territorial integrity or political independence of any State or in any other manner inconsistent with the purposes and principles of the UN Charter; develop friendly relations based on respect for the principle of equal rights and self-determination of peoples in their struggle against foreign occupation; achieve international cooperation based on solidarity among peoples and governments in solving international problems of a political, economic, social, cultural or humanitarian character; and promote and encourage the respect for human rights and fundamental freedoms for all without distinction as to race, sex, language or religion.

7. The Ministers noted that the existing, new and emerging threats and challenges, including the multiple inter-related and mutually reinforcing current global crises, continue to impede efforts by States to attain greater economic development and social progress, peace and security, and the enjoyment of human rights and the rule of law. Global peace and security continue to elude humankind as a result of, inter alia, increasing tendency and deepening by certain States to resort to unilateralism, arbitrariness and unilaterally imposed measures, non-fulfillment of the commitments and obligations assumed under the relevant international legally binding instruments especially on weapons of mass destruction and conventional weapons treaties, terrorism, conflicts, violations of human rights and international humanitarian law, the use of double standards in international relations, the continuing failure and unwillingness
of the majority of the developed countries to fulfill their commitments in the economic and social fields. They underscored the need for the international community, in particular NAM Member States, to collectively redress these situations in accordance with the UN Charter and the principles of international law.

8. The Ministers underscored that globalization continues to present opportunities, challenges and risks to the future and viability of developing countries and that the process of globalization and trade liberalization has produced uneven benefits among and within States while the global economy has been characterized by slow and lopsided growth and instability. Furthermore, it has made the developing countries more vulnerable to the adverse impact of the financial and economic crises, climate change, recurrent food crisis and energy prices volatility. In its present form, globalization perpetuates or even increases the marginalization of developing countries. Therefore, globalization must be transformed into a positive force for change for all peoples, benefiting all nations and contributing to the prosperity and empowerment of developing countries not their continued impoverishment and dependence on the developed world, reaffirming also that every State has, and shall freely exercise, full permanent sovereignty over all its wealth, natural resources and economic activity. The international community must strengthen international cooperation and avoid inward-looking policies and protectionism, so as to promote an inclusive world economy and generate greater positive effects of globalization. They underscored that is needed a reform and strengthening of the international financial system and enhance the coordination of financial and economic policies at the international level. In addition, greater efforts must be made to generate a global strategy to prioritize and mainstream the development dimension into global processes, and in the relevant multilateral institutions, in order to enable developing countries to benefit from the opportunities offered by globalization and trade liberalization, including through the creation of an enabling external economic environment for development that be inclusive and mutually beneficial, which requires greater coherence between the international trading, monetary and financial systems that should be universal, open, equitable, non-coercive, rule-based, predictable and non-discriminatory.

9. The Ministers underscored the need for the UN system to seriously address the introduction of new institutional arrangements to bring coherence and coordination to the distinct sets of rules applying to various areas of economic activity. The UN system should address the inter-linkage between economic globalization and sustainable development, in particular by identifying and implementing mutually reinforcing policies and practices that promote sustained, inclusive and equitable economic growth, including the importance of international cooperation, finance, technology and capacity-building to supporting national efforts, in line with national priorities and respecting each country’s policy space.

10. The revolution in information and communication technologies continues to change the world rapidly and in a fundamental way, thus creating a vast and widening digital divide between the developed and developing countries. This digital divide which has been taking new dimensions, including a growing gap in broadband connectivity between and within developed and developing countries in terms of the availability, affordability and use of information and communications technologies, and access to broadband and Internet, which must be bridged if developing countries are to benefit from the globalization process and of the enormous potentials of ICTs as important tools for economic, social and political development. The new technological innovations must be made more easily available to developing countries in their efforts to modernize and revitalize their economies in pursuit of their developmental goals and well-being of their populations, including through the creation, development and diffusion of new innovations and technologies and associated know-how, as well as the transfer of technology on preferential and concessional terms, all of which are powerful drivers of economic growth and sustainable development. In this context, the achievement of these goals requires an enabling international environment and the honoring of commitments and pledges made by States, in particular the developed countries. In addition, the Movement underscores the need to prevent all discriminatory practices and policies that hinder access by developing countries to the benefits of
information and communication technologies and to networks established in developed countries.

11. The future will present as many challenges and opportunities as the past and the Movement must continue to remain strong, cohesive and resilient in order to address them and preserve the historic legacy of the Movement. The continued relevance and validity of the Movement will depend, in large measure, on the unity and solidarity of each of its Member Countries as well as their ability to influence these changes positively. In this regard, the process of the revitalization and strengthening of the Movement must continue to be proactive, advanced and consolidated.

12. The Ministers recalled the decision of the Summit of the Organization of African Unity (OAU), held in Algiers in July 1999, calling for the restoration of constitutional legality in States whose governments had come to power through unconstitutional means, as well as the principles enshrined in the Constitutive Act of the African Union adopted in 2000 in Lomé, and in this context, encouraged the Non-Aligned Countries to continue to uphold the democratic ideals consistent with the Founding Principles of the Movement.

13. The Ministers welcomed the designation by the UN General Assembly of April 22 as the International Day of Mother Earth, and recognized that the Earth and its ecosystems are home to humanity. They undertook to raise awareness about this issue. The Ministers also welcomed the interactive dialogue of the General Assembly on Harmony with Nature to commemorate the International Mother Earth Day; the event discussed different economic approaches in the context of sustainable development to further a more ethical basis for the relationship between humanity and the Earth, pursuant to General Assembly resolutions 67/214 and 68/216.

Non-Aligned Movement: Role and Methods of Work

14. Recognizing the aspirations of their peoples, the Ministers reaffirmed the Movement’s irrevocable political and moral commitment, and determination to and full respect for the Bandung Principles and those adopted at the Havana Summit in the Declaration on the Purposes and Principles and the Role of the NAM in the Present International Juncture, the Bali Commemorative Declaration on the fiftieth anniversary of the establishment of the Non-Aligned Movement, and the UN Charter as well as for their preservation and promotion, with a view to further consolidate and enhance the Movement’s role and position as the principal political platform representing the developing world in multilateral forums, in particular the United Nations. In this context, they stressed that achieving the principles, ideals and purposes of the Movement hinges upon the unity, solidarity and cohesion among its membership, firmly rooted on mutual respect, respect for diversity and tolerance.

15. The Ministers recognized that solidarity, the highest expression of respect, friendship and peace among States, is a broad concept encompassing the sustainability of international relations, the peaceful coexistence, and the transformative objectives of equity and empowerment of developing countries, whose ultimate goal is to achieve the full economic and social development of their peoples.

16. The Ministers reaffirmed that the implementation of the Sharm El Sheikh Declaration, which reflects the institutional positions of the Movement vis-à-vis on various international issues, and the documents adopted by the previous NAM Summits and Ministerial Conferences, due consideration should be given to maximizing the ability of the Movement to deal with the current rapidly evolving global situations, crises and challenges.

17. The Ministers determined that if any Member of the Movement suffers harm, whether this is economic, political or military in nature, or in terms of its security, as well as from the politicization of human rights, or if a Member suffers harm as a result of the imposition of unilateral sanctions or embargos, the Movement should express its solidarity with the affected
country through the provision of political, moral, material and other forms of assistance. To this end, the Ministers will continue to review the Movement’s existing mechanisms and explore new mechanisms for rendering such assistance, if necessary.

18. The Ministers reaffirmed that the Movement has been playing a key active, effective and central role over the years, on issues of concern and vital importance to its members, such as decolonization, apartheid, the situation in the Middle East, including the Question of Palestine, the maintenance of international peace and security, and disarmament. After over half a century of its existence, and having undergone many challenges and vicissitudes, it is timely and appropriate to sustain and further consolidate the process of strengthening and revitalizing the Movement and continue to undertake actions that allow the Movement to effectively and efficiently address the main current challenges facing its Member Countries, as well as to forge a common vision of the future. In the context of existing and new threats and challenges, it is imperative for the Movement to continue to promote multilateralism, especially by strengthening the central role of the United Nations, including in Global Governance, defending the interests of developing countries and preventing their marginalization.

19. In rededicating the Movement to its principles, ideals and purposes, and consistent with the aforementioned principled positions, which should be defended, preserved and promoted through greater efforts by the Movement and the existing mechanisms and arrangements of the Movement, the Ministers agreed to undertake the following measures, among others:

19.1. Continue making progress in the process of revitalizing and strengthening the Movement with a view to achieving the purposes outlined in both the Declaration on the Purposes and Principles and the Role of the Non-Aligned Movement in the Present International Juncture and the Document on the Methodology of the Non-Aligned Movement adopted at the 14th NAM Summit in Havana and the Sharm El Sheikh Declaration, as well as the Bali Commemorative Declaration, which will enable the Movement to deal effectively with the challenges looming ahead. Consolidate the proactive approach in the working dynamic of the Movement, maintaining and increasing our capacity to bring forth on behalf of the NAM concrete proposals in the debates and presentation of resolutions and other initiatives at the various United Nations organs and other international fora where NAM is represented.

---

7 The JCC of the G-77 and NAM was established in 1994 with the primary objective to enhance collaboration, avoid duplication of efforts
of developing countries at the relevant international fora particularly in the context of UN reform, the implementation of the 2030 Agenda for Sustainable Development, and in expanding and deepening South-South cooperation. Such coordination must be guided by the Terms of Reference, adopted between both fora in 1994. 19.14. Resolved to make use of the current international endeavor to advance NAM principles in all international conferences, during both the preparation processes and the implementation of their outcomes. In this regard, they recalled the joint statement by the Group of 77 and the Non-Aligned Movement at the High-Level Segment of the UN General Assembly to commemorate the 30th Anniversary of the Declaration on the Right to Development held in New York, on 23 September 2016, in which they reiterated their unequivocal commitment to the right to development in the context of the 2030 Agenda for Sustainable Development;

19.15. Promote coordination and cooperation between the G-77 and the NAM, wherever possible at all relevant multilateral fora to address issues of common concern to both groupings subject to their respective competencies;

19.16. Expedite its decision-making and improve its working methods, in conformity with the relevant provisions of the Cartagena Document on Methodology of the Movement and the Document on the Methodology of the Non-Aligned Movement adopted at the 14th NAM Summit in Havana, through determined and timely action in order to contribute more effectively in the multilateral process. In this regard, they decided to mandate the Chair of the Coordinating Bureau to assess and review, where applicable, and in consultation with Member States of the Movement, the working methods of the Non-Aligned Movement, and looked forward to the consideration of the draft document on the “Recommended Guidelines for Enhancing the Implementation of the Working Methods and Practice of the Movement, particularly within its Coordinating Bureau” circulated by the Chair of the CoB-NAM on 23 June 2017, which in no way would modify, update or replace the Methodology agreed upon in Cartagena (1996) or Havana (2006), while recognizing that adherence to said working document has thus far contributed to enhancing the Movement’s role and stature as a leading global force, and to this end, stressing the importance of continuous adherence;

19.17. Be more proactive in addressing international developments which could adversely impact on the Movement and its Member Countries;

19.18. Encourage the interaction of the Ministers responsible for portfolios of relevance to the Movement, such as food production and agriculture, energy, culture, education, health, human resources, environment, information and communications, industry, science and technology, social progress, women and children, with the aim of enhancing the effectiveness of the Movement and increasing the cooperation among its Member Countries in these areas;

19.19. Expand and deepen its interaction and cooperation with parliamentarians, civil society, including non-governmental organizations, and the private sector of Non-Aligned Countries on the recognition that they can perform a constructive role towards the attainment of the principles, ideals and purposes of the Movement; and

and provide greater efficiency in the attainment of the common goals of the developing countries, as well as to harmonies and coordinate the activities of both groupings in the economic and social fields within the context of South-South and North-South cooperation.

* The Cartagena Document on Methodology of the Movement was adopted by the Ministerial Meeting of the NAM Committee on Methodology, held in Cartagena de Indias, Colombia from 14 to 16 May 1996. Subsequently, it was endorsed by the Ministers of the Movement during their XII Summit, held in Durban, South Africa from 29 August to 3 September 1998.
19.20. **Support**, as a further manifestation of solidarity of the Movement, the candidatures of Non-Aligned countries vis-à-vis non-Member countries, where appropriate, to the United Nations organs and bodies, including the Security Council and Economic and Social Council (ECOSOC), as well as all subsidiary bodies of the General Assembly and the ECOSOC, and to other bodies of international and specialized agencies, *bearing in mind* the ensuing obligation of such Countries whose candidatures are successful owing to such support, to defend, preserve and promote the concerns and interests of the Movement in those organs and bodies, without prejudice to their sovereign rights. The Ministers *also agreed* to consider working towards ensuring adequate representation of NAM in all international fora;

19.21. The Ministers *welcomed* the nomination of Baku, the capital city of the Republic of Azerbaijan to host the World Expo 2025 and *wished* every success to Azerbaijan in its campaign for the World EXPO 2025 in Baku as the only member of NAM.

21. The Ministers *warmly welcomed* the offer of the Republic of Azerbaijan to host the XVIII Summit of the Non-Aligned Movement in 2019, and *requested* NAM Members to actively participate in that Summit;

**International Law**

22. The Ministers *reaffirmed and underscored* the continued relevance and validity of the Movement’s principled positions concerning international law, as follows:

22.1. The Ministers *reemphasized* that the purposes and principles of the UN Charter and the principles and rules of international law are indispensable in preserving and promoting peace and security, the rule of law, economic development and social progress, and human rights for all. In this context, UN Member States, including those of the Security Council, should renew their commitment to respect, defend, preserve, and promote the UN Charter and international law, with the aim of making further progress to achieving full respect for international law;

22.2. The Ministers *expressed deep concern* at and *rejected* the unilateral exercise by certain countries of extra-territorial criminal and civil jurisdiction of national courts not emanating from international treaties and other rights and/or obligations arising from international law, including international humanitarian law. In this regard, they *are*
deeply concerned on the enactment of politically motivated domestic laws directed against other States, and stressed the negative impact of such measures on the rule of international law as well as on international relations, and called for the immediate cessation of all such measures;

22.3. The Ministers underlined that the strict observance of the principles of international law and the fulfillment in good faith of the obligations assumed by States, in accordance with the Charter of the United Nations, is of the utmost importance for the maintenance of international peace and security, and reaffirmed that NAM Member States shall respect the territorial integrity, sovereignty, political independence and inviolability of international borders of Member States; and committed to support and promote these principles of international law. Accordingly, NAM Member States shall refrain from any action against the territorial integrity, sovereignty and political independence of any State or inconsistent with the purposes and principles of the Charter of the United Nations.

22.4. The Ministers called upon States to respect applicable rules of international law with respect to immunities of official representatives of States as well as jurisdictional immunities of States and, in this regard, recalled the decisions of the International Court of Justice in the case concerning the circulation of Arrest Warrant of 14 February 20029 and the case concerning the jurisdictional immunities of the State of 03 February 201210;

22.5. Realizing that an abusive exercise of Universal Jurisdiction can have negative effects on international relations, the Ministers called upon States to refrain from such abuse, and also recognized the need for further consideration at the United Nations of the agenda item entitled “Scope and Application of the Principle of Universal Jurisdiction”, and took note, in this regard, of the establishment of the Working Group in the Sixth Committee, in accordance with resolution 69/124, to continue to undertake a thorough discussion aimed at identifying the scope and application of Universal Jurisdiction and to consider establishing a mechanism to monitor such application and to prevent its abuse in the future;

22.6. The Ministers underlined the obligation of all States to ensure the security and safety of the members and premises of diplomatic and consular missions as well as their inviolability in accordance with international law, the provisions of the Vienna Convention on Diplomatic Relations, and the Vienna Convention on Consular Relations as well as relevant UN General Assembly resolutions;

22.7. The Ministers strongly condemned the unilateral application of economic and trade measures by one State against another that affect the free flow of international trade. They called for the immediate elimination of such measures and urged States that have and continue to apply such laws and measures to fully comply with their obligations under the Charter of the United Nations and the international law, which, inter alia, reaffirm the freedom of trade and navigation, and accordingly, refrain from promulgating and application of such unilateral economic and trade measures against other States;

22.8. The Ministers stressed the need to elaborate the rule of law concept through inclusive and transparent intergovernmental process and reaffirmed that respect for the rule of law is essential to maintain international peace and security as well as to achieve socioeconomic development; at the same time, they reiterated that it is indispensable to maintain the balance in developing the national and international dimensions of the rule of law;

22.9. The Ministers reiterated that the rule of law at the international level requires

10 Judgment issued in the case Jurisdictional Immunities of the State (Germany v. Italy: Greece intervening)
greater attention by the United Nations. The Charter of the United Nations and the
principles enshrined therein provide normative guidance as to the basis of the rule of law
at the international level. All United Nations bodies and structures, including the treaty
bodies, must strictly comply with their mandates given by their Member States.

22.10. The Ministers rejected the illegal practice of the United States in defying
international law by allowing and facilitating private plaintiffs to bring civil action before
U.S. courts against sovereign States, including the Islamic Republic of Iran, leading to the
awards of default judgments against them and their national institutions. They objected to
US defiance to international law through the unilateral waiving of the sovereign immunity
of States and their institutions in total contravention of the international and treaty
obligations of the United States and under a spurious legal ground that the international
community does not recognize. They also called upon the United States of America to
respect the principle of State immunity and reiterated that failing to do so would have
adverse implications, including uncertainty and chaos in international relations and the
undermining of the rule of law at the international level, and would constitute an
international wrongful act, which entails international responsibility.

23. Recognizing the serious danger and threats posed by the actions and measures which
seek to undermine international law and international legal instruments, the Ministers,
consistent with and guided by the Movement’s principled positions thereof, agreed to
undertake the following measures, among others:

23.1. Identify and pursue measures that may contribute towards achieving a peaceful
and prosperous world as well as a just and equitable world order based on the UN
Charter and international law;

23.2. Conduct external relations based on the ideals, principles and purposes of the
Movement, the UN Charter and international law, as well as the “Declaration on
Principles of International Law concerning Friendly Relations and Cooperation among
States, in accordance with the Charter of the UN”, the “Declaration on the Strengthening
of International Security” and the “Declaration on the Enhancement of Effectiveness
of the Principles of Refraining from the Threat or Use of Force in International Relations”;

23.3. Firmly oppose the unilateral evaluation and certification of the conduct of States
as a means of exerting pressure on Non-Aligned Countries and other countries, in
particular developing countries;

23.4. Refrain from recognizing, adopting or implementing extra-territorial or unilateral
coercive measures or laws, including unilateral economic sanctions, other intimidating
measures, and arbitrary travel restrictions, that seek to exert pressure on Non-Aligned
Countries – threatening their sovereignty and independence, and their freedom of trade
and investment – and prevent them from exercising their right to decide, by their own
free will, their own political, economic and social systems, where such measures or
laws constitute flagrant violations of the UN Charter, international law, the multilateral
trading system as well as the norms and principles governing friendly relations among
States; and in this regard, oppose and condemn these measures or laws and their
continued application, persevere with efforts to effectively reverse them and urge
other States to do likewise, as called for by the General Assembly and other UN organs;
request States applying these measures or laws to revoke them fully and immediately;

23.5. Welcome the convening, on 20 September 2017, in New York, in the margins of the
High-Level Segment of the 72nd Session of the UN General Assembly, of a Ministerial
Meeting of the Non-Aligned Movement on the “Promulgation and Implementation of
Unilateral Coercive Measures, in violation of International Law and the Human Rights of

11 These include the “Declaration on Principles of International Law Concerning Friendly Relations and Co-operation among States in
the Peoples subjected to them”, as well as the Political Declaration unanimously adopted at that time;

23.6. Support, in accordance with international law, the claim of affected States, including the targeted States, to compensation for the damage incurred as a consequence of the implementation of extraterritorial or unilateral coercive measures or laws;

23.7. Oppose, while reiterating the utmost importance of preserving the delicate balance of rights and obligations of States as stipulated in the various international legally binding instruments to which they are party, the actions by a certain group of States to unilaterally reinterpret, redefine, redraft or apply selectively the provisions of these instruments to conform with their own views and interests which might affect the rights of their States Parties as defined therein; and in this context, work towards ensuring that the integrity of these instruments is preserved by their States Parties;

23.8. Oppose all attempts to introduce new concepts of international law aimed at internationalizing of certain elements contained in the so-called extra-territorial laws of certain States through multilateral agreements;

23.9. Endeavor to generate further progress to achieve full respect for international law and, in this regard, commend the role of the International Court of Justice (ICJ) in promoting the peaceful settlement of international disputes, in accordance with the relevant provisions of the UN Charter and the Statute of the ICJ, in particular articles 33 and 94 of the Charter;

23.10. Urge the Security Council to make greater use of the ICJ, the principal judicial organ of the UN, as a source of advisory opinions and interpretation of relevant norms of international law and on controversial issues; further urge the Council to use the ICJ as a source of interpreting relevant international law, and also urge the Council to consider that its decisions be reviewed by the ICJ, bearing in mind the need to ensure their adherence to the UN Charter, and international law;

23.11. Invite also the General Assembly, the other organs of the United Nations and the duly authorized specialized agencies, to request advisory opinions of the International Court of Justice on legal questions arising within the scope of their activities;

23.12. The Ministers continued to call on Israel, the occupying Power, to fully respect the 9 July 2004 ICJ advisory opinion entitled “Legal Consequences of the Construction of a Wall in the Occupied Palestinian Territory”, and calls upon all States and the United Nations to respect and ensure respect of the provisions therein, for the realization of the end of the Israeli occupation that began in 1967 and the independence of the State of Palestine with East Jerusalem as its capital;

23.13. The Non-Aligned States Parties to the Rome Statute of the International Criminal Court (ICC) shall continue to preserve the integrity of the Statute and ensure that the ICC remains impartial and fully independent of political organs of the UN, which should not instruct nor impede the functions of the ICC, bearing in mind the relevant provisions of the Rome Statute;

23.14. The Non-Aligned States Parties to the Rome Statute of the ICC call upon those States, which have not yet done so, to consider becoming parties to the Rome Statute of the ICC while taking into account their sovereign positions;

23.15. The Ministers expressed concern about the abuse of certain provisions of the Rome Statute by the Security Council, including its practice to purport to selectively limit the jurisdiction of the ICC when referring matters to the ICC and noted that the
practice amounts to an abuse of the powers of the Security Council to refer matters to the ICC.

23.16. The Non-Aligned States Parties to the Rome Statute of the ICC recalled the Review Conference of the Rome Statute, which was held in Kampala, Uganda, from 31 May to 11 June 2010, at which States parties reaffirmed their commitment to the Rome Statute and adopted amendments to the Statute to define the crime of aggression and to establish conditions under which the Court could exercise jurisdiction with respect to that crime;

23.17. The Non-Aligned States continued to underscore the necessity of the independence of the ICC, in accordance with its judicial nature. They stated that the Security Council's responsibilities under the Charter of the UN should not limit the role of the Court as a judicial body. The Court should be empowered to pronounce on acts of aggression independently.

23.18. The Non-Aligned State Parties to the Rome Statute of the ICC oppose all actions, in particular through the Security Council, aimed at establishing a process to grant immunity to the staff members of UN peacekeeping operations, which violate the relevant provisions of the Rome Statute of the ICC and damage the credibility and independence of the ICC;

23.19. Call upon the Non-Aligned States Parties to the relevant treaties to work collectively to increase and enhance their representation and coordination in the bodies established through those treaties, and support the candidatures of their experts effectively as a further manifestation of solidarity among them;

23.20. The Ministers recalled the historic significance of the United Nations Convention on the Law of the Sea, in 1982, as one of the most comprehensive legal instruments negotiated under the auspices of the United Nations, and emphasized its importance for its States Parties as the primary instrument which, inter alia, confers rights on coastal States for the exploration and exploitation of the living and non-living marine resources within national jurisdiction, as well as establishes a framework for access by other States to these resources; and defines the rights and responsibilities of States in their use of the world's oceans, including their general obligations to protect and preserve the marine environment. They also recalled the importance of the designation by the Convention of the seabed, subsoil and ocean floor beyond national jurisdiction as the common heritage of mankind, as well as the establishment of the International Seabed Authority, to organize, control and administer all activities of the State parties in the area on behalf of the international community and in accordance with the pertinent provisions of the Convention;

23.21. The Ministers of State Parties to the 1982 United Nations Convention on the Law of the Seas (UNCLOS) reaffirmed their shared commitment to maintaining and promoting international and regional peace, security and stability, as well as to the peaceful resolution of disputes, including full respect for legal and diplomatic processes, without resorting to the threat or use of force, in accordance with the universally recognized principles of international law;

23.22. The Ministers took note of the report of the Preparatory Committee established by General Assembly resolution 69/292: “Development of an international legally binding instrument under the United Nations Convention on the Law of the Sea on the conservation and sustainable use of marine biological diversity of areas beyond national jurisdiction” and the recommendations contained therein. They welcomed the decision of the General Assembly to convene an intergovernmental conference, under the auspices of the United Nations, to consider the recommendations of the preparatory committee on the elements and to elaborate the text of an international legally binding instrument under
the United Nations Convention on the Law of the Sea on the conservation and sustainable use of marine biological diversity of areas beyond national jurisdiction, with a view to developing the instrument as soon as possible. They also recognized that neither the participation in the negotiations nor their outcome may affect the legal status of non-parties to the Convention or any other related agreements with regard to those instruments, or the legal status of parties to the Convention or any other related agreements with regard to those instruments;

23.23. The Ministers recalled the United Nations General Assembly resolution 71/312 of 06 July 2017 in which it endorsed the declaration entitled “Our ocean, our future: call for action” adopted by the High-Level United Nations Conference to Support the Implementation of Sustainable Development Goal 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development, held from 05 to 09 June 2017, coinciding with World Oceans Day on 08 June, and in this regard, affirmed the important role of the declaration in demonstrating the collective will to take action to conserve and sustainably use our oceans, seas and marine resources for sustainable development.

*Promotion and Preservation of Multilateralism*

24. The Ministers reaffirmed and underscored the validity and relevance of the Movement’s principled positions concerning the promotion and preservation of multilateralism and the multilateral process, as follows:

24.1. The Movement reaffirmed that the United Nations, its Charter, and the international law remain indispensable tools and central in the preservation and maintenance of international peace and security and the strengthening of international cooperation. While acknowledging its limitations, the UN, which represents a well-founded international legitimacy and through its multilateralism, remains the central multilateral forum for addressing the pressing global issues and challenges presently being confronted by all States. The responsibility for managing and achieving worldwide economic development and social progress as well as responding to threats to international peace and security must be shared among all States and exercised multilaterally through the UN, which must play the central role thereof;

24.2. Remained seized of and active in further deliberations in the UN General Assembly on the responsibility to protect populations from genocide, war crimes, ethnic cleansing and crimes against humanity, in accordance with paragraphs 138,139 and 140 of the 2005 Summit Outcome Document, bearing in mind the principles of the UN Charter and international law, including respect for sovereignty and territorial integrity of States, non-interference in their internal affairs, as well as respect for fundamental human rights. Note has been taken of the presentation by the Secretary-General of the Report titled, and “Fulfilling Our Collective Responsibility: International Assistance and the Responsibility to Protect”, contained in document A/68/947.

24.3. The Movement also reaffirmed the commitment to discuss and define human security in the UN General Assembly, in conformity with the principles enshrined in the Charter and taking into consideration the common understanding of the notion of the human security in General Assembly resolution 66/290. The Movement stressed that the national ownership, leadership and capacity building are essential elements in the consideration of this issue. The Movement also affirmed that particular attention should be given to peoples under foreign occupation to ensure their unhindered accessibility to humanitarian assistance and that the occupying powers fulfill their obligations under international law and international humanitarian law. The Ministers took note of the presentation of the Secretary-General on Human Security (A/68/685) as follow up to General Assembly resolution 66/290;
24.4. The Movement reiterated its strong concern at the growing resort to unilateralism and unilaterally imposed measures that undermine the UN Charter and international law, and further reiterated its commitment to promoting, preserving and strengthening multilateralism and the multilateral decision making process through the UN, by strictly adhering to its Charter and international law, with the aim of creating a just and equitable world order and global democratic governance;

24.5. The Ministers underlined the critical role of the host countries of the United Nations Headquarters and Offices in preserving multilateralism and facilitating multilateral diplomacy and inter-governmental norm making processes, and called upon all States which host the United Nations Headquarters and Offices to facilitate, in accordance with their obligation under the related Headquarters Agreements, the presence of the representatives of the Member States in the relevant meetings of the United Nations;

24.6. The Ministers expressed their serious concern about the denial of or the delay in the issuance of entry visas to the representatives of any NAM Member States by the host country of the United Nations Headquarters, and reiterated that political considerations shall not interfere with the provision of facilities required under the Headquarters Agreement for the Member States to participate in the United Nations activities.

24.7. The Ministers called upon all countries hosting United Nations and other international meetings to abide by their obligations to issue, without discrimination and undue delay, entry visas to member country delegations in accordance with the Host Country Agreements.

24.8. The Ministers further called upon the sixty-ninth United Nations General Assembly to adopt a resolution establishing a Committee of the United Nations Organization on Relations with the Host Country in Geneva in order to facilitate and enhance structured dialogue with the authorities of the host government.

24.9. The Ministers expressed their serious concern about the arbitrary movement restrictions imposed to the diplomatic officials of some missions of NAM Member States by the Host Country of the United Nations Headquarters. Such restrictions constitute flagrant violations of the Vienna Convention on Diplomatic Relations, the Headquarter Agreements and the international law. In this regard, the Ministers opposed these restrictions and their continued application and urged the Host Country to take without delay all necessary measures to remove them.

24.10. The Ministers stated that international trade is a vital tool to provide long-term sustainable growth. Due to the global financial and economic crisis, the decline in trade has had a severe impact on developing countries through the fall in exports and loss of export revenues, trade barriers and trade distorting subsidies in developed countries, restricted access to trade finance and reduced investment in production diversification and in the promotion of exports remain a matter of concern. In order to fully harness the potential of trade, it is important to uphold a universal, rules-based, open, non-discriminatory and equitable multilateral trading system that contributes to growth, sustainable development and employment, particularly for developing countries.

25. The Ministers reaffirmed the role of South-South cooperation, as a complement to, rather than a substitute for, North-South Cooperation in the overall context of multilateralism as a continuing process, vital to confronting threats and challenges facing developing countries in advancing economic development and social progress, promoting and preserving peace and security, and promoting and protecting all human rights, in particular the right to development, and the rule of law.
26. Consistent with and guided by the aforementioned principled positions and affirming the need to promote, defend and preserve these positions, the Ministers agreed to undertake the following measures, among others:

26.1. Promote and work towards creating a multi-polar world through the strengthening of multilateralism through the UN and the multilateral processes, which are indispensable in promoting and preserving the interests of Non-Aligned Countries;

26.2. Initiate further vigorous transparent and inclusive initiatives to achieve the realization of multilateral cooperation in the areas of economic development and social progress, peace and security, and human rights for all and the rule of law, including through enhancing the Movement’s unity, solidarity and cohesiveness on issues of collective concern and interests, with the aim of shaping the multilateral agenda to embrace development as a fundamental priority, which should take into account the need for developing and developed countries and international institutions to intensify partnerships and coordinate their efforts and resources to effectively address all imbalances in the global agenda;

26.3. Strengthen the articulation of the NAM’s agreed positions and its relevant agreements in the UN Security Council, through the NAM Coordinating Bureau and the NAM Caucus in the Security Council, in accordance with the Movement’s principles. In this context, the Ministers encouraged participation, whenever appropriate, by NAM Observers who are members of the Council in the meetings of the NAM Caucus in the Council and exchange of views, whenever appropriate, with like-minded non-NAM Members on issues of common concern;

26.4. Work towards achieving a universal, rule-based, open, non-discriminatory, and equitable multilateral trading system, stressing the value of multilateralism to achieve a balanced, development oriented and successful conclusion of the Doha round of negotiations, according to its mandate; and urge all States to fulfill their commitments to shape globalization as a positive force and that its benefits are shared evenly by all;

26.5. Strengthen the comparative advantages of existing multilateral arrangements and institutions without compromising the principle of equitable geographical representation and equal partnerships, and promote the democratization of the system of international governance in order to increase the participation of Non-Aligned Countries in international decision making;

26.6. The Ministers reaffirmed that the United Nations is the only global body with universal membership and unquestioned legitimacy and is, therefore, well positioned to address global economic governance with the objective of reaching sustainable development. The role of the UN in global economic governance should thus be strengthened. For the United Nations to fulfill its role in global economic governance, the political will of all Member States to commit to the UN processes and to multilateralism and its underlying values is critical. Member States must commit to working in solidarity on coordinated and comprehensive global responses to global economic governance issues and to undertaking actions aimed at strengthening the role of the UN Development System in responding to global crises and their impact on development. For this, the UN must also be equipped with the necessary resources and capabilities to effectively and quickly address global challenges;

26.7. Stress the importance for the international financial institutions to take concrete steps to democratize their work, including increasing the participation of developing countries and mobilize financial resources for growth and sustainable development of developing countries. Moreover, it is critically important that the financial sector is transparent, accountable and properly regulated so that the financial flows can be mobilized to achieve sustainable and inclusive economic growth;
26.8. **Oppose** unilateralism and unilaterally imposed measures by certain States which can lead to the erosion and violation of the UN Charter, international law and human rights, the use and threat of use of force, and pressure and coercive measures as a means to achieving their national policy objectives; and

26.9. **Strengthen** South-South, North-South and triangular cooperation, including through enhancing the capacities of relevant institutions and mechanisms, as indispensable means to promote and preserve multilateralism and the multilateral process;

26.10. The Ministers **welcomed** the decision of the High Level Committee of the General Assembly on South-South Cooperation (HLC) in 2012 to rename the Special Unit for South-South Cooperation as the UN Office for South-South Cooperation (UNOSSC), hosted by the UNDP, as a separate entity and coordinator for promoting and facilitating South-South and triangular cooperation for development on a global and United Nations system-wide basis and **called**, in this regard, for the full implementation of the paragraph 78 of QCPR. In this context, the UNOSSC is in the best position to oversee the implementation of South-South cooperation, especially through the ongoing implementation of an inter-agency coordination mechanism under the UN Development Group, and further requested the up-scaling of the UN Office for South-South Cooperation (UNOSSC) with additional human, financial and budgetary resources, as stated in General Assembly Resolution 69/239.

**Peaceful Settlement of Disputes, and Non-Use or Threat of Use of Force**

27. The Ministers **reaffirmed** and **underscored** the Movement’s principled positions concerning peaceful settlement of disputes, and non-use or threat of use of force, as follows:

27.1. It is incumbent upon all States to defend, preserve and promote the purposes and principles of the UN Charter and the principles of international law, in particular pacific settlement of disputes and the non-use or threat of use of force.

27.2. The Ministers **reiterated** the basic principle of the UN Charter that all States shall refrain in their international relations from the threat or use of force against the territorial integrity or political independence of any State, or in any other manner inconsistent with the purposes of the UN. The Movement **stressed** that the UN Charter contains sufficient provisions regarding the use of force to maintain and preserve international peace and security, and that achieving this goal by the Security Council should be strictly done in full conformity with the relevant Charter provisions. Resorting to Chapter VII of the Charter as an umbrella for addressing issues that do not pose a threat to international peace and security must be avoided and in this regard, the Council should fully utilize the relevant Charter provisions, where appropriate, including Chapters VI and VIII. In addition, and consistent with the practice of the UN and international law as pronounced by the ICJ, the Article 51 of the UN Charter is restrictive and should not be re-written or re-interpreted.

27.3. The Ministers **expressed** their serious concern and complete dismay at the victimization of innocent civilians in instances where force has been employed or sanctions have been imposed, including those authorized by the Security Council. In the spirit of the UN Charter, they **called on** all States to advance the principle of the non-use of force and peaceful settlement of disputes as a means to achieving collective security rather than the threat of force or use of force, bearing in mind “that armed force shall not be used, save in the common interest” as stipulated in the UN Charter.

27.4. The Ministers **recalled** that the Manila Declaration on the Peaceful Settlement of International Disputes is a landmark declaration, building upon the UN Charter, in
particular its Article 33, and that it was negotiated on the initiative of NAM member countries.

27.5. The Ministers highlighted the importance of the Special Committee on the Charter of the United Nations and on the Strengthening of the Role of the Organization, and in this regard, the Ministers emphasized the NAM proposal on the Pacific settlement of disputes and its impact on the maintenance of peace, presented before the Committee in February 2015 and encouraged the constructive engagement of the Member States in this matter.

28. Consistent with and guided by the aforementioned principled positions and affirming the need to promote, defend and preserve these positions, the Ministers agreed to undertake the following measures, among others:

28.1. Call upon the international community to renew its commitment to uphold and defend the principles of the UN Charter and international law as well as the means envisaged in the UN Charter for the pacific settlement of dispute and non-resort to the threat or use of force;

28.2. Promote and preserve dialogue among civilizations, culture of peace and interfaith dialogue, which would contribute towards peace and security, taking into account the Declaration on Principles of International Law concerning Friendly Relations and Cooperation among States in accordance with the UN Charter, the Declaration on the Strengthening of International Security, and the Declaration on the Enhancement of Effectiveness of the Principles of Refraining from the Threat or Use of Force in International Relations12;

28.3. Strengthen the role of the Movement in peaceful settlement of disputes, conflict prevention and resolution, confidence building, and post-conflict peacebuilding and rehabilitation in or between Non-Aligned Countries, in particular through seriously identifying concrete measures to expedite the creation of a NAM mechanism in this regard, whose terms of reference must be in conformity with its Founding Principles, the UN Charter and international law. Any such mechanism should be based on the consent of the States concerned;

28.4. Oppose and condemn labeling of NAM countries and peoples by certain States through use of pejorative terms as well as systematic vilification of other States’ political and social systems, their traditions and culture, to exert political pressure;

28.5. Express their gravest concern at the anti-ethical intention to totally destroy a sovereign Member State of the Movement, with rhetoric expressions such as “fire and fury” or “totally destroy” beyond the boundary of threats of regime-change or overturn of social system, and, in this regard, to reject and categorically condemn this as a flagrant infringement of the UN Charter and international law;

28.6. Oppose and condemn any categorization of countries as good or evil based on unilateral and unjustified criteria, and the adoption of the doctrine of pre-emptive attack, including attack by nuclear weapons by certain States, which is inconsistent with international law, in particular the international legally-binding instruments concerning nuclear disarmament; and further oppose and condemn all military actions including aggressive joint military exercises, or deployment of nuclear strategic assets, or use of force or threat of use of force against the sovereignty, territorial integrity and independence of Non-Aligned Countries which constitute acts of aggression and blatant violations of the principles of the UN Charter, including non-interference in the internal affairs of States;

---

28.7. **Promote**, in ensuring international peace and security, the diversity of approaches to development and progress consistent with the purposes and principles of the UN Charter and international law as a core value of the Non- Aligned Countries.

28.8. **Recognize** the growing interest in and the provision of mediation and its use as a promising and cost-effective tool in the peaceful settlement of disputes, conflict prevention and resolution, without prejudice to other means mentioned in Chapter VI of the Charter, including the use of arbitration and the roles and functions of the International Court of Justice.

28.9. The Ministers referred to the Resolution A/RES/68/303 of the General Assembly which is encouraged Member States, as well as the United Nations and regional and sub-regional organizations, to increase the awareness on the importance of mediation, as appropriate, though, *inter alia*, the organization of conferences, seminars and workshops, and in this regard took note of regional initiatives to strengthen mediation in their regions.

**Culture of Peace, Dialogue among Civilizations, Religions and Cultures, and Cultural Diversity**

29. The Ministers noted that the world today is composed of States with diverse political, economic, social and cultural systems and religions determined by their history, traditions, values and cultural diversity, whose stability can be guaranteed by the universal recognition of their right to freely determine their own approach towards progressive development. In this context, they emphasized that respect for the diversity of such systems and approaches is a core value which relations and cooperation among States in an increasingly globalizing world should be based on, with the aim of contributing to establishing a peaceful and prosperous world, a just and equitable world order, and an environment conducive to exchanging human experiences. They underscored that the promotion of dialogue among civilizations and the culture of peace globally, in particular through the full implementation of the Global Agenda for Dialogue among Civilizations and its Programme of Action and the Declaration and Programme of Action on Culture of Peace could contribute towards that end.

30. The Ministers welcomed the Global Forums of the UN Alliance of Civilizations that were held consecutively since 2008, and appreciated its efforts for strengthening international partnerships and generate ideas aimed at building trust and cooperation among diverse actors and stakeholders in the promotion of dialogue among civilizations while also stressing the need to maintain the intergovernmental status of the UN and all its related entities, and the role of sovereign States as basic guidelines for the mandate of the Alliance of Civilizations (AoC). They further recalled the outcomes of the Seventh Global Forum of the UNAOC held on 26-27 April 2016 in Baku, Azerbaijan and the active participation of UN Member States, international organizations and civil society in the Global Forum, and welcomed the activities carried out by UNAOC in 2017 to promote dialogue on issues related to migrants, refugees and the role of youth, among others.

31. The Ministers welcomed the adoption of the resolution A/RES/72/137 and the efforts made by the UN and its Member States on the Follow-up to the Declaration and Programme of Action on a Culture of Peace, as presented by Bangladesh at the 72nd UNGA Session. They further welcomed General Assembly Resolutions A/RES/71/275 on International Day of Neutrality and A/RES/72/136 on Promotion of Interreligious and Intercultural Dialogue, Understanding, Cooperation for Peace, as presented by Pakistan and the Philippines. In this regard, the Ministers reaffirmed their commitment to ensure that the promotion of a culture of peace at the national, regional, continental and global level be a powerful enabler towards achieving the goals espoused in the 2030 Agenda for Sustainable Development, and invited Member States to continue to place greater emphasis on and expanding their activities promoting a culture of peace at the national, regional and international levels, and to ensure
that peace and non-violence are fostered at all levels.

32. The Ministers appreciated the initiative of President Rouhani of the Islamic Republic of Iran, which led to the adoption of resolutions 68/127, and 70/109 and 72/241 entitled “a world against violence and violent extremism” by the UN General Assembly at its 68th, 70th and 72nd sessions. In this context, they urged all Member States to unite against violent extremism in all its forms and manifestations as well as sectarian violence and encouraged the efforts of leaders to discuss within their communities the causes of violent extremism and discrimination and evolve strategies to address these causes.

33. The Ministers reaffirmed that the dialogue among all cultures, civilizations and religions should be a durable process and that, in the current international environment, it is not an option but an imperative, sound, and productive tool to promote economic and social development, peace and security, and human rights and the rule of law to guarantee a better life for all. They further reaffirmed in this context that tolerance, acceptance, reconciliation, mutual understanding and respect are fundamental values of international relations and that cultural diversity and the pursuit of cultural development by all peoples and nations are sources of mutual enrichment for the cultural life of humankind and the attainment of human rights for all. The Ministers further appreciated the efforts made by Member States at the 70th UNGA Session by reaffirming their commitment to Culture and Sustainable Development, including through the adoption resolution 70/214. They recalled that, in the 2030 Agenda for Sustainable Development, inter alia, the natural and cultural diversity of the world is acknowledged and it is recognized that cultures and civilizations can contribute to, and are crucial enablers of, sustainable development.

34. Bearing in mind that the current challenges facing international community need to be resolutely addressed by all nations through multilateralism, the Ministers acknowledged initiatives by NAM Member States for promoting peace based on high ethical values, justice and friendship in order to denounce acts of aggression and to reinforce and promote stability, tranquility and durable peace throughout the world.

35. The Ministers recognized the valuable contributions of all religions and beliefs to modern civilization and the contribution that dialogue among civilizations can make to an improved awareness and understanding of common values of tolerance and peaceful coexistence as well as non-discrimination on any grounds.

They further recognized the importance of moderation as an all-encompassing approach and a value within societies to tackle global challenges and threats to international peace and security.

38. The Ministers reiterated the need to continue working towards the promotion of dialogue and understanding among all civilizations, cultures and religions and reaffirmed their commitment to work together to prevent cultural homogenization and domination or incitement to hatred and discrimination, combat defamation of religions and develop better ways for promoting tolerance, respect for and protection of the freedom of religion and belief, including the right to preserve one’s cultural identity. They stressed the role the General Assembly and the relevant UN organs can play in that respect in particular
through furthering the much-needed dialogue on those important and sensitive issues.

39. The Ministers recognized the ever-increasing significance and relevance of a culture of living in harmony with nature, which is inherent in nomadic civilization, in today’s world. They, therefore, welcomed the efforts of States to preserve and develop nomadic culture and traditions in modern societies.

40. 70. 80. The Ministers remained concerned by the lack of and/or uneven progress made by least developed countries, landlocked developing countries and small island developing States, and Africa in achieving the internationally agreed development goals including the Millennium Development Goals, and in this regard reiterated the importance of strengthening global partnership in the follow-up to and implementation of the Istanbul Programme of Action for the Least Developed Countries for the Decade 2011-2020, adopted in the Fourth United Nations LDCs Conference at Istanbul on 9-13 of May 2011, and the Vienna Programme of Action, adopted at the 2nd UN conference on Landlocked Developing Countries: Addressing the Special Needs of Landlocked Developing Countries within a New Global Framework for Transit Transport Cooperation for Landlocked and Transit Developing Countries and the SIDS
ACCELERATED MODALITIES OF ACTION [S.A.M.O.A.] Pathway, adopted at the third International Conference on Small Island Developing States in September 2014, as well as the African Union’s Agenda 2063 and its first ten-year implementation plan.

81. The Ministers drew particular attention to the importance of the fulfillment, without further delay, of all Official Development Assistance commitments, including the commitments by some developed countries to achieve the target of 0.7 per cent of gross national product for Official Development Assistance to developing countries, as well as a target of 0.15 to 0.20 per cent of gross national product for official development assistance to least developed countries. In this regard, the Ministers further urged the developed countries to take all necessary and appropriate measures to raise the rate of aid disbursements to meet their existing commitments so as to reach their agreed timetables, in order to assist developing countries to meet the SDG’s targets and Internationally Agreed Development Goals (IADG). They agreed to highlight the importance of the ECOSOC’s Development Cooperation Forum (DCF) as the focal point within the United Nations system for holistic consideration of issues of international development cooperation with participation of all relevant stakeholders, including for monitoring the progress made towards achieving those targets.

82. The Ministers underscored the central role of the global partnership for development and the importance of providing the necessary means of implementation for the 2030 Agenda for Sustainable Development. The Ministers called on the international community to intensify its efforts to provide enhanced means of implementation to the developing countries through a strengthened global partnership in the collective quest to eradicate poverty in all its forms and dimensions.

83. The Ministers reaffirmed that economic and social development are the centerpiece of the objectives and operational activities of the UN. The achievement of the Internationally Agreed Development Goals (IADG), Sustainable Development Goals and the 2030 Agenda for Sustainable Development should be the relevant framework of the development activities of the UN system and other relevant international organizations.

84. The Ministers underlined the insufficient and uneven progress achieved in the effective implementation of the Internationally Agreed Development Goals. In this regard, the Ministers stressed the importance of securing the effective and full implementation of the agreed development goals and commitments, including the strengthening of the global partnership for development, based on the recognition of national ownership and development strategies. They further emphasized that poverty eradication and sustainable development must be the highest priority of the United Nations Development Agenda.

85. The Ministers stressed the important role of the United Nations in addressing issues concerning international trade and development, as well as the persistent systemic inequities in international economic relations, in particular the slow progress in enhancing the voice and participation of developing countries in the International, Financial Institutions, which are to the detriment of developing countries. In this regard, they emphasized the need for a comprehensive and structural reform of the global financial and economic governance and architecture in order to establish an equitable, transparent and democratic international system that strengthens and broadens the participation of developing countries in international economic decision making and norm setting. In that context, they also underscored the need to strengthen and implement the development dimension in the series of international economic, financial and trade negotiations. The Ministers reiterated the call for the international community, the United Nations system, including the United Nations Conference on Trade and Development, and international organizations and institutions, including the Bretton Woods institutions and the World Trade Organization, to translate all commitments made at the major United Nations conferences and summits, in the economic, social and related fields into concrete and specific actions in order to, inter alia, achieve the internationally agreed development goals within the agreed timeframes, and calls for the efficient use of monitoring and follow-up mechanisms to ensure that these commitments and
actions are effectively implemented.

86. The Ministers stressed the need for the United Nations to play a fundamental role in the promotion of international cooperation for development and the coherence, coordination and implementation of the internationally agreed development goals, including the, agreed upon by the international community, and resolves to strengthen coordination within the United Nations system in close cooperation with all other multilateral financial, trade and development institutions in order to support sustained, inclusive and equitable economic growth, poverty and hunger eradication and sustainable development.

87. The Ministers stressed that sub-regional, regional, interregional and international cooperation plays an important role in helping developing countries to integrate into the global economy and to achieve their development objectives and the millennium Development Goals and the 2030 Agenda for Sustainable Development, as well as in promoting the global partnership for development. The Ministers also recognized the need to enhance synergies and complementarities among regional, sub-regional and interregional cooperation processes and emphasized the role that the United Nations as well as other relevant international institutions can play in supporting such cooperation.

88. The Ministers welcomed the Global Strategy for Women’s and Children’s Health undertaken by a broad coalition of partners, which aims at supporting national plans and strategies in health matters, in order to significantly reduce the number of maternal, new born and under-five child deaths as a matter of immediate concern by scaling up a priority package of high-impact interventions, so as to reduce maternal and child mortality in accordance with Sustainable Development Goal 3, and also welcomed of the various national, regional and international initiatives on all the SDG’s, including those undertaken bilaterally and through South-South cooperation.

89. Consistent with, and guided by the aforementioned principled positions and affirming the need to promote, defend and preserve these positions, the Ministers agreed to continue to undertake the following measures, among others:

89.1. Actively engage in the follow-up process and the implementation of the commitments contained in the 2030 Agenda for Sustainable Development as well as the international development goals agreed at the major UN conferences and summits in the economic, social and related fields, in a manner that would advance the principled positions of the Movement towards the issues under consideration;

89.2. Call for international support to strengthen South-South cooperation, which complements, and does not substitute, North-South cooperation, including regional, inter-regional and triangular cooperation and in this context, the Ministers recalled the 2009 High-level United Nations Conference on South-South Cooperation in Nairobi, Kenya, and called for further implementation of the Nairobi outcome document in close coordination and collaboration with the UN Office for South-South Cooperation, and in keeping with relevant General Assembly resolutions;

89.3. Call for continuous international support and commitment for the conclusion of development-oriented negotiations of Doha Round to strengthen the multilateral trading system and reaffirm their commitment to WTO as the preeminent global forum for trade, including negotiating and implementing trade rules, settling disputes and supporting development through the integration of developing countries into the global trading system;

89.4. The Ministers reiterated the importance of a strong and effective intergovernmental inclusive mechanism under the UN system, in order to provide for adequate follow up of the implementation of the mandates agreed to in Monterrey, in Doha and in Addis Ababa, in addition to holding a follow up Financing for Development International
Conference in 2015 and welcomed the effective operationalization of the High Level Political Forum to achieve its functions in following up and reviewing the progress in the implementation of the 2030 Agenda for Sustainable Development including the Means of Implementation.

The 2030 Agenda for Sustainable Development

90. The Ministers noted that over two years has passed since the adoption of the 2030 Agenda for Sustainable Development and that significant effort is being exerted on implementing the Agenda; however, they acknowledged that the pace of implementation is still quite distant from achieving sustainable development for all, in particular for the poorest and most vulnerable. They reiterated the continued unwavering commitment of NAM to further translating ambitions set out in the Agenda into real action. Further support is needed from developed countries especially regarding the transfer of technology, capacity building and financing to developing countries.

91. The Ministers also noted that the 2030 Agenda for Sustainable Development reaffirms all the principles of the United Nations Conference on Environment and Development, held in Rio de Janeiro, Brazil, in 1992, in particular the principle of common but differentiated responsibilities. They further reaffirmed that the implementation of the 2030 Agenda for Sustainable Development should be guided by the principles in accordance with paragraph 74 of the 2030 Agenda.

92. The Ministers reaffirmed that the 2030 Agenda for Sustainable Development is a plan of action for people, planet and prosperity, where no one is left behind, which also seeks to strengthen universal peace in larger freedom, and further recognized that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development. They emphasized that the Sustainable Development Goals are integrated and indivisible and balance the three dimensions of sustainable development -economic, social and environmental-, without emphasizing one over the other, and that even though progress has been made, the pace of implementation must be accelerated as the tasks to face are urgent.

93. In this regard, the Ministers welcomed the progress made by Member States in their national implementation of the 2030 Agenda for Sustainable Development, but stressed that implementing it at all levels requires a revitalized global partnership, which can only be fully achieved if supported by the concrete policies and actions outlined in the Addis Ababa Action Agenda, and the full implementation of SDG 17. In this context, enhancing support to developing countries is fundamental, including through provision of development financial resources, transfer of technology on favorable terms including on concessional and preferential terms, enhanced international support and targeted capacity-building and promoting a rules-based and non-discriminatory multilateral trading system. They urged the international community and relevant stakeholders to make real progress in these issues, including developing action plans to support the implementation of the 2030 Agenda.

94. The Ministers stressed the crucial importance of partnership for the implementation of Sustainable Development Goals and called for coordination and sharing of experience among nations that can boost the capacity of countries to achieve the 2030 Agenda. In this regard, they welcomed the regional SDG coordination leaders-fora “Building a Partnership to Underpin National Sustainable Development Solutions” held in Minsk, Belarus, in February 2018, and the Forum of the Latin American and Caribbean Countries on Sustainable Development, to be held in Santiago, Chile, in April 2018.

95. The Ministers reaffirmed that the Addis Ababa Action Agenda of the Third International Conference on Financing for Development, which is an integral part of the 2030 Agenda for Sustainable Development, supports and complements it, helps to contextualize its means of implementation targets with concrete policies and actions, and reaffirms the strong political
commitment to address the challenge of financing and creating an enabling environment at all levels for sustainable development in the spirit of global partnership and solidarity. Therefore, they recognized that the full implementation of the Addis Ababa Action Agenda is therefore critical for the realization of the SDG's and their targets.

96. The Ministers noted that the 2030 Agenda for Sustainable Development should also be implemented consistent with existing obligations of all UN Members States, in order to ensure that it addresses inequalities and discrimination as its central defining feature. Given the reality of countries being at different levels of development, underpinned by the principle of Common But Differentiated Responsibilities (CBDR), they cautioned that the successful implementation of the SDG's will be largely uneven and progress hampered by such challenges.

97. The Ministers recalled that the 2030 Agenda was adopted at a time of immense challenges to sustainable development. Billions of our citizens continue to live in poverty and are denied a life of dignity. There are rising inequalities within and among countries. There are enormous disparities of opportunity, wealth and power. Gender inequality and empowerment of women remains a key challenge. Unemployment, particularly youth unemployment, is a major concern, especially in Africa.

98. The Ministers reaffirmed the importance of the inclusion of youth in the process of the implementation of the 2030 Agenda for Sustainable Development, including the SDGs, and National Development Policies. In this regard, they recognized the King Hamad Youth Empowerment Award to Achieve the Sustainable Development Goals which was launched during the ECOSOC Youth Forum in January 2017 as a global award and one of a set of pioneering initiatives in the field of youth empowerment and skills development by the Kingdom of Bahrain. This award is open to all youth around the world, as it will aim to empower young people and give them the attention, encouragement and motivation needed. It will also encourage all eligible participants to improve the enabling environment and infrastructure for youth to allow them to be effective and productive citizens contributing to their communities. In cooperation with the Secretary-General’s Special Envoy for Youth, the award will be granted in the following four categories during 2018: Government sector, Private sector, Non-profit organizations, and Individuals.

99. The Ministers commended the Kingdom of Bahrain on the success of The World Entrepreneurs Investment Forum which was held in Manama from 30 October until 1 November 2017, under the patronage of HRH Prince Khalifa Bin Salman Al Khalifa, Prime Minister of the Kingdom of Bahrain, in cooperation with UNIDO and attended by officials, experts and entrepreneurs from 90 different countries, attracting around 1,000 entrepreneurs. The Forum adopted the Manama Declaration “Achieving the Sustainable Development Goals through Entrepreneurship & Innovation”. The outcome of the Forum was issued as Document A/72/626 of the United Nation’s General Assembly on 7 December 2017 under Agenda Item 26.

100. The Ministers welcomed the New Urban Agenda, adopted at the United Nations Conference on Housing and Sustainable Urban Development (Habitat III), held in Quito, Ecuador, from 17 to 20 October 2016, and reaffirmed that its implementation contributes to the implementation and localization of the 2030 Agenda for Sustainable Development in an integrated manner, and to the achievement of the Sustainable Development Goals and targets, including Goal 11 of making cities and human settlements inclusive, safe, resilient and sustainable.
United Nations: Institutional Reform

A. Reform of the United Nations

101. The Ministers reaffirmed and underscored the validity and relevance of the Movement’s principled positions concerning the institutional reform of the UN, as follows:

101.1. The UN remains the central and indispensable forum for addressing issues relating to international cooperation for economic development and social progress, peace and security, peaceful settlement of disputes, human rights and the rule of law, based on dialogue, cooperation and consensus-building amongst States. In this context, the Movement attaches great importance to the strengthening of the role of the UN and stresses that efforts should be made to develop its full potential;

101.2. The purpose of reform is to maintain the central role of the United Nations in development, through making the UN development system more responsive, efficient and effective in its support to developing countries to achieve the internationally agreed development goals, including the Sustainable Development Goals, on the basis of their national development strategies, and that reform efforts should enhance organizational efficiency and achieve concrete development results by emphasizing on the need of closing the gap between developed and developing countries, reflecting a vision of sustainable development and prioritizing the needs of developing countries. It should also enhance cooperation benefiting all in international relations and global partnerships and reaffirm the commitment set out in Rio+20 outcome document toward a world that is just, equitable, inclusive and prosperous, as well as the commitment set out in the 2030 Agenda for Sustainable Development;

101.3. The reform of the UN, which remains a collective agenda and high priority for the Movement, is a dynamic and ongoing process and not an end in itself in accordance with the parameters for the objective and scope of the review exercise set out by the 2030 Agenda for Sustainable Development. Reform of the UN must be comprehensive, transparent, inclusive and balanced, and pursued in an effective and accountable manner, fully respecting the political nature of the Organization as well as its intergovernmental, universal and democratic character, consistent with the Charter. In this context, the voice of every Member State must be heard and respected during the reform process irrespective of the contributions made to the budget of the Organization, while stressing any reform measure should be decided by Member States through an intergovernmental process in accordance with the Charter;

101.4. In this context, the Ministers welcomed the adoption of resolution 39C/20, which incorporates the recommendations of the Open-Ended Working Group on the governance, procedures and working methods of UNESCO’s governing bodies (38C/101), which contributes to the global, holistic and comprehensive reform of UNESCO, particularly its governing bodies, in order to ensure greater efficiency and transparency in the management of the Organization and the decision-making process;

101.5. In this regard, the Ministers underlined that all reform proposals must be considered in a comprehensive and integrated manner. Thus, they stressed the need to adopt a coherent approach in the negotiations in order not to hamper the decision making process that could have a negative impact on the effective functioning of the organization;

101.6. The Ministers stressed the central role of the United Nations in Global Governance and that it could only be achieved through strictly observing the delicate balance in the Charter between the principal organs of the United Nations, revitalizing the work of the General Assembly and the Economic and Social Council, and the reform of the Security Council, including its adequate expansion, democratization,
improving its transparency, accountability and working methods;

101.7. The Ministers emphasized the need for the payment of assessed contributions by major contributors, which is critical to the financial stability of the Organization, to be made timely, in full and without conditions so as to enable the UN to carry out its mandates effectively. A reformed UN must be responsive to the entire membership, faithful to its founding principles and capable of carrying out its mandate;

101.8. The impact of UN reform on developing countries is yet to be felt given the continuous decline in the resources made available to the UN as a whole, and in particular for multilateral development cooperation. The Ministers underscored the need for a substantially larger allocation and better use of resources to strengthen the development pillar of the United Nations, which includes that Department of Economic and Social Affairs, UNCTAD, Regional Commissions and the Development Account. In this context, the Ministers expressed particular concern at the fact that the current system of financing of the Development Account has failed to work and stressed the need to address the perennial issue of the funding mechanism for the Account, as a matter of priority, in order to provide a predictable and sustainable funding to the Account. The Ministers expressed concern over current trends of the UN budget, including proposals to transfer funding of posts and activities from the regular budget to extra budgetary resources, in particular in budget sections related to economic and social areas. The success of UN reform can only be judged in terms of a collective assessment of the potential improvements in the functioning of the Organization while preserving the interests of all developing countries and the quality and efficiency of the services provided to all member states. In this context, UN reform shall be strictly approved by the General Assembly and its ultimate goal shall not be to cut in the UN budget and resources. Should reforms however release part of existing resources, such resources shall be ultimately redirected to support activities and programmes related to international cooperation for development;

101.9. The Ministers reaffirmed that the High-Level Political Forum on Sustainable Development (HLPF) was mandated to provide political leadership, guidance and recommendations for the implementation of sustainable development commitments and that it has a central role in overseeing a network of follow-up and review processes of the 2030 Agenda at the global level, working coherently with the General Assembly, the Economic and Social Council and other relevant organs and forums, in line with existing mandates.

101.10. The objectives of UN reform, which should include the revitalization and strengthening of the General Assembly and the ECOSOC as well as reforming the Security Council and other relevant UN bodies while addressing at the same time the systemic issues which may arise as a result, are:

(a) to strengthen multilateralism and the inclusive multilateral decision-making process, providing the UN with a substantive capacity to fully and effectively meet the purposes and principles enshrined in its Charter, and at consolidating its democratic and inter-governmental character and its transparency in the discussion and implementation of decisions by Member States;

(b) to strengthen and update the role of the Organization, as the pre-eminent and indispensable forum, by developing its full potential in addressing threats and challenges to economic development and social progress, peace and security, and human rights and the rule of law which could be achieved through the implementation of all of its mandates, decisions and resolutions, bearing in mind that a stronger UN that responds more effectively to their collective needs is in their common interest;
(c) to promote greater democracy, effectiveness, efficiency, transparency, non-selectivity, inclusiveness, impartiality and accountability, national ownership, as well as fair and adequate representation of women, regional groups and developing countries within the UN system;

(d) to strengthen the role of the Organization in promoting international cooperation in the maintenance of international peace and security and in particular for development and in implementing the internationally-agreed development goals, in the economic, social and related fields, including the Sustainable Development Goals, through the provision of adequate resources and effective follow-up mechanisms. In this context, any UN reform proposal should also address systemic issues and requirement for additional human and financial resources that may arise as a result; and

(e) to mainstream the development dimension within the General Assembly, ECOSOC and the economic sectors of the UN system, including in the areas of sustainable development, policy space, South-South cooperation and environmental responsibility and accountability, bearing in mind the aim of enabling the full participation of peoples from the South in the international decision and rule-making economic processes, and ensuring their access to and full enjoyment of the benefits of the international economy.

101.11. In acknowledging the interconnectedness of economic development, social development and environmental protection, peace and security, and human rights and the rule of law, efforts should be made to ensure that any effort to transform the UN into a more effective instrument for preventing conflict should take into account the need for a balanced coherent and comprehensive approach in countries facing humanitarian emergencies and in countries in conflict and post-conflict situations, in accordance with its Charter and international law, in order to enhance conflict prevention and resolution and post-conflict peace-building strategies with the aim of achieving sustained economic growth and sustainable development. In this context, it is critical that all principal organs of the UN play an active role in evolving and implementing a more effective collective security system, in accordance with their respective functions and powers;

101.12. It is indispensable for UN Member States to develop common perceptions and agreed approaches to address existing, new and emerging threats and challenges to international peace and security as well as the root causes of conflict. Such common perceptions and approaches to collective security would only be legitimate if they are developed in accordance with the purposes and principles of the Charter and by all Member States acting together. The active participation of each and every principal organ of the UN is crucial, acting both in the exercise of its respective functions and powers, without upsetting the balance as established by the Charter thereof;

101.13. Efforts to strengthen the contribution of civil society, non-governmental organizations and the private sector to the work of the UN and its bodies through the established consultative arrangements should continue to be pursued, in accordance with the relevant UN resolutions and should serve the purposes and principles of the UN Charter. Such contribution should seek, inter alia, to address in particular the obstacles that developing countries are experiencing in mobilizing the resources and in obtaining the technology and capability needed to implement their sustainable development programmes;

101.14. The Ministers reiterated the Movement’s principled position regarding the review of mandates of the United Nations programme and activities, as contained in the Final Document of the 14th NAM Summit in Havana, as well as the joint letter, dated 3 January 2007, signed by the Chairs of NAM and the Group of 77 and China, issued as
101.15. The Ministers acknowledged the conclusion of the mandate review process and took note of resolution 62/278, in particular, paragraph 4 by which the General Assembly called upon its relevant bodies and subsidiary organs, within their respective mandates and in accordance with the established regulations and rules governing programme planning, to continue improving the implementation of mandates and addressing the continuing validity of legislative decisions and the effective coordination among units of the Secretariat and other structures of the United Nations system.

102. The Ministers expressed satisfaction over the high level of coordination and activism reached by the JCC, between NAM and G-77 and China, in following up various aspects of the UN reform, which has placed them as key players, also contributing to the advancement of the interests of the developing countries, and called in this regard for further cooperation and coordination, including through the JCC in related areas of common concern.

103. Consistent with and guided by the afore-mentioned principled positions and affirming the need to defend, preserve and promote these positions, the Ministers agreed to continue to pursue the following measures:

103.1. Promote the concerns and interests of developing countries, in the reform process, ensure its successful outcome, and promote and preserve the integrity and respective functions and powers of the General Assembly, the ECOSOC, and the Security Council as defined in the Charter;

103.2. Oppose proposals that seek; (a) to transform the democratic and intergovernmental nature of the UN as well as its oversight and monitoring processes including any proposal that seeks to undermine the role of the Fifth Committee of the General Assembly, as the main committee for administrative and budgetary issues; (b) to impose an artificial cap on budget levels; (c) to fund more activities from within the existing pool of resources; or (d) to redefine the Charter-based functions and powers of its principal organs on budgetary related issues;

103.3. Engage constructively in consultations and work, in particular through ensuring the implementation of the relevant UN decisions and resolutions thereof: (a) revitalizing the work of the General Assembly, in view of its central role and position as the chief deliberative, policy making and representative organ of the UN; (b) strengthening the role of the ECOSOC as a principal body for coordination, policy review, policy dialogue and recommendations on issues of economic and social development, and monitoring the implementation of development programmes; (c) democratization and comprehensive reform of the Security Council as an effective forum in the maintenance of international peace and security by expanding it to include greater representation of developing countries, proportionate to the increase in number of developing countries in the General Assembly, and in keeping with the principle of sovereign equality of states; and (d) reforming the Secretariat and its management in order to ensure the efficient and effective implementation of all mandates and to provide the highest level of accountability and transparency, at all levels, within the Secretariat and from the Secretariat to Member States through the establishment of a clear and implementable accountability framework;

103.4. Enhance the global partnership for development that is necessary to fully realize the outcomes of all major UN summits and conferences in the economic, social and related fields with the view to addressing multiple global threats and challenges in these areas;

103.5. Oppose the tendency to equate reform of the UN with greater empowerment of the Security Council, mindful of the need to keep the balance among the functions and
powers of the principal organs of the UN;

103.6. *Ensure* that the UN is provided with sufficient resources and on a timely and unconditional basis needed to fully implement all mandated programmes and activities, in accordance with relevant General Assembly resolutions, including evolving a mechanism to monitor their effective implementation;

103.7. *Promote*, in close cooperation with the Group of 77 and China, the allocations of additional resources to further strengthen the development pillar of the United Nations;

103.8. *Maintain* close inter-governmental oversight and review of all proposals, which are yet to be considered and acted upon by the General Assembly, as well as those, which are being implemented; and

103.9. *Preserve* the unity of purpose and action achieved by NAM and the G-77 and China through the JCC, including in other UN headquarters in following up on the various aspects of the UN reform in order for the interests and concerns of developing countries to be adequately reflected in the final outcome of this process.

104. The Ministers *took note* of the report of the Secretary-General, *expressed* their support to the vision for reforming the peace and security pillar, and *looked forward* to the comprehensive report of the Secretary-General on his peace and security pillar reform proposal.

**B. Relationship among the Principal Organs of the United Nations**

105. The Ministers *underscored* the need for UN Member States to fully respect the functions and powers of each principal organ of the UN, in particular the General Assembly, and to maintain the balance among these organs within their respective Charter-based functions and powers. They *stressed* that the Security Council must fully observe all Charter provisions as well as all General Assembly resolutions, which clarify its relationship with the latter organ and other principal organs. In this context, they *affirmed* that Article 24 of the Charter does not necessarily provide the Security Council with the competence to address issues which fall within the functions and powers of the General Assembly and the ECOSOC, including in the areas of norm-setting, legislation, administrative and budgetary matters, and establishing definitions, bearing in mind that the Assembly is primarily tasked with the progressive development of international law and its codification.16 The Ministers *expressed* their grave concern over the increasing and continuing encroachment by the Council on issues which clearly fall within the functions and powers of other principal organs of the UN and their subsidiary bodies. They *further stressed* that close cooperation and coordination among all principal organs is highly indispensable in order to enable the UN to remain relevant and capable of meeting the existing, new and emerging threats and challenges.

106. The Ministers *stressed* that while Member States have conferred on the Security Council primary responsibility for the maintenance of international peace and security pursuant to Article 24 (1) of the UN Charter and in carrying out its duties under this responsibility, the Council acts on their behalf. In this context, they *further stressed* that the Council should report and be accountable to the General Assembly in accordance with Article 24 (3) of the Charter.

107. The Ministers *reiterated* their concern over the continuing encroachment by the Security Council on the functions and powers of the General Assembly and the Economic and Social Council through addressing issues which traditionally fall within the competence of the latter organs, and the attempts to enter areas of norm-setting, administrative and budgetary matters and establishing definitions which fall within the purview of the Assembly. They further

---

16 In accordance with Article 13 (1) of the UN Charter
expressed concern over the constant attempts by the Security Council to use some thematic issues under its consideration, including those related to human rights to expand its mandate into areas which do not pose a threat to international peace and security, and further urged the Council to confine to its mandate in accordance with the Charter provisions.

108. They reaffirmed that all organs and bodies of the United Nations should only carry out those tasks which are established in their respective mandates. In that regard, they reiterated that the principal UN organs have distinct and separate roles in accordance with the UN Charter.

109. Consistent with and guided by the afore-mentioned principled positions and affirming the need to defend, preserve and promote these positions, the Ministers will continue to undertake the following measures, among others:

109.1. Urge all States to uphold the primacy of and full respect for the provisions of the UN Charter pertaining to the functions and powers of the Assembly, call on the Presidents of the General Assembly, the ECOSOC and the Security Council to conduct regular discussions and coordination among themselves regarding the agenda and programme of work of the respective principal organs that they represent in order to establish increased coherence and complementarity among these organs in a mutually reinforcing manner, respectful of each other’s’ mandates, and with a view to generating a mutual understanding among them, with whom the members of the respective organs that they represent have vested in good faith their trust and confidence;

109.2. Welcome as a step forward the informal meetings between the July’s Presidents of the Council, and UN Member States on the preparation of the annual report of the Security Council, including those convened by the Socialist Republic of Vietnam in 2008, Uganda in 2009, Nigeria in 2010, Germany in 2011, Colombia in 2012, the United States of America in 2013, Rwanda in 2014 and in 2015 and call for more regular interactions between future July’s Presidency of the Security Council and the wider membership of the United Nations, which can help enhance the quality of such reports;

109.3. Call on the Security Council to submit a more explanatory, comprehensive and analytical annual report to the General Assembly, assessing the work of the Council, including such cases in which the Council has failed to act, and the views expressed by its members during the consideration of the agenda items under its consideration. Further call on the Security Council to elaborate the circumstances under which it adopts different outcomes whether resolutions, presidential statements, press statements or elements to the press;

109.4. Call on the Security Council, pursuant to Articles 15 (1) and 24 (3) of the UN Charter, to submit special reports for the consideration of the General Assembly;

109.5. Call on the Security Council to ensure that its monthly assessments are comprehensive and analytical, and issued in a timely fashion. The General Assembly may consider proposing parameters for the elaboration of such assessments;

109.6. Call on the Security Council to fully take into account the recommendations of the General Assembly on matters relating to international peace and security, consistent with Article 11 (2) of the Charter; and

109.7. Oppose and stop ongoing attempts to shift issues under the agenda of the General Assembly or the ECOSOC to the Security Council, and the encroachment by the latter on the functions and powers of the Assembly.

109.8. Reiterate its concern and opposition to the on-going practice by the Security Council
of continually dealing with human rights issues which do not pose threat to international peace and security and called on the Security Council to respect its mandate as outlined in the UN Charter, as clearly stated in the Communiqué issued by the Coordinating Bureau of the Movement on 18 April 2017.

C. Revitalization of the Work of the General Assembly

110. The Ministers reaffirmed and underscored the validity and relevance of the principled positions of the Movement concerning the revitalization of the work of the General Assembly, as follows:

110.1. The role and authority of the General Assembly, including in questions related to international peace and security, as the chief deliberative, policy-making and representative organ of the UN, and its inter-governmental and democratic character as well as that of its subsidiary bodies, which have immensely contributed to the promotion of the purposes and principles of the UN Charter and the goals of the Organization, and the codification and progressive development of international law must be respected. Its prerogative as the chief oversight organ of the UN, including on management and procurement for peacekeeping operations, must also be respected;

110.2. The revitalization of the work of the General Assembly – which must be guided by the principles of democracy, transparency and accountability and achieved through open-ended and inclusive consultations – is a critical component of the comprehensive reform of the UN, and its objectives should continue to strengthen the role and position of the General Assembly as the chief deliberative, policy-making and representative organ of the United Nation, bearing in mind that the improvement of its procedural and working methods is only a first, though timely and important step towards a more substantive improvements and revitalization of the Assembly; and to restore and enhance the role and authority of the General Assembly, including in the maintenance of international peace and security as provided for in the Charter, through, inter alia, fully respecting its functions and powers and strengthening its relationship and coordination with other principal organs, in particular the Security Council.

111. The Ministers welcomed the decision taken in paragraph 4 of UNGA resolution 69/321, and subsequent resolutions 70/305 and 71/323, requesting the Ad Hoc Working Group to continue the process of the comprehensive review of the inventory chart on the status of implementation of the resolutions on revitalization of the General Assembly and to issue an updated version, as well as the request to the Secretary General to submit an update on the related provisions that have not been implemented with an indication of the constraints and reasons behind the lack of implementation. Such document will give to the Member States the opportunity to assess the progress achieved in the implementation of the previous resolutions since the 63rd session.

111.1. The Ministers took note of the UN Secretary General reports A/70/681 (2016) and A/71/780 (2017), and requested the Secretary-General to submit an update on the related provisions of the GA resolutions on revitalization addressed to the Secretary for implementation that have not been implemented with an indication of the constraints and reasons behind the lack of implementation. Such document will give to the Member States the opportunity to assess the progress achieved in the implementation of the previous resolutions since the 63rd session.

112. Consistent with and guided by the afore-mentioned principled positions and affirming the need to defend, preserve and promote these positions, the Ministers agreed to continue to implement the following measures, among others:

---

17 As affirmed in the Millennium Declaration, and reaffirmed in the 2005 World Summit Outcome Document as well as in other relevant General Assembly resolutions.
112.1. **Support** all ongoing and continuous efforts to strengthen the central role and authority of the Assembly, taking into account the criteria of relevance and efficiency; **oppose** any reform proposal that seeks to challenge the central role and authority of the General Assembly as the chief deliberative, policy-making and representative organ of the UN; and **oppose** any approach that seeks to or could result in undermining or minimizing the achievements of the General Assembly or the mandates of its main committees, diminishing its current role and functioning, or raising questions about its relevance and credibility;

112.2. **Stress** the importance of implementing all previous resolutions on the revitalization of the work of the General Assembly, as well as the continuous follow-up on the effective implementation of these resolutions;

112.3. **Call on** UN Member States to renew their commitment and political will to implement **General Assembly** decisions and resolutions on a non-selective and non-discriminatory basis, since the failure to do so is at the root of many unresolved questions;

112.4. **Ensure** that the UN is provided with the resources needed to fully implement all mandated **programmes** and activities, in accordance with relevant General Assembly resolutions;

112.5. **Reaffirm** the role and authority of the General Assembly, including on questions relating to international peace and security, as stipulated in Articles 10, 11, 12, 13, 14 and 35 of the Charter of the UN, where appropriate using the procedures set forth in rules 7, 8, 9 and 10 of the rules of procedure of the General Assembly, which enable swift and urgent action by the Assembly, bearing in mind that the Security Council has primary responsibility for the maintenance of international peace and security in accordance with Articles 12 and 24 of the Charter;

112.6. The Ministers **reiterated** the role of the General Assembly in the maintenance of international peace and security and **expressed grave concern** at instances wherein the Security Council fails to address cases involving genocide, crimes against humanity, war crimes or ceasefire between belligerent parties, in fulfillment of its primary responsibility in this regard;

112.7. The Ministers **emphasized** that in such instances where the Security Council has not fulfilled its primary responsibility for the maintenance of international peace and security, the General Assembly should take appropriate measures in accordance with the Charter to address the issue. To this extent, the Ministers **recalled** the decision taken at the 14th NAM Summit authorizing representatives of the Movement Member States to the UN in New York to work on an appropriate draft resolution to be submitted to the General Assembly on this issue;

112.8. **Promote and preserve** the role and mandate of the General Assembly in setting the priorities of the UN and in considering all budgetary and administrative issues and reform, including its absolute authority to allocate and reallocate financial and human resources, and in the appointment of senior officials in the Secretariat in accordance with the Charter and General Assembly resolutions thereof, through **ensuring**, inter alia, the full adherence by UN Member States to such resolutions;

112.9. In this regard, the Ministers **underlined** that in exercising its role, the General Assembly should ensure that the respective mandates and areas of competencies of all its main Committees be fully respected by all relevant stakeholders.

112.10. **Ensure** that the General Assembly should remain the principal organ that provides
the only framework for reviewing the work of all its subsidiary organs and bodies.

112.11. *Identify* measures to simplify the Uniting for Peace procedure to enable swifter and urgent *action* by the General Assembly, in recognition of its role on issues relating to international peace and security as set out in the Charter;

112.12. *Strengthen* the role of the General Assembly in accordance with article 97 of the UN Charter in the *selection* of the Secretary General of the Organization. In this regard, the role of the General Assembly is imperative in ensuring the transparency, accountability and competitiveness of the process. This requires the Assembly’s involvement at early stage of the selection process when identifying candidates for this post;

112.13. *Stress the need* to enhance and strengthen the role of the Office of the President of the General Assembly, through the allocation of sufficient human and financial resources from the regular budget of the United Nations, and to provide the President of the General Assembly with adequate protocol and security services, as well as adequate office space, with a view to enabling the President to carry out his/her functions in a manner commensurate with the dignity and stature of the Office.

112.14. *Underlines* the importance for the United Nations secretariat to continue improving its forms and methods of work to ensure smooth and effective functioning of the General Assembly and its bodies, as well as enhance synergies and coherence and reduce overlaps where it exists in the agenda of the General Assembly. In this regard, they welcomed paragraph 51 of resolution 71/323, which includes changes to the way in which the UN Journal will be published, thereby reflecting the Organization’s commitment to multilingualism.

112.15. The Ministers *commended* the ongoing work of the NAM Working Group on the revitalization of the General Assembly under the chairmanship of Algeria, in coordinating issues of common concern to the Movement. They encouraged all NAM delegations to continue to actively participate in the Working Group with a view to promote and achieve the objectives of the Movement.

112.16. The Ministers welcomed paragraph 16 resolution 71/323, which requests to limit High-Level Meetings of UNGA to current issues of critical importance to the international community, with the interest of the wider membership in mind, and with a focus on the most vulnerable, while encouraging the allocation of events of a strictly sectorial or thematic nature to the six Main Committees.

**D. Selection and Appointment of the Secretary-General of the United Nations.**

113. The Ministers *underlined* the central role of the General Assembly in the process of selecting and appointing the Secretary-General of the UN, and *expressed support* for efforts aimed at reinforcing and strengthening the role of the Assembly in this regard, and *agreed that* all Non-Aligned Countries shall engage actively in these efforts.

113.1. The Ministers *reaffirmed*, in this regard, that the Secretary-General shall be appointed by the General Assembly, in line with the provisions of Article 97 of the UN Charter. They further reaffirmed the provisions of the Rules of Procedure of the General Assembly on this matter; namely, that when the Security Council has submitted its recommendation on the appointment of the Secretary-General, the General Assembly shall consider the recommendation and vote upon it by secret ballot in private meeting, following wide and extensive consultations with all Member States of the Organization.

114. The Ministers *reaffirmed* the need for greater transparency and inclusiveness in the selection and appointment process of the SG. In this regard, they noted the outdated nature
of resolution 11 (1) of January 1946 on the terms of appointments of the Secretary General, and emphasized that it is the General Assembly’s prerogative and ability to debate and to vote on the appointment of the SG, and in this context, called upon the General Assembly to address both the nomination and appointment of the SG in accordance with resolutions 51/241, 60/286, 64/301, 66/294, 66/297, 68/307, and 69/321 which should be fully implemented.

115. The Ministers noted that in the course of the identification and appointment of the best candidate for the post of Secretary-General, due regard shall continue to be given to regional rotation and shall also be given to gender equality as stipulated in para. 59 of resolution 51/241.

116. Recalling the role of the principal organs as enshrined in Article 97 of the UN Charter, the Ministers called upon the President of the General Assembly to consult with Member States to identify potential candidates endorsed by a Member State and, upon informing all Member States of the results, forward these results to the Security Council.

117. In this context, the Ministers agreed that formal presentation of candidatures for the position of Secretary-General should be done in a manner that allows sufficient time for interaction with Member States in the General Assembly and the Security Council, and in this regard welcomed the convening by the President of the General Assembly of the informal meetings of the General Assembly with the candidates endorsed by Member States and requested the President of the General Assembly to continue to undertake consultations with Member States in order to improve the preparation and holding of these hearings or informal meetings for an exchange of views and dialogue with all candidates.

117.1. The Ministers recalled the process of the selection and appointment of the ninth Secretary-General in 2016 and, in this regard, welcomed the signing of the joint letter by which the Presidents of both UNGA and the Security Council formally launched the beginning of the process. They urged that all future selection and appointment processes build upon these practices, and called upon future PGAs and Presidents of the Security Council to continue the practice of holding timely informal meetings for an exchange of views with candidates presented by Member States to the post of Secretary-General of the United Nations.

118. The Ministers acknowledged the report of the Joint Inspection Unit (JIU/REP/2009/8) which noted that conducting hearings/meetings with candidates running for the post of executive heads of the organizations of the United Nations common system, could improve their selection processes, in order to enhance transparency and credibility of the selection process and to make the process more inclusive of all nationalities.

E. Question of Equitable Representation on and Increase in the Membership of the Security Council, and other Matters Related to the Security Council

119. The Ministers reaffirmed and underscored the validity and relevance of the Movement’s principled positions concerning the question of equitable representation on and increase in the membership of the Security Council, and other matters related to the Security Council, in particular the directives of the Movement adopted during its 11th, 12th, 13th, 14th, 15th, 16th and 17th Summits, which have been reflected in the Movement’s position and negotiating papers, and the decisions of the Ministerial Conferences and Meetings, as follows:

119.1. The Movement, while noting with appreciation efforts undertaken, notes with concern the lack of concrete results in the intergovernmental negotiations in the informal plenary of the General Assembly on the question of equitable representation on and increase in the membership of the Security Council, and other matters related to the Council, based on General Assembly decisions 62/557, 63/565, 64/568, 65/554, 66/556, 67/561, 68/557, 69/560 70/559, and 71/553 and notes that the negotiations
have shown that while a convergence of views has emerged, major differences still exist, and while there have been some improvements made to the working methods of the Council, they have not satisfied even the minimum expectations of the general membership of the UN, leaving much room for improvement;

119.2. In this context, the Ministers reiterated that General Assembly Decision 62/557 is and shall continue to be the basis of Intergovernmental Negotiations on the Security Council reform;

119.3. Reform of the Security Council should be comprehensive, addressing all substantive issues relating, inter alia, to the question of the membership, regional representation, the Council’s agenda, its working methods and decision-making process, including the veto, and should garner the widest possible political acceptance by Member States in line with the provisions of the Charter and relevant General Assembly decisions particularly 62/557;

119.4. In recent years, the Security Council has been too quick to threaten or authorize enforcement action in some cases while being silent and inactive in others. Furthermore, the Council has been increasingly resorting to Chapter VII of the Charter as an umbrella for addressing issues that do not necessarily pose an immediate threat to international peace and security. A careful review of these trends indicates that the Council could have opted for alternative provisions to respond more appropriately to particular cases. Instead of excessive and quick use of Chapter VII, efforts should be made to fully utilize the provisions of Chapters VI and VIII for the pacific settlement of disputes. Chapter VII should be invoked, as intended, as a measure of last resort. Unfortunately, provisions of Articles 41 and 42 in some cases have been too quickly resorted to while the other options had not been fully exhausted;

119.5. The Security Council-imposed sanctions remain an issue of serious concern to Non-Aligned Countries in view of the tenable legal grounds, impartiality and justice. In accordance with the UN Charter, sanctions should be considered to be imposed only after all means of peaceful settlement of disputes under Chapter VI of the Charter have been exhausted and a thorough consideration undertaken of the short-term and long-term effects of such sanctions. Sanctions are a blunt instrument, the use of which raises fundamental ethical questions of whether sufferings inflicted on vulnerable groups in the target country are legitimate means of exerting pressure. The objectives of sanctions are not to punish or otherwise exact retribution on the populace. In this regard, the objectives of sanctions regimes should be clearly defined, and that its imposition should be for a specified timeframe and be based on tenable legal grounds, and that it should be lifted as soon as the objectives are achieved. The conditions demanded of the State or party on which sanctions are imposed should be clearly defined and subject to periodic review. Sanctions should be imposed only when there exists a threat to international peace and security or an act of aggression, in accordance with the Charter, and that it is not applicable “preventively” in instances of mere violation of international law, norms or standards. Targeted sanctions may be a better alternative so long as the population of targeted State concerned is not victimized whether directly or indirectly;

119.6. Transparency, openness and consistency are key elements that the Security Council should observe in all its activities, approaches and procedures. Regrettably, the Council has neglected these important factors on numerous occasions. Such instances include unscheduled open debates with selective notification, reluctance in convening open debates on some issues of high significance, repeatedly restricting participation in some of the open debates and discriminating between members and non-members of the Council particularly with regard to sequencing and time limits of statements during the open debates, failure to submit special reports to the General Assembly as required under Article 24 of the Charter, submission of annual reports still lacking sufficient information and analytical content, and lack of minimal parameters for
the elaboration of the monthly assessment by the Security Council Presidencies. The Council must comply with the provisions of Article 31 of the Charter, which allow any non-Council member to participate in discussions on matters affecting it. Rule 48 of the Provisional Rules of Procedure of the Council should be thoroughly observed. Closed meetings and informal consultations should be kept to a minimum and as the exception they were meant to be;

119.7. The reform of the Security Council should be addressed in an early, comprehensive, transparent and balanced manner, without delay and without setting artificial deadlines. It should ensure that the agenda of the Council reflects the needs and interests of both developing and developed countries, in an objective, rational, non-selective and non-arbitrary manner;

119.8. The enlargement of the Council, as a body primarily responsible for the maintenance of international peace and security, and the reform of its working methods should lead to a democratic, more representative, more accountable and more effective Council;

119.9. The Rules of Procedure of the Security Council, which have remained provisional for more than 60 years, should be formalized in order to improve its transparency and accountability;

119.10. The Ministers acknowledge the historical injustices against Africa with regard to its representation in the Security Council and expressed support for increased and enhanced representation for Africa in the reformed Security Council. The Ministers took note of the African common position as reflected in the Ezulwini Consensus and the Sirte Declaration;

119.11. The Ministers congratulated the members of the Non-Aligned Movement elected as non-permanent members of the Security Council. They reaffirmed the necessity of working in the context of the NAM Caucus in the Security Council in the interest of fostering the interests of the Movement.

119.12. The Ministers renewed the directives to the Permanent Representatives in New York to continue to develop the elements of the position of the Movement on Security Council reform, taking into account all the options and views of Member States and groups, and to present a comprehensive report to the XVIII Summit of the Movement.

120. Consistent with and guided by the afore-mentioned principled positions and affirming the need to defend, preserve and promote these positions, the Ministers agreed to undertake the following measures, among others:

120.1. Call on the Council to increase the number of public meetings, in accordance with Articles 31 and 32 of the Charter, and that these meetings should provide real opportunities to take into account the views and contributions of the wider membership of the UN, particularly non-Council members whose affairs are under the discussion of the Council;

120.2. Call on the Security Council to allow briefings by the Special Envoys or Representatives of the Secretary-General and the UN Secretariat to take place in public meetings, unless in exceptional circumstances;

120.3. Call on the Security Council to further enhance its relationship with the UN Secretariat and troop contributing countries (TCC), including through a sustained, regular and timely interaction. Meetings with TCCs should be held not only in the drawing up of mandates, but also in their implementation, when considering a change in, or renewal of, or completion of a mission mandate, or when there is a rapid
deterioration of the situation on the ground. In this context, the Security Council Working Group on Peacekeeping Operations should involve TCCs more frequently and intensively in its deliberations, especially in the very early stages of mission planning;

120.4. Call upon the Security Council to uphold the primacy of and respect for the Charter in connection with its functions and powers and stresses once again that the decision by the Security Council to initiate formal or informal discussions on the situation in any Member State of the United Nations or any issue that does not constitute a threat to international peace and security is contrary to Article 24 of the Charter;

120.5. Call on the Council to establish its subsidiary organs in accordance with the letter and spirit of the UN Charter, and that these organs should function in a manner that would provide adequate and timely information on their activities to the general UN membership;

120.6. Reject the use of the Security Council as a tool to pursue national political interests and agenda aggravating rather than alleviating situations contrary to its mission enshrined in the Charter, and stress the necessity of non-selectivity, impartiality and accountability in the work of the Council, and the need for the Council to strictly keep within the powers and functions accorded to it by the Member States under the UN Charter;

120.7. Urge the Council to avoid resorting to Chapter VII of the Charter as an umbrella for addressing issues that do not necessarily pose a threat to international peace and security, and to fully utilize the provisions of other relevant Chapters, where appropriate, including Chapters VI and VIII, before invoking Chapter VII which should be a measure of last resort, if necessary;

120.8. Oppose attempts through the imposition or prolongation of sanctions or their extension by the Security Council against any State under the pretext or with the aim of achieving the political objectives of one or a few States to stamp out the rights to sovereignty, existence and development of the Member States of the Movement, rather than in the general interest of the international community;

120.9. Urge the Non-Aligned countries, which are members of the Security Council, to promote and defend, as deemed possible, the aforementioned positions and objectives during their tenure of membership in the Council, and to this end to, while noting with satisfaction recent positive steps in that regard, stress the need for the consolidation of the NAM Caucus in the Council with the principal objective of coordinating and defending the positions of the Movement in the Security Council, and call upon the members of the Caucus to provide timely briefings and to engage in close consultation with the Non-Aligned Countries, particularly those whose interests and concerns are under consideration by the Council, as well as to keep the Movement continuously updated of all relevant developments and issues with which the Council is actively seized;

120.10. Reject the on-going practice of the Security Council of dealing with human rights issues in pursuit of certain states’ political objectives;

F. **Strengthening of the Economic and Social Council (ECOSOC)**

121. The Ministers took note of the adoption of General Assembly Resolution 68/1 on the Review of the implementation of General Assembly resolution 61/16 on the strengthening of the Economic and Social Council, and reiterated the need to strengthen the role of the

---

ECOSOC as a principal body for the promotion of international economic cooperation, coordination, policy review, policy dialogue and formulation of recommendations on issues of economic and social development as well as for the full implementation of the international development goals agreed at the major UN conferences and summits in the economic, social and related fields, including the Sustainable Development Goals, and expressed their resolve and commitment to promote greater efforts geared toward this end. They particularly welcomed ECOSOC’s role in undertaking regular and periodic review and assessment of the balanced integration of the three pillars of sustainable development and their impact on development, through the High-level Political Forum and Development Cooperation Forum (DCF), and called for full implementation of this role.

G. The Human Rights Council

122. While welcoming the NAM member states recently elected to the Human Rights Council, during the 72nd session of the General Assembly, the Ministers stressed that the Human Rights Council should provide equal treatment to both civil and political rights and economic, social and cultural rights, as well as the right to development. They further stressed that the Council should not allow confrontational approaches, exploitation of human rights for political purposes, selective targeting of individual countries for extraneous considerations and double standards in the conduct of its work, which should comply with the UN Charter, international law and relevant UN resolutions.

123. The Ministers reaffirmed that universality, transparency, impartiality, objectivity and non-selectivity should be guiding principles for the work of the Council and its method of work. The Council in performing its responsibilities should, bear in mind, in accordance with Vienna Declaration and Programme of Action, the significance of national and regional particularities and various historical, cultural and religious backgrounds of the Member States.

124. The Ministers reaffirmed their commitment to and stressed the importance of preserving resolution 5/1 entitled Institutional Building of the Human Rights Council and resolution 5/2 entitled Code of Conduct for Special Procedures Mandate-Holders of the Human Rights Council, including their annexes and appendices, endorsed by resolution 62/219 of the UN General Assembly.

125. The Ministers further stressed the need to preserve the positive developments achieved since the establishment of the Human Rights Council in the context of its work, including its institutional building package. In this regard, they reaffirmed the need to defend the principles of non-selectivity, non-politicization, objectivity and impartiality in the consideration of human rights situations, as well as to ensure that human rights are not used for political purposes and adopting politically motivated decisions, in order to avoid the problems which plagued the former Human Rights Commission. In this regard, they expressed their concern over the proliferation of politicization and double standards, as well as country specific resolutions at the Human Rights Council.

126. The Ministers emphasized the importance of adopting a constructive approach in the promotion and protection of all universally recognized human rights and fundamental freedoms, and in this regard, they urged the Human Rights Council to focus on constructive and genuine dialogue and cooperation with State Parties, as well as capacity building and technical assistance, provided upon the request in consultation with and with the consent of the concerned states and according to their national needs and priorities, to ensure the realization of all universally recognized human rights and fundamental freedoms, in particular the right to development.

127. The Ministers stressed the importance of the United Nations High Commissioner for Human Rights, while underscoring that for the next appointment and term 2018-2021, the High Commissioner must commit himself/herself to act strictly in line with the mandate upon which the Office was created, without political bias, avoiding any kind of interference in the internal affairs of the Member States of the Movement.

128. The Ministers emphasized the need to develop effective working relationship between the Human Rights Council and the Office of the High Commissioner for Human Rights in line with the spirit of General Assembly resolution 48/141. They further stressed that the Human Rights Council, being the expert inter-governmental body on human rights issues, should have an oversight role in reviewing the work of the Office of the High Commissioner for Human Rights, including its activities under country engagement and establishing its field offices, as well as those related to its advisory services, technical and financial assistance and capacity building’s activities, while ensuring the full respect of the mandate of the Office of the High Commissioner for Human Rights as defined in resolution 48/141. In this connection, they welcomed the statement of the President of the Human Rights Council, adopted in the 15th session (PRST 15/2).

129. The Ministers emphasized the role of the Human Rights Council as a subsidiary organ of the United Nations General Assembly responsible for consideration of human rights situations in all countries in the context of the Universal Periodic Review based on cooperation and constructive dialogue. The Ministers expressed their deep concern over the continuation and the proliferation of the practice of selective adoption of country-specific resolutions in the Third Committee of the UN General Assembly, as well as in the Human Rights Council, which is a tool that exploits human rights for political purposes breaches the principles of universality, impartiality, objectivity and non-selectivity in addressing human rights issues which undermine cooperation as the essential principle to effectively promote and protect all universally recognized human rights for all.

130. The Ministers decided to continue the actions taken by the Movement to address the ongoing practice of selective adoption of country specific resolutions and of the establishment of biased country specific mandates, including statements on behalf of the Non-Aligned Movement during the interactive dialogues with the country specific mandates and consideration of country specific resolutions in the Third Committee of the UN General Assembly and the Human Rights Council.

131. The Ministers reaffirmed the need to promote greater coherence and complementarity between the work of the Third Committee and the Human Rights Council, and avoid unnecessary duplication and overlapping in their activities as well as create a working and constructive relationship between them in addressing human rights situations.

132. The Ministers stressed that the Universal Periodic Review is the main inter-governmental cooperative mechanism to review human rights issues at the national level in all countries without distinction, with the full involvement of the country concerned and with consideration given to its capacity-building needs.

133. The Ministers recalled the General Assembly resolution 60/251 which established the Human Rights Council as a subsidiary organ of the General Assembly and resolution 65/281, on the review of the HRC which also reaffirms the subsidiary status of the Organ and in this regard, stressed the importance of the general debate on, and interactive dialogue with the President of the Council and consideration of the report of the Council in the Third Committee.

134. The Ministers reiterated the importance of ensuring the implementation of the Universal Periodic Review of the Human Rights Council as an action-oriented, cooperative mechanism based on objective and reliable information and interactive dialogue with full involvement of the countries under review and conducted in an impartial, transparent,
non-selective, constructive, non-confrontational and non-politicized manner. They further urged all NAM members to continue to coordinate their efforts to support NAM Members States under review.

135. The Ministers reiterated that the Non-Aligned Movement should continue to closely coordinate its position on the following priority areas:

a) Fostering international cooperation and constructive dialogue in the Human Rights Council and prevent the occurrence of practices of double standards, selectivity and political manipulation which discredited the Commission on Human Rights;

b) Continuing working towards the enhancement and improvement, as appropriate, of the work of human rights mechanisms, including treaty bodies system, special procedures, expert bodies and the confidential procedure, bearing in mind that while mandate holders exercise their functions in full respect for and strict observance of their mandate, they must observe the Code of Conduct for the Special Procedures Mandate Holders of the Human Rights Council contained in HRC Resolution 5/2 of 18 June 2007 and reaffirmed in its resolution 11/11 of 18 June 2009, and also observe HRC resolution 16/21 of 25 March 2011, including on resources and funding for special procedures, as well as the need to preserve all these mechanisms and bodies from politicization and double standards, so as to enhance the effectiveness of the system;

c) Encouraging the presentation of experts from NAM countries as candidates for special procedures mandate-holders, and support candidates presented by NAM countries that are parties, to the human rights treaty bodies and to give consideration, during the election, to inter alia, equitable geographical distribution, balanced gender representation and representation of different legal system;

d) Developing the relationship of the Human Rights Council with other entities of the United Nations system, as appropriate, in accordance with the General Assembly resolutions 48/141, 60/251, 62/219, and 65/281;

e) Determining the Council’s reporting procedures to the United Nations General Assembly, for purposes of universal endorsement of all its programs and activities, in its capacity as subsidiary organ of the General Assembly. In this regard, initiate discussions among NAM Members to explore common grounds on the issue;

f) Ensuring that any future review processes of the Council are directed towards enabling the Council to carry out, on the basis of cooperation and non-confrontation, its mandated role to promote all universally recognized human rights and fundamental freedoms for all, unless decided otherwise by the General Assembly, and should not aim at reforming the Council, but should be focused on taking the necessary measures to improve its work and functioning, as well as to contribute to improving the efficiency of the council in order to be able to carry out, on the basis of cooperation and non-confrontation, its mandated role in accordance with its institution building to promote all human rights and fundamental freedoms for all, and review its status as a subsidiary body of the General Assembly, in accordance with resolutions 60/251 and 65/281.

g) Rejecting the establishment of any additional country-specific tools which would lead to politicization, double standards and selectivity in dealing with human rights issues and exerting efforts to discard these tools;

h) Preserving the Universal Periodic Review as the only international mechanism to review human rights situation in all Member States on equal footing;

i) Ensuring that the Universal Periodic Review be conducted by the Human Rights
Council as a result-oriented, cooperative mechanism, based on an interactive dialogue, with the full involvement of the country under review and with consideration given to its capacity-building needs and that such a mechanism shall complement and not duplicate the work of treaty bodies, bearing in mind the need to eradicate selectivity, double standards and politicization in the consideration of human rights issues. It should aim at strengthening the Member States capacity, upon their request and consent as well as in consultation with them, to implement their obligations, on promotion and protection of human rights. It should not be used as a tool to coerce States and subject them to politically motivated country-specific resolutions;

j) Ensuring also that the Universal Periodic Review is conducted in an objective manner, on the basis of credible and reliable information, and taking duly into consideration information, comments and observations of the country under review. It should not be used as a tool to interfere in the internal affairs of States or to question their political, economic, and social systems, their sovereign rights, and their national, religious and cultural particularities. It must continue to be implemented in accordance with UNGA resolutions 60/251, 62/219 and 65/281;

k) Supporting NGOs participation in the work of the Human Rights Council, based inter alia on ECOSOC resolution 1996/31 and the modalities established by the Human Rights Council, taking into consideration that NGOs shall be concerned with matters falling within the competence of the ECOSOC and its subsidiary bodies, should conform at all times to the principles governing the establishment and nature of their consultative relations with ECOSOC, the principles and purposes as stipulated in the Charter of the United Nations, and refrain from any unsubstantiated or politically motivated acts against Member States of the United Nations incompatible with those purposes and principles in accordance with article 57 (b) of the resolution 1996/31 and that they are responsible for the actions of their accredited representatives during their participation in the work of the Human Rights Council.

136. The Ministers recalled the resolution A/RES 70/151 on Human rights and unilateral coercive measures through which the General Assembly took note with appreciation of the decision of the Human Rights Council, in its resolution 27/21 to appoint a Special Rapporteur on the negative impact of unilateral coercive measures on the enjoyment of human rights.

H. Peacebuilding Activities and the Peacebuilding Commission (PBC)

137. The Ministers of the Non-Aligned Movement (NAM) recalled the 14th Summit Conference of Ministers of the Non-Aligned Movement held in Havana, Cuba September 2006 at which the Ministers of the Movement reaffirmed and underscored the validity and relevance of the Movement’s principled positions concerning post-conflict peacebuilding activities and had welcomed the establishment of the Peacebuilding Commission (PBC) as by General Assembly resolution 60/180; as a coordinated, coherent and integrated institutional mechanism, to address the special needs of countries emerging from conflict, towards recovery, reintegration and reconstruction at their request in accordance with the principle of national ownership”, in laying the foundation for sustainable development.

138. In pursuit of this mandate, the Ministers reaffirmed the Non-Aligned Movement’s commitment to an efficient and effective Peacebuilding Commission, which fully utilizes the advantages and benefits arising from the diversity of its composition. They also acknowledged the work undertaken by the Commission since it started its operations with respect to the six countries on its agenda, namely: Burundi, Sierra Leone, Guinea-Bissau, the Central African Republic, Guinea and Liberia. They also acknowledged the progress achieved so far, in the elaboration of the strategic frameworks for peacebuilding, for these countries; they appreciated the progress in the case of Guinea where the PBC country configuration has completed its task and ended the configuration on the request of the Government of Guinea.
The Ministers *emphasized* the role of the NAM Caucus within the Peacebuilding Commission aimed at coordinating positions of Non-Aligned countries in the Commission and to keep the Movement informed of the activities carried out by the Commission. In this connection, they lauded the efforts of the Caucus in the rapid progress of the Commission, specifically towards the entrenchment of the principle of national ownership, the need for capacity building and drawing recognition to, and signaling the importance of the economic recovery and development dimension in the peace building process.

The Ministers *expressed* concern at several instances in which the Security Council denied the coordinator of the NAM Caucus in the PBC an opportunity to address members of the Security Council on matters related to the competence of the PBC. They *urged* the Security Council, the General Assembly and ECOSOC to utilize the expertise of the PBC, including the coordinator of the NAM Caucus of the PBC, as the representative of the largest grouping within the PBC, by ensuring participation in discussions on all issues of relevance to, or falling within, the competence of the PBC. Furthermore, they *stressed* on the necessity to promote the institutional relation between the PBC and the General Assembly, the Security Council and the ECOSOC.

The Ministers *reiterated* that, without prejudice to the functions and powers of the other principal organs of the UN in relation to post-conflict peacebuilding activities, the General Assembly must play the key role in the formulation and implementation of such activities and functions. They *underscored* the central role of the PBC in providing the United Nations with policy guidance and strategies in its post-conflict peacebuilding activities. In this regard they *reaffirmed* the work of the Organizational Committee of the Peacebuilding Commission as the central organ of the Commission, with responsibilities as described in the General Assembly's resolution 60/180. They as well *considered* the organizational committee a suitable platform for strategy and policy discussions to promote the rules and working methods of the Commission and to reinforce the coherence of the Commission's Configurations and to facilitate a result oriented engagement with relevant actors and stakeholders. In this connection also, they *urged* the NAM Caucus in the Commission to encourage work towards the further development of rules of procedure and methods of work, suitable for the efficient and proper functioning of the Commission. They *emphasized* that the provisional rules of procedure of the PBC need to be regularly revisited in the light of the experience gained by the Commission since its operationalization, and the developments in the work of the Commission. They *praised* as well the important role played by NAM Member States in the review process of the arrangements set out in General Assembly resolution A/Res/180 which took place in 2010, to ensure that they are appropriate to fulfill the agreed functions of the Peacebuilding Commission. The Ministers *reaffirmed* the necessity to provide necessary and timely resources, in order to help ensure predictable financing for recovery activities and sustained financial investment, over the medium to long-term. They *reiterated* the fundamental role of the PBC in the conception, with the consent of the countries under the consideration of the PBC, and in conformity with the principle of national ownership, of integrated strategies for post conflict peacebuilding and recovery.

The Ministers *stressed the importance* of ensuring that the country specific configurations of the Peacebuilding Commission develop effective and cooperative mechanisms based on a sustained dialogue with the host countries under review. They *further urged* the Peacebuilding Commission to operationalize the principle of national ownership through the adoption of a demand-driven approach based on joint assessments with host countries.

The Ministers *took note* of the resolutions adopted by the Security Council S/RES/2282 and the General Assembly A/RES/70/262 which provided a concept of “Sustaining Peace”, *underscored* the contribution of peacekeeping operations to a comprehensive strategy for sustaining peace and acknowledges the importance of the Review of the United Nations Peacebuilding Architecture. The Ministers *underscored* that the Peacebuilding Commission and its Country-Specific Configurations, as well as the Peacebuilding Fund, have a significant role to play in enhancing complementarity between peacekeeping and peacebuilding efforts. The
Ministers reaffirmed the primary responsibility of national Governments and authorities in identifying, driving and directing priorities, strategies and activities for sustaining peace, and in this regard, emphasized that inclusivity is key to advancing national peacebuilding processes and objectives in order to ensure that the needs of all segments of society were taken into account.

144. The Ministers welcomed the Security Council Presidential Statement S/PRST/2012/29 which reiterates inter alia the principles of national ownership and highlights the important role of the PBC in supporting peacebuilding efforts in the aftermath of conflict;

145. The Ministers emphasized that the Peacebuilding Fund (PBF) must continue to be used as a catalytic mechanism geared towards providing critical support during the early stages of the peace building process to avert relapse into conflict. They stressed the need for closer synergy between the PBC and the PBF, through a strengthened strategic relationship, to ensure greater coherence and coordination and the avoidance of duplication. The Ministers took note of the recommendations and the revised terms of reference of the Peace Building Fund as contained in General Assembly resolution 63/282 and its annex, and reaffirmed the roles of the General Assembly and the Peacebuilding Commission to provide policy guidance on the use of the Fund to maximize its impact and improve its functioning, to make the Fund more efficient, transparent, flexible and to facilitate the disbursement of funds, particularly for quick-impact and emergency projects. They reiterated as well the importance of increasing the funding target of the PBF, to make it more capable of financing additional projects in post conflict countries. They stressed the necessity of having a mechanism to assess whether allocations from the PBF are directed to the appropriate channels leading to peacebuilding;

146. The Ministers stressed the necessity to ensure the sustainability of funding for countries in the agenda of the Peacebuilding Commission. The Ministers are concerned by the lack of coordination and coherence among financial donors resulting in duplication and redundancy in particular areas and the neglect of other catalytic projects. The Ministers called for the setup of a mechanism within the PBC to review, within each country configuration, ways and means to ensure unity of efforts by donors, in close collaboration with host countries;

147. The Ministers underlined the importance of the comprehensive review of the work of the PBC in 2015 assessing the progress made in the implementation of key recommendations emanating from 2010 review by the Commission and other UN actors taking stock of remaining challenges. The Ministers noted the report of the Advisory Group of Experts that laid the ground work for the Review of the Peacebuilding architecture and subsequent adoption of the substantively identical resolutions in the General Assembly and the Security Council;

148. The Ministers noted the first ever annual substantive session of the annual PBC held on 23 June 2014 and stressed the need for the annual session to become a standing event for examining peacebuilding-related themes to facilitate more timely, sustained and effective responses to the needs of people in the countries on the agenda of the commission;

149. The Ministers welcomed the independent report of the Senior Advisory Group on Civilian Capacity in the Aftermath of Conflict (A/65/747) and took note of the Secretary-General’s final report on Civilian Capacity in the immediate aftermath of conflict (A/68/696-S/2014/5), and also welcomed the General Assembly Resolution 66/255 on Civilian capacity in the aftermath of conflict, in support of national capacities for post-conflict peacebuilding, and took note that efforts to broaden and deepen the pool of experts, giving particular attention to mobilizing capacities from developing countries, in particular among women, are vital for successful United Nations peacebuilding activities, and in this regard, underlined the importance of effective outreach for these purposes by the United Nations Secretariat, to be undertaken in accordance with the existing rules and regulations,
and in close consultation with Member States.

150. The Ministers underscored the importance of civilian capacity that exists already within the developing world and expressed readiness to support national civilian capacity development and institution building in support of peacebuilding activities in post-conflict situations, including through peacekeeping operations in accordance with their mandates, as well as enhanced regional, South-South and triangular cooperation. In this regard, they reaffirmed the fundamental principle of national ownership. The Ministers further emphasized the importance of continued intergovernmental considerations of any development of measures undertaken to mobilize civilian capacities in the aftermath of conflict, keeping in mind the need to apply the fundamental principle of national ownership and institution building processes, forging South-South and triangular cooperation and ensuring sustain and predictable financing for post-conflict peacebuilding, as reflected in the Secretary General’s final report (A/68/696-S/2014/5).

151. The Ministers underlined the necessity for the UN to make full use of South-South cooperation arrangements in the development of civilian capacities in post-conflict countries. The Ministers stressed the need for the UN to draw from the expertise of leaders and practitioners from countries of the Global South who have grappled with civilian capacity challenges with the aim to deploy effective civilian expertise.

153. The Ministers commended the ongoing work of the NAM caucus in the PBC in strengthening the position and role of the Movement in the Peacebuilding Commission. In this regard, they expressed their appreciation for the efforts of Bangladesh during its chairmanship of the NAM caucus. They further encouraged the non-aligned members of the Peacebuilding Commission and the Non-Aligned countries which are on its agenda, to actively participate in the NAM Caucus to ensure its purposeful contribution to the Peacebuilding activities of the United Nations;

154. The Ministers commended the continued efforts of the Central African Republic country Configuration, in particular the numerous visits to the country, the engagement and the support of the Central African authorities for the National Peacebuilding and Recovery Plan (RCPCA), as well as the advocacy role towards the Security Council and all the other bilateral and multilateral partners of the CAR. They also expressed their appreciation for the establishment of the reference group on the promotion of the rule of law in CAR, which provides regular updates on the implementation of the Special Criminal Court, as well as on the reestablishment of the penal chain in the country. The Ministers expressed their appreciation for the role of the Kingdom of Morocco in this regard, in its capacity as Chairman of the Central African Republic country Configuration.

155. The Ministers underlined the need for the PBC to establish dynamic partnerships with regional and sub-regional organizations and to ensure that regional efforts receive the requisite attention and support. The Ministers expressed the need for integrated peacebuilding strategies and programmes that are consistent and in line with host-country strategies and programmes to ensure national ownership; they also reiterated that long-term Peacebuilding process required a stronger partnership with donors to enhance speed, flexibility and risk tolerance of funding mechanisms, including for regional and cross-cutting issues under the PBC’s consideration.

I. United Nations Secretariat and Management Reform

157. Recognizing that the reform of the UN is a collective agenda of its membership, the Ministers stressed that the voice of every Member States must be heard and respected during the reform process, irrespective of its level of contribution to the budget of the Organization;

158. The Ministers recognized the efforts led by the Secretary-General on management reform and welcome an inclusive and consultative process. They called for continued consultations and deepened engagements with all Member States as meaningful reform requires ownership of the entire membership of the Organization. They emphasized that the reforms should increase transparency, accountability, efficiency and oversight. They emphasized the centrality of the implementation of the 2030 Agenda for Sustainable Development, as well as the need to monitor and evaluate mandate implementation. They underscored the importance of addressing gender parity and balanced geographical representation at all levels of the Secretariat and ensuring fair and equitable access to United Nations procurement opportunities for developing country Member States.

159. The Ministers recognized that in order to advance the reform process of the Secretariat and Management, as approved by member states, the United Nations must be equipped with the necessary and sufficient resources to allow its full implementation, avoiding any delay in this task;

160. The Ministers furthermore expressed concern at the continued decline in the level of resources made available to the United Nations as a whole, which seriously hampers and limits mandate implementation across the Organization, including its reform initiatives.

161. The Ministers stressed the importance of ensuring that the Secretariat meets the highest standards of accountability, transparency, integrity and ethical conduct. The Ministers, therefore, urged the Secretary-General, as a matter of priority, to fully implement General Assembly resolution 66/257, 67/253, 68/264, 69/272 and 71/283 entitled “Progress towards an accountability system in the United Nations Secretariat”, and other relevant resolutions, bearing in mind that accountability is a central pillar of effective and efficient management that requires attention and strong commitment at all levels of the Secretariat, especially at the highest level;

162. The Ministers stressed the need to increase the representation of developing countries, in particular at the senior levels, and to achieve gender balance, improve geographic distribution, in particular from member States not or underrepresented, in the Secretariat, and enhance transparency in the recruitment process;

163. The Ministers reiterated that the objectives of the reform of the Secretariat of the UN and its management are as follows:

(a) To respond more efficiently and effectively to the needs of Member States;

(b) To further strengthen and update the role, capacity, effectiveness and efficiency of the UN and thus, improving its performance in order to realize the full potential of the Organization, in accordance with the purposes and principles of the UN Charter;

(c) To ensure the effective enforcement of greater accountability and transparency measures within the Secretariat as well as accountability of the Secretariat towards
Member States in particular at the senior managers level, and to fully implement, in this regard General Assembly resolution 64/259, 68/264, 69/272 and 71/283;

(d) To better reflect the international character of the United Nations Secretariat as a fundamental principle through better observance of equitable geographic representation at all levels of the Secretariat, including senior managerial level, as well as to achieve the targeted gender balance among all staff members, in accordance with article 101 of the Charter;

(e) The final result of the reform process should be to ensure that the UN is able to implement all its mandates more effectively and efficiently.

164. The Ministers emphasized that the reform of the Secretariat of the UN and its management should not:

(a) Change the intergovernmental nature and mechanisms of the decision-making, oversight and monitoring processes of the Organization;

(b) Be a cost-cutting exercise of the Organization;

(c) Affect the accomplishment of the mandates through the reduction of the budget levels of the Organization;

(d) Fund more activities from within the existing pool of resources of the Organization;

(e) Change and/or encroach on the mandate of the Fifth Committee, as the main Committee for the administrative and budgetary issues;

(f) Redefine the functions and powers of the principal organs of the Organization; and

(g) Undermine the need to fully observe the principle of the geographical distribution of the appointment to the posts in the U.N. Secretariat, in particular the D level and above.

165. The Ministers furthermore stressed the need to continue to submit for the consideration and prior approval of the General Assembly, through its Fifth Committee, any proposal or measure related to the implementation of the reform initiatives contained in the report “Shifting the management paradigm in the United Nations: ensuring a better future for all” and its Addendum 1, in line with the provisions contained in General Assembly Resolution 72/266.

166. The Ministers reaffirmed that the Fifth Committee is the appropriate main Committee of the General Assembly entrusted with responsibilities for administrative and budgetary matters, and stressed that any proposals to amend the overall departmental structure, as well as the budgetary, programming, planning, monitoring and evaluation process of the Organization, are subject to review and prior approval by the General Assembly.

167. The Ministers strongly supported the oversight role performed by the General Assembly, as well as its relevant intergovernmental and expert bodies, in planning, programming, budgeting, monitoring and evaluation. In this context, they renewed their commitment to strengthen the role of the Committee for Programme and Coordination. The Ministers also urged the rest of the membership of the United Nations to actively participate in the sessions of the Committee.

168. The Ministers strongly rejected attempts to impose conditionalities to the reform process which negatively impact the confidence atmosphere needed for the negotiations.

169. The Ministers welcomed the adoption of the General Assembly resolutions 65/247
and 65/248 on the Human Resources Management and the United Nations Common System which finalized the establishment of the new contractual arrangements and harmonized the conditions of service in the field of the United Nations and expect that the implementation of such resolutions brings about a better and more transparent recruitment process of personnel to the secretariats of the organizations of the United Nations common system, while creating more opportunities to recruit young professional staff from developing countries.

J. Repositioning of the United Nations Development System

170. The Ministers underlined that the Quadrennial Comprehensive Policy Review of Operational Activities for Development of the United Nations System (QCPR) is the main instrument to better position the United Nations development system (UNDS) and took into consideration the proposal from the Secretary General to move beyond coordination towards the new narrative for sustainable development to support countries, upon their request, in their efforts to achieve the 2030 Agenda for Sustainable Development. In this regard, the review of the functions and existing capacities of the UN development system to be carried out in accordance with General Assembly’s QCPR resolution A/RES/71/243 of 21 December 2016 should be guided by the following considerations.

171. The QCPR's mandate should be the basis of any proposed reform of the UNDS. In this regard, the Ministers are of a firm view that the QCPR is a development resolution and thus this should be the focus of the process.

172. The process should take into account that the eradication of poverty in all its forms and dimensions is our highest priority and the underlying objective of the UNDS. It is very important that the operational activities for development of the UNDS take into account the need to build, promote, and strengthen the capacity of developing countries in their efforts to address long-term sustainable development at the national level, especially least developed countries that still face difficulty in addressing poverty and hunger.

173. The process should fully respect States’ sovereignty, independence, and ownership over its own development pathways and recognize the importance of national ownership and leadership, bearing in mind the different development levels and realities on the ground in these countries. In this regard, they should take into account the different realities, capacities, and levels of national development, respecting national policies and priorities.

174. The Ministers stressed that the process of the UN development system reform should aim at better adapting the system to support developing countries, upon their request, in the implementation of the 2030 Agenda for Sustainable Development and their national plans and strategies with the overarching objective of eradicating poverty in all its forms and dimensions through strengthening coordination, coherence and collaboration among all UN agencies, reinforcing the principles of accountability, transparency and oversight by Member States, according to the mandate of each institution, in order to achieve greater impact and results.

175. The Ministers also underlined that the United Nations Development Assistance Framework (UNDAF) should remain the only instrument for cooperation with developing countries, bearing in mind the different realities, capacities, and levels of national development, respecting national policies and priorities and political, economic, social and cultural specificities as well as ensuring that the development system contribute effectively to mobilizing more predictable, flexible, and less earmarked funding for the implementation of Agenda 2030.

176. The Ministers requested the United Nations development system to continue to support all programme countries, regardless of which modality for the delivery of assistance they prefer to adopt, in accordance with their development plans and priorities.
177. The Ministers reaffirmed the “no one size fits all” approach and the principle of voluntary adoption of the “Delivering as one” approach by the programme country, and requested the United Nations development system to enhance its cooperation for development to maximize the “Delivering as one” approach in the countries that choose it, including through lessons learned and by integrating programmatic and operational functions in order to enhance coherence, effectiveness, efficiency and the impact of country-level efforts.

178. The Ministers encouraged the United Nations Development System to adapt its governance structure to be more responsive to the needs of Member States in a more efficient approach and called upon an improved coordination, coherence, effectiveness and efficiency of operational activities for development, and thereby strengthen support for the implementation of the 2030 Agenda.

179. The Ministers further reaffirmed the critical role of the United Nations Development System at the regional level and the need to strengthen the role of the regional and sub-regional approaches in the implementation of the 2030 Agenda within the context of the UNDS reform, while emphasizing the need for a “no one size fits all” approach at the regional level and to build upon the specificities of each region and the strength of its regional mechanisms, including the Regional Economic Commissions as one of the main subsidiary bodies of the ECOSOC.

180. The Ministers commended the effective coordination between NAM and G-77, through the Joint Coordinating Committee, in the consultations on the System-wide Coherence, and in this regard undertook to continue to work together with the G-77, through the JCC, with a view to continue defending, preserving and promoting the interests of developing countries and promoting the integrated, intergovernmental, inclusive and transparent nature of all relevant negotiation processes, without the imposition of artificial deadlines for decision-making.

United Nations: Financial Situation and Arrangement

181. The Ministers reiterated the validity and relevance of the Movement’s principled positions concerning the financial situation and arrangement of the UN, as contained in the Final Document of the 17th NAM Summit as follows:

181.1. The Movement remained concerned at the financial situation of the UN as a result of the failure on the part of some Member States, especially major contributing States, to meet their assessed contributions in full, on time and without conditions, in accordance with the Charter and relevant General Assembly resolutions;

181.2. The Movement recognized that the imposition of unilateral sanctions or embargos has resulted in some cases in the failure of Member States to meet their assessed contributions to the UN in a timely manner, reason for which their immediate and complete lifting is urged;

181.3. The Movement reiterated that it remains crucial to ensure that all decisions on the priority-setting of the UN are adopted in an inclusive and transparent manner in the intergovernmental bodies, in full compliance with General Assembly resolutions, and that the Organization should be provided with the resources needed for the full and effective implementation of all mandated programmes and activities as well as those required to guarantee the quality of services needed for the functioning of its inter-governmental machinery;

181.4. The principle of capacity to pay of Member States should remain as the fundamental criterion in the apportionment of the expenses of the Organization;

181.5. The general principles governing the financing of UN peacekeeping operations, as set out in the relevant General Assembly resolutions, should be adhered to. A
proper balance should be struck between the level and urgency with which peacekeeping activities are funded on the one hand, and availability of resources needed for full implementation of all mandated programmes and activities by the General Assembly, in particular in the area of development, on the other;

181.6. To strike a balance in reflecting the agreed priorities of the Organization in the allocation of resources to the United Nations regular budget; which is persistently to the detriment of the development activities;

181.7. The existing reporting procedures on budget and financial cycle should be maintained and the role of the Member States in programme evaluation of the Organization should be strengthened. In this regard, reaffirm the functions of the Committee on Program and Coordination (CPC), as the main subsidiary organ of ECOSOC and the General Assembly for planning, programming, monitoring, evaluation and coordination and its vital role in program design by ensuring that the Secretariat accurately interprets and translates legislative mandates into programs and sub-programs.

182. The Ministers reaffirmed that the financial stability of the UN should not be jeopardized by any arbitrary measure, particularly imposition of arbitrary cuts or ceilings to the level of the budget. They also stressed that measures to ensure financial discipline should be taken in full compliance with relevant General Assembly resolutions, in particular 41/213 and 42/211, as well as relevant rules and regulations of the Organization. In this regard, the Ministers reaffirmed the financial rules and regulations of the United Nations.

183. The Ministers stressed that any efforts to use financial contributions to push for the adoption of certain proposals are counterproductive and violate the obligations of the Member States to provide resources for the Organization, as enshrined in its Charter. The Ministers, in this context, rejected all unilateral coercive measures contrary to the international law, which obstruct and sometimes impede payments of assessed contributions from Members of the Non-Aligned Movement to the budgets of the Organization.

184. The Ministers stressed that the level of resources to be approved by the General Assembly must be commensurate with all mandated programmes and activities in order to ensure their full and effective implementation. They also reaffirmed the priorities of the Organization as approved by the General Assembly and the need for the Secretary-General to fully reflect these priorities when presenting proposed programme budgets.

185. The Ministers stressed that the ceiling is the main distortionary element of the scale of assessments, affecting the principle of capacity to pay and noted with concern that despite the arrangement to reduce the ceiling from 25% to 22% in 2000 as a compromise, the major contributor is far from honoring its commitment to pay all its arrears. In this context, the Ministers urged the General Assembly to undertake a review of this arrangement, in accordance with paragraph 2 of General Assembly resolution 55/5 C.

186. The Ministers, while recalling General Assembly resolutions 64/248 and 65/246, rejected any change to the elements of the current methodology for the preparation of the scale of assessments aimed at increasing the contributions of developing countries. In this regard, they emphasized that the core elements of the current methodology of the scale of assessments, such as base period, Gross National Income, conversion rates, low per capita income adjustment, gradient, floor, ceiling for Least Developed Countries and debt stock adjustment must be kept intact and are not negotiable.

187. The Ministers emphasized that organizations which have an enhanced observer status at the United Nations giving them the rights and privileges usually applied only to observer states, such as the right to speak in the general debate of the General Assembly and the right of reply, should also have the same financial obligations to the United Nations as observer states. In this
context, they urged the General Assembly to consider a decision on an assessment for such organizations.

188. The Ministers affirmed that the current principles and guidelines for the apportionment of the expenses of peacekeeping operations approved by the General Assembly in its relevant resolutions should constitute a basis for any discussion on the peacekeeping scale. In this regard, the Ministers stressed that the peacekeeping scale must clearly reflect the special responsibilities of the permanent members of the Security Council for the maintenance of peace and security. The Ministers also recalled that the economically less developed countries have limited capacity to contribute towards the budgets of peacekeeping operations. In this context, the Ministers emphasized that any discussion on the system of discounts applied to the peacekeeping scale should take into account the conditions of developing countries whose current positions must not be negatively affected. The Ministers stressed, in this regard, that no member of the Non-Aligned Movement should therefore be categorized above level C of the peacekeeping scale of assessment.

189. The Ministers rejected the use of programmatic and budgetary documents by several authorial departments of the Secretariat and some Member States to promote concepts and approaches that are not adopted by the General Assembly or are under its review. In this context, the Ministers urged the Secretary General to ensure that, when presenting such documents, the programmatic aspects and the resources requirements are consistent with the legislative mandates of the General Assembly.

190. The Ministers took note of the exponential increase in the financial requirements and complexity of Special Political Missions over the past decade and acknowledge their unique characteristics in terms of establishment and financing, since they do not follow the regular budget cycle of the United Nations, despite being funded by this budget. In order to enhance efficiency and transparency of the budgetary process of the Organization, and taking into account the characteristics of the approval, functioning, scope and mandate of these activities, the Ministers therefore believed that Special Political Missions should be financed through the same criteria, methodology and mechanisms used to fund peacekeeping operations, including the establishment of a new separate account for Special Political Missions. The Ministers reemphasized their position in that regard, and called for the consideration of creating such separate account within the United Nations peace operations review.

191. Consistent with and guided by the afore-mentioned principled positions and affirming the need to defend, preserve and promote these positions, the Ministers agreed to reiterate the following measure, among others:

191.1. Urge all UN Member States in arrears, in particular the major contributing States, to settle their outstanding dues without further delay and to pay their future assessments in full, on time and without imposing preconditions in accordance with the Charter and relevant General Assembly resolutions, mindful at the same time of the special situation faced by some developing countries that hamper their ability to pay their assessed contributions.

**United Nations: Peacekeeping Operations**

192. The Ministers reaffirmed the guiding principles of United Nations peacekeeping operations (UNPKOs) adopted at the 11th Ministerial Conference of NAM held in Cairo in 1994, and reiterated the Movement’s position on UNPKOs adopted by the 12th Summit held in Durban in 1998 as well as in the Movement’s subsequent Summit Conferences, which have been further reiterated at the subsequent NAM Summits and Ministerial Meetings.

193. The Ministers commended the Movement’s significant and major contribution to the maintenance of international peace and security under the auspices of the United Nations.
Noting that peacekeeping has become the flagship activity of the Organization, the Ministers expressed satisfaction that the Non-Aligned Countries currently provide more than 88% of peacekeeping personnel in the field and deliver new pledges in areas most needed to make UN Peacekeeping Missions more efficient and effective. They reaffirmed and underscored the validity and relevance of the Movement’s principled positions concerning UNPKOs, as follows:

193.1. The Ministers reiterated that the primary responsibility for the maintenance of international peace and security rests with the UN and that the role of regional arrangements, in that regard, should be in accordance with Chapter VIII of the Charter, and should not in any way substitute the role of the UN, or circumvent the full application of the guiding principles of UNPKOs;

193.2. The Ministers emphasized that the establishment of any peacekeeping operation or extension of mandate of existing operations should strictly abide by the purposes and principles of the UN Charter, and those principles that have evolved to govern such operations and have become basic principles thereof, namely the consent of the parties, the non-use of force except in self-defense and defense of the mandate and impartiality. The Ministers believed that these basic principles that have guided UN peacekeeping operations over the last five decades without controversy still remain relevant and should be preserved. The Ministers also emphasized that the respect for the principles of sovereign equality, political independence, territorial integrity of all States and non-intervention in matters that are essentially within their domestic jurisdiction should also be upheld in this regard;

193.3. The Ministers stressed that implementation of all mandated tasks should be supported by a comprehensive peace process, provision of adequate resources, based on national ownership and the support of the international community;

193.4. The Ministers continued to emphasize that UN peacekeeping operation should be provided from the outset with political support, full and optimal human, financial and logistical resources, clearly defined and achievable mandates and exit strategies, and that the safety and security of peacekeepers are guaranteed;

193.5. The Ministers called upon the Security Council, while mandating UNPKOs, to authorize optimal troop strengths in order to achieve the mandated tasks. The Ministers took note of the establishment of the new force generation mechanism PCRS and also stressed the necessity for the UN to continue to work towards improving this system, taking into account the views of the TCC’s, in light of complex, evolving and multidimensional Peacekeeping Operations;

193.6. The Ministers stressed that UNPKOs should not be used as a substitute for addressing the root causes of conflict, which should be addressed in a coherent, well-planned, coordinated and comprehensive manner, with other political, social, economic and developmental instruments. They further stressed that due consideration should be given by the UN to the manner in which those efforts can be carried out from the early stage of UN engagement in post conflict situations and continue without interruption after the departure of UNPKOs, so as to ensure a smooth transition to lasting peace, security as well as sustainable development. In this context, they stressed the need to improve synergies between the activities of peacekeeping and peacebuilding to attain the overall objective of sustaining peace;

193.7. The Ministers, while recognizing the ongoing surge in peacekeeping which requires a genuine and concerted response by the entire membership of the UN, in particular the developed countries, called upon these countries to participate in and share the burden of UNPKOs;

193.8. The Ministers emphasized that in the context of the comprehensive approach and
the objective of a lasting peace and security, UN peacekeeping operations should be accompanied by a parallel and inclusive peace process that is well planned and carefully designed, supported by the consent and adherence of the parties concerned. They further emphasized that more effort must be invested in local political solutions to conflict which peacekeeping operations must endeavor to support;

193.9. The Ministers welcomed Security Council Resolution 2086 of 21 January 2013, which has a particular focus on multidimensional peacekeeping, as an important contribution to the pursuance of a comprehensive, coherent and integrated approach to multidimensional peacekeeping and peacebuilding;

193.10. The Ministers acknowledged the letter sent by Nam on 14 November 2014 to the President of the Security Council regarding resolution on policing, which reflects Nam’s strong concern over the encroachment of the Security Council on issues which exclusively falls within the purview of the C-34;

193.11. The Ministers reaffirmed that the General Assembly has the primary role within the UN in formulating concepts, policies and budgetary matters related to peacekeeping. In this regard, the Ministers emphasized that the Special Committee on Peacekeeping Operations is the only UN forum mandated to review comprehensively the whole question of UNPKOs in all their aspects, and that the role of the Committee continues to be critical in providing strategic recommendations. In this regard, they welcomed the revision of the working methods of the C-34 with the objective of having a more strategic, action-oriented C-34 report, which will allow a clear orientation for the Secretariat, and expressed the hope that its recommendations are implemented in spirit and letter. Further, the Ministers agreed to continue to promote and safeguard the collective positions and priorities of the Movement on peacekeeping;

193.12. The Ministers stressed that the UN’s engagement in increasingly demanding and complex multidimensional peacekeeping operations should be consistent with the agreed principles, guidelines and terminology governing peacekeeping. They emphasized and reiterated the importance of consistency in the use of agreed peacekeeping terminology and underlined that any discussion of the above should be done through the inter-governmental process and that only those guidelines and terminology that have been agreed by member states should be implemented;

193.13. The Ministers stressed that the Special Committee on Peacekeeping Operations (C34) is the only body in charge of the development of concepts, policies, doctrines and strategies in UN peacekeeping operations. They further stressed that only those approaches that have been adopted by member states within the C34 should be implemented. They also stressed that policy development in Peacekeeping must be matched with the necessary resources in order to guarantee the effectiveness of Peacekeeping operations;

193.14. The Ministers noted the consultations in different regions of the world, following the establishment of the “High level Independent Panel on Peace Operations” by the United Nations Secretary General in October 2014, and commended the contributions of the Non-Aligned members, in particular Bangladesh, Egypt and Ethiopia, for hosting the regional consultations with the High Level Panel in Asia, the Middle East and Africa, respectively. The Ministers also took note of the report by the “High-level Independent Panel on Peace Operations” and the subsequent implementation report by the Secretary-General. In this regard, the Ministers recalled the GA Resolution A/RES/70/6 and urged the Secretary-General to implement the recommendations emanating from the review process after thorough consultations with member states and due consideration by the relevant bodies, particularly the C-34, in accordance with established procedures and in compliance with their respective purview;
193.15. The Ministers *reaffirmed* that the use of force in peacekeeping operations should abide by the purposes and principles of the UN Charter and the guiding principles that govern such operations;

193.16. The Ministers *emphasized* that the use of technology in a peacekeeping context should be considered on a case-by-case basis and must uphold the principles enshrined in the Charter of the United Nations, namely the respect for sovereignty and territorial integrity of Member States, and adhere to the fundamental principles of UN peacekeeping, in particular the consent of the host State. The Ministers *stressed* the importance of defining the legal, operational, technical and financial aspects related to the use of modern technology. The Ministers *emphasized* that technology, if used within parameters as defined above, can complement the work of the troops on the ground and not substitute them;

193.17. The Ministers *recognized* that there is a range of important mandated tasks, including but not limited to, support to political processes, support to the restoration and extension of state authority and protection of civilians. While they stressed that the protection of civilians is the primary responsibility of the host country, the Ministers *acknowledged* that the protection of civilians is currently mandated in a number of United Nations peacekeeping missions and reaffirmed their commitment in this regard. The Ministers, accordingly, *emphasized* that relevant peacekeeping missions with this mandate should conduct their tasks without prejudice to the primary responsibility of the host Government to protect civilians;

193.18. The Ministers *stressed* that the United Nations peacekeeping Operations, in particular, with Protection of Civilian mandates should be guided by the principles of the Charter and should not be used as means for Government change and military intervention;

193.19. The Ministers *took note* with appreciation of the measures taken under the five-year global field support strategy to improve the quality, effectiveness and efficiency of service delivery in an integrated, accountable and transparent manner and emphasized the continued need for extensive and inclusive consultations by the UN Secretariat with Member States on the implementation of the new service delivery model;

193.20. The Ministers, while taking note of the efforts exerted by the Department of Peacekeeping (DPKO) and the Department of Field Support (DFS), *emphasized* the importance of preserving unity of command in mission at all levels, as well as coherence in policy and strategy, and clear command structures in the field and up to, and including, at headquarters. They *stressed* the comparative advantages of Command and Control structures of the UN over other arrangements and called for effective communications by the UN on this subject to countries that have constantly refused to place their troops under UN Command. They also *urged* that Command and Control structure should be in accordance with the mandate and any new mandate should be formulated with the active participation of the TCCs;

193.21. The Ministers *strongly condemned* the deadliest rebel attacks on the United Nations Peacekeepers in the Democratic Republic of Congo which killed 15 Tanzanian soldiers participating in the peacekeeping mission with other 43 wounded in December 2017, the Ministers *highlighted* that this is the worst attack on UN Peacekeepers in the United Nations’ recent history and it indicates another enormous sacrifice made by troop contributing countries in the service of global peace. The Ministers therefore *called* for the implementation of all recommendations made by the UN investigation team that examined the circumstances surrounding the attack.

193.22. The Ministers *called upon* the UN Secretariat and concerned parties to accord the highest priority to the safety and security of UN peacekeepers in the field in light of
the worsening security situation prevailing in many field missions. In this context, they condemned in the strongest terms the killing, kidnapping and targeted attacks of UN peacekeepers, and all acts of violence against them, and urged the UN and Host Countries to bring perpetrators to justice;

193.23. The Ministers expressed grave concern on perpetual delay in communication of information to the concerned TCCs/PCCs and the repatriation of injured or fallen peacekeepers from the field to their home countries. They urged DPKO to expedite the operationalization of the new online NOTICAS database application to enhance the procedures pertaining to the communication of information with concerned troop contributing countries on incidents or accidents happening in the field and to proceed swiftly on the repatriation of injured or fallen peacekeepers, without giving priority to financial costs;

193.24. The Ministers underlined the importance for an effective triangular cooperation between Troop and Police Contributing Countries, the Secretariat and the Security Council, and noted with appreciation the recent interest in strengthening this cooperation. The Ministers strongly supported a complete reshuffling of the current modalities of the triangular cooperation in order to make it more result-oriented and beneficial to all. They reiterated that effective triangular meetings must take place at a regular basis, with a view to ensuring continuous, substantive, representative and meaningful dialogue well ahead of mandate renewals, in order to avoid an ad hoc approach in this regard.

193.25. The Ministers expressed the view that further development of the mechanisms, referred to in paragraph 157.19 above, towards achieving peacekeeping objectives should be considered;

193.26. The Ministers emphasized that enhancing the role of Troop Contributing Countries in all different aspects at all phases of the Peacekeeping process remains a top priority and underscored in particular that the experience and expertise of troop contributing countries can be drawn upon when the Security Council implements, extends or adjusts UN peacekeeping mandates. Troop contributing countries are best placed to contribute to an objective assessment of the situation on the ground. In this regard, enhanced and better interaction between Troop Contributing Countries and the Security Council Working Group on Peacekeeping Operations could also contribute to a more inclusive and substantial consultation and decision-making process;

193.27. The Ministers emphasized that any invitation by the UN Secretariat to the meetings on establishing a new UN peacekeeping mission or expanding an ongoing UNPKO should be transparent and encompass all current and potential Troop Contributing Countries;

193.28. The Ministers stressed that peacekeepers cannot substitute to peacebuilders and that Peacekeeping efforts should be accompanied by Peacebuilding activities, in such a manner as to facilitate the economic revitalization, development and to enable national capacity building, on the basis of national ownership, to pave the way towards a seamless exit strategy, to prevent recurrence of armed conflicts and to support critical tasks in order to achieve sustainable peace;

193.29. The Ministers reaffirmed that peacekeeping remained the most cost-effective tool available to the United Nations for the promotion and maintenance of international peace and security but also noted that in the face of the changing global peace and security environment, peacekeeping needed to be strengthened through support for political solutions for durable and sustainable peace. It was reiterated that addressing the root causes of conflict was the best conflict prevention and resolution strategy along with inclusive national ownership and leadership to drive the peace processes;
193.30. The Ministers called for United Nations intensified support for the African Union’s operations by ensuring predictable and sustainable funding to AU-led Peacekeeping operations authorized by the Security Council, including support through access to UN assessed contributions. Furthermore, they expressed its support for the ongoing efforts to strengthen the strategic partnership between both Organizations in the area of peacekeeping. In this regard, they welcomed the joint UN-AU Framework for Enhanced Partnership in Peace and Security signed in April 2017;

193.31. The Ministers stressed the importance of strengthening cooperation between the League of Arab States (LAS) and the United Nations (UN) in the area of peacekeeping and peaceful settlement of disputes;

193.32. The Ministers remained concerned over the staffing and structure of the Department of Peacekeeping Operations and Department of Field Support whereby NAM Member Countries are insufficiently represented, particularly at senior and professional levels. The Ministers urged the Secretary-General to further enhance his efforts in accordance with Article 101 of the Charter, the United Nations Staff Regulations and Rules and relevant General Assembly resolutions to attain equitable geographical distributions and gender representation at all levels. In this regard, the Ministers believed that appropriate representation in the Department of Peacekeeping Operations, the Department of Field Support and in the field should also take into account the contributions of Troop Contributing Countries (TCCs), in particular at the professional and leadership level in Headquarters as well as in the field missions;

193.33. The Ministers underscored the importance of the rapid and effective deployment of the UNPKOs including their reinforcement as necessary. In this regard, the Ministers stressed the need for enhanced rapidly deployable capacities for any new UN peacekeeping missions or for reinforcing existing UN peacekeeping missions if in crisis. The Ministers stressed that the development of such mechanisms, including through the development of the Global Field Support Strategy, should be in close consultation with Troop Contributing Countries;

193.34. The Ministers expressed concern at the significant reduction of the UN Peacekeeping budget in the context of consolidation for the demand for Peacekeeping Operations. They reaffirmed that the funding of UNPKOs through voluntary contributions should not influence the UN Security Council decisions to establish UNPKOs or affect their mandates;

193.35. The Ministers expressed concern over the significant amounts of outstanding reimbursements that the United Nations currently owes to the Troop Contributing Countries, which may adversely affect the UN peacekeeping capacity;

193.36. The Ministers noted the outcome of the 2017 session of the UN Contingent Owned Equipment (COE) working group. They stressed the need and reiterated the call for the increase in reimbursement rates of troop cost, daily allowance, self-sustainment, welfare and recreation, medical services mission factors and COE on the basis of actual expenses and investments by Troop Contributing Countries. In this regard, the Ministers also noted the issuance of the revised Contingent-Owned Equipment Manual (A/72/288) and strongly encourage the COE Working Group to review its modalities including its working methods;

193.37. The Ministers commended the ongoing work of the NAM Working Group on Peacekeeping Operations in coordinating issues of common concern to the Movement in the field of peacekeeping and Special Political Mission. They expressed appreciation to Morocco for its dedicated efforts and leadership as Coordinator of the Working Group; recognized that this allowed the Movement to have a stronger position during the negotiations; and requested it to maintain its role during the next sessions of the COE.
working group. Moreover, they encouraged all NAM delegations to continue to actively participate in the working group with a view to promote and achieve the objectives of the Movement, in particular the Troop Contributing Countries, in the work of the Special committee on Peacekeeping Operations, as well as in all other fora dedicated to peacekeeping and Special Political Missions;

193.38. The Ministers noted the last review of the troop reimbursement rates in the 2014, and express concern that this has not adequately taken into account the financial burden on Troop Contributing Countries, which could jeopardize the sustainability of participation in peacekeeping operations. They look forward to the start of the work of the next cycle of the senior advisory group, and urged that this will lead to an adequate increase in troop cost;

193.39. The Ministers emphasized the need for ensuring payment of timely and adequate compensation for death and disabilities of peacekeepers while serving in UN Field Missions;

193.40. The Ministers stressed again that all UN Member States must pay their assessed contributions in full, on time and without condition. They reaffirmed the obligation of Member States, under article 17 of the UN Charter, to bear their expenses to the Organization as apportioned by the General Assembly, bearing in mind the special responsibility of the Permanent Members of the Security Council, as indicated in General Assembly resolution 1874 (S-IV) of 27 June 1963;

193.41. The Ministers reemphasized the critical importance of timely, efficient, transparent and cost-effective procurement of goods and services in support of UNPKOs, and reiterated the view that there is a need to ensure greater UN procurement from Non-Aligned Countries;

193.42. The Ministers acknowledged the outstanding contribution and sacrifices of peacekeepers, and stressed that all UN peacekeeping personnel perform their duties in a manner that preserve the image, credibility, impartiality, and integrity of the UN. They stressed the importance of maintaining a policy of zero tolerance on all forms of misconduct, and condemned all forms of sexual exploitation and abuse committed by UN personnel in peacekeeping operations, which undermine the values and principles of the United Nations and stain the Organization’s image. They reaffirmed that investigation and prosecution should lie within the purview of national jurisdictions of the concerned States. They expressed that the safety and security of the UN Missions personnel remains a major concern for the Troop and Police Contributing Countries, which deserves greater attention from the Secretariat, in view of the growing casualties in Missions;

193.43. The Ministers emphasized that due process and national requirements must always be observed during investigations of misconduct. They further stressed that the UN should ensure that steps are taken to restore the image and credibility of any UN peacekeeping mission, Troop Contributing Countries or UN peacekeeping personnel when allegations of misconduct are ultimately found to be unsubstantiated;

193.44. The Ministers noted the importance of security sector reform (SSR) among other important components in the context of UN peacekeeping and post conflict situations, and stressed that SSR should be integrated in the broad framework of UN Rule of Law activities, thus ensuring that SSR activities and structures are not duplicating the work carried out in the Rule of Law area. They reaffirmed that the development of a UN approach to SSR must take place within the General Assembly, and in accordance with the principle of national ownership, and stressed that the formulation of strategies to SSR, including its scope and mandate, should be carried out through the intergovernmental process and must be context-specific;
193.45. The Ministers emphasized that SSR should be undertaken at the request of the country concerned, and underlined the primary responsibility and the sovereign right of the country concerned in determining its national priorities in this regard.

194. The Ministers stressed the necessity to continue improving the working methods of the Special Committee on Peacekeeping Operations to ensure that its work be carried out in a more efficient and transparent manner.

195. The Ministers, deeply concerned on the high level of casualties among Peacekeepers in recent years, stressed the necessity for the UN to develop effective Safety and Security arrangements for Peacekeepers. The Ministers, mindful of the risks inherent in peacekeeping, reserved their most profound thoughts and respect for those UN peacekeepers that have lost their lives while in the service of peace. They emphasized that their sacrifice should stand as an enduring testimony of the unique work carried out by them in favor of peace and stability. They further emphasized the importance of 29 May, the International Day of United Nations Peacekeepers, as providing an occasion to pay tribute on an annual basis at the UN Memorial for Peacekeepers to all the men and women who have served and continue to serve in United Nations peacekeeping operations. In this context, they welcomed the recommendation by the Special Committee for Peacekeeping Operations for the establishment of the Memorial Wall at the Peacekeepers Memorial at the UN headquarters and urged for its early implementation.

196. The Ministers expressed their serious concern over the significant increase of attacks targeting peacekeepers and took note of the efforts of the Secretary-General in this regard, in particular the report on “Improving Security of the UN Peacekeepers” (Cruz Report) and its subsequent action plan presented by the Secretariat, and called for a common approach between the Secretariat, Troop and Police Contributing Countries and all other relevant stakeholders for a long-term strategy in this regard, which should be discussed within the context of the C-34 or any other relevant intergovernmental forum.

197. The Ministers took note of the deployment of foreign military contingents from either individual States or regional arrangements alongside the United Nations peacekeeping operations. In this context, they emphasized their concerns regarding the need for comprehensive mandates that clearly define the modalities of withdrawal and reconfiguration, in order to improve cooperation and coordination with the UN, and to avoid any possible negative impact on the safety and security of UN peacekeepers.

198. The Ministers called upon the Secretary-General, to fully take into account the views of the Non-Aligned Movement, including the submissions made on 21 November 2014 and on 19 March 2015, while considering the recommendations of the “High level Independent Panel on Peace Operations”.

199. The Ministers took note of the report of the Secretary-General and expressed its support to the vision for reforming the peace and security pillar of the United Nations while ensuring accountability and transparency, with due regard to the promotion of the principle of equitable geographical representation. It was reiterated that any reform effort should not seek to change established mandates, functions or funding sources of the peace and security pillar, and that it shall be conducted in consultation with Member States of the Organization. In this regard, the report of the Secretary-General would be awaited to provide detailed information on the proposed structure, functions and staffing requirements for the consideration of the General Assembly in accordance with established procedures.

**Disarmament and International Security**

200. The Ministers reaffirmed and reiterated the long-standing principled positions of the Movement on disarmament and international security, including the decisions taken at the XII Summit in Durban in 1998 the XIII Summit in Kuala Lumpur in 2003, the XIV Summit in
Havana in 2006, the XV Summit in Sharm El Sheikh, Egypt, in July 2009, the XVI Summit in Tehran in 2012, the XVII Summit in Island of Margarita in 2016, the XIII Ministerial Conference in Cartagena in 2000, the XIV Ministerial Conference in Durban in 2004, the Ministerial Meeting held in Putrajaya, Malaysia, in 2006, the XV Ministerial Conference held in Teheran, Islamic Republic of Iran, in 2008, and the XVI Ministerial Conference and Commemorative Meeting of the Non- Aligned Movement held in Bali, Indonesia, in May 2011, and the XVII Ministerial Conference held in Algiers, Algeria in 2014.

201. The Ministers reiterated their continued concern over the current difficult and complex situation in the field of disarmament and international security. In this regard, they called for renewed efforts to resolve the current impasse in achieving nuclear disarmament and nuclear non-proliferation in all its aspects.

202. The Ministers expressed their deepest concern over the immediate, indiscriminate, and massive death and destruction caused by any nuclear weapon detonation and its long term catastrophic consequences on human health, environment, and other vital economic resources, thus endangering the life of present and future generations. They reiterated further their deep concern at the catastrophic humanitarian consequences of any use of nuclear weapons, and in this context reaffirmed the need for all States at all times to comply with applicable international law, including international humanitarian law. They stressed the need to address this issue in the context of the efforts aimed at the realization of a nuclear-weapon-free world and in this regard, they noted continuing relevant international efforts, including the three International Conferences on the Humanitarian Consequences of Nuclear Weapons, held respectively in Norway in 2013, in Mexico in 2014 and in Vienna in 2014, and the important role of the humanitarian initiative in promoting progress towards nuclear disarmament and the total elimination of nuclear weapons. They reiterated the call in General Assembly Resolution 72/251 for the commencement of negotiations in the Conference on Disarmament (CD) on a comprehensive convention on nuclear weapons.

203. Reaffirming the absolute validity of multilateral diplomacy in the field of disarmament and non-proliferation, the Ministers reiterated their determination to promote multilateralism as the core principle of negotiations in the area of disarmament and non-proliferation. In this regard, they welcomed the adoption of General Assembly Resolution 72/48 on Promotion of multilateralism in the area of disarmament and non-proliferation.

204. The Ministers reiterated their strong concern at the growing resort to unilateralism and in this context, underlined that multilateralism and multilaterally agreed solutions, in accordance with the UN Charter, provide the only sustainable method of addressing disarmament and international security issues.

205. The Ministers reaffirmed the Movement’s principled positions on nuclear disarmament, which remains its highest priority, and on the non-proliferation of nuclear weapons in all its aspects. They stressed the importance of ensuring that efforts aimed at nuclear non-proliferation are parallel to simultaneous efforts aimed at nuclear disarmament. They expressed concern at the threat to humanity posed by the continued existence of nuclear weapons and of their possible use or threat of use.

206. The Ministers reiterated their deep concern over the slow pace of progress towards nuclear disarmament and the lack of progress by the Nuclear-Weapon States (NWS) to accomplish the total elimination of their nuclear arsenals in accordance with their relevant multilateral legal obligations. They reaffirmed the importance of the unanimous conclusion of the ICJ that there exists an obligation to pursue in good faith and to bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control. They called upon the NWS to fulfill their multilateral legal obligations on nuclear disarmament and to implement the unequivocal undertaking they provided in 2000 and further reiterated in 2010 so as to accomplish the total elimination of nuclear weapons. They emphasized, in this regard, the urgent need to commence and to bring to a conclusion negotiations on
comprehensive and complete nuclear disarmament without any further delay.

207. The Ministers acknowledged the significant contribution towards realizing the objective of nuclear disarmament made by NAM Member and Observer States, including through the voluntary renunciation of the possession of nuclear weapons by Belarus, Kazakhstan, South Africa and Ukraine;

208. The Ministers, while noting the statements by NWS of their intention to pursue actions in achieving a world free of nuclear weapons, reaffirmed the need for urgent concrete actions by the NWS to achieve this goal in accordance with their nuclear disarmament legal obligations and commitments. They reaffirmed the importance of the application of the principles of transparency, irreversibility and verifiability by NWS in all measures related to the fulfillment of their nuclear disarmament obligations.

209. The Ministers remained deeply concerned at the strategic defence doctrines of the NWS, including the “NATO Alliance Strategic Concept”, which not only set out rationales for the use or threat of use of nuclear weapons, but also maintain unjustifyable concepts on international security based on promoting and developing military alliances and nuclear deterrence policies. They therefore strongly called upon them to exclude completely the use or threat of use of nuclear weapons from their military and security doctrines.

210. The Ministers reiterated, with concern, that improvements in existing nuclear weapons and the development of new types of nuclear weapons as provided for in the military doctrines of some NWS, including the United States Nuclear Posture Review, violate their legal obligations on nuclear disarmament, as well as the commitments made to diminish the role of nuclear weapons in their military and security policies and contravene the negative security assurances provided by the NWS. They stressed once again that these improvements as well as the development of new types of such weapons violate also the commitments undertaken at the time of the conclusion of the Comprehensive Nuclear-Test-Ban Treaty (CTBT) and at the NPT Review Conferences by the NWS.

211. The Ministers welcomed the multilateral efforts towards nuclear disarmament and the total elimination of nuclear weapons. Moreover, they took note of the adoption of the Treaty on the Prohibition of Nuclear Weapons on 7 July 2017 at the United Nations conference to negotiate a legally binding instrument to prohibit nuclear weapons, leading towards their total elimination. It is hoped that, when entered into force, the Treaty would contribute to furthering the objective of the total elimination of nuclear weapons.

212. The Ministers emphasized that progress in nuclear disarmament and nuclear non-proliferation in all its aspects is essential to strengthening international peace and security. They stressed the importance of ensuring that efforts aimed at nuclear non-proliferation are parallel to simultaneous efforts aimed at nuclear disarmament. They reaffirmed that efforts toward nuclear disarmament, global and regional approaches and confidence building measures complement each other and should, wherever possible, be pursued simultaneously to promote regional and international peace and security. Nevertheless, they stressed that nuclear disarmament, as the highest priority established by SSOD-I and as a multilateral legal obligation, should not be made conditional on confidence building measures or other disarmament efforts.

213. The Ministers reaffirmed the importance and the relevance of the UN Disarmament Commission (UNDC) as the sole specialized, deliberative body within the UN multilateral disarmament machinery and reiterated their full support for its work. They commended the UNDC for the successful adoption of the consensus recommendations on “Practical Confidence-Building Measures in the Field of Conventional Weapons” by the Commission in 2017. They expressed regret that since 2000 the UNDC was unable to reach agreement on the “Recommendations for achieving the objective of nuclear disarmament and non-proliferation of nuclear weapons” due to the lack of political will and inflexible positions of some Nuclear-
Weapons States, despite NAM’s constructive role and concrete proposals throughout the deliberations. They further called upon UN Member States to display the necessary political will and flexibility, in order to enable the Commission to agree on “Recommendations for achieving the objective of nuclear disarmament and non-proliferation of nuclear weapons” in its current cycle.

214. The Ministers reaffirmed the importance of the Conference on Disarmament (CD) as the sole multilateral negotiating body on disarmament, and reiterated their call to the CD to agree on a balanced and comprehensive program of work by, inter alia, establishing an ad hoc committee on nuclear disarmament as soon as possible and as the highest priority. They emphasized the necessity to start negotiations in the Conference on Disarmament, without further delay, on further effective nuclear disarmament measures, in particular a comprehensive nuclear weapons convention that sets, inter alia, a phased programme for the complete elimination of nuclear weapons with a specified framework of time.

215. The Ministers expressed their appreciation for the efforts undertaken, in particular by those representatives of Member States of the Non-Aligned Movement who served as the Presidents of the CD for the commencement of its substantive work, including negotiations. They noted the various proposals on the program of Work of the CD as contained in the documents CD/1864, a decision adopted by CD on 29 May 2009 but not implemented, CD/1933/Rev.1, CD/1952, and CD/1955 which were presented successively by Algeria, Egypt, Iran and Iraq between 2009 to 2013 sessions. They called on the CD to agree by consensus on a balanced and comprehensive programme of work without any further delay taking into account the security interests of all States. In this regard, the Ministers reaffirmed the importance of the principle contained in the final document of the SSOD-I that “The adoption of disarmament measures should take place in such an equitable and balanced manner as to ensure the right of each State to security and to ensure that no individual State or group of States may obtain advantages over others at any stage”. They agreed to continue coordination of efforts at the NAM Chapter in Geneva.

216. The Ministers called for the urgent commencement of negotiations in the Conference on Disarmament on further effective nuclear disarmament measures to achieve the total elimination of nuclear weapons, including, in particular, on a comprehensive convention on nuclear weapons. They further called for urgent compliance with legal obligations and the fulfillment of the commitments undertaken on nuclear disarmament.

217. The Ministers commended the efforts of NAM Member States in advancing the goal of nuclear disarmament. In this regard, they welcomed the convening, at the initiative of NAM, under resolution 72/251, of the upcoming United Nations International High-Level Conference on Nuclear Disarmament, to be held on 14-16 May 2018, in New York, as a follow-up to the first-ever High-Level Meeting of the General Assembly on Nuclear Disarmament on 26 September 2013, to review the progress made in this regard. They encouraged all Member States of the United Nations and members of Specialized Agencies to participate in the Conference at the highest level. The Ministers expressed their hope that this International Conference can contribute to the goal of a nuclear weapons free world.

218. The Ministers welcomed UN annual meetings and activities for the commemoration of the International Day for the Total Elimination of Nuclear Weapons on 26 September since 2014, as outlined in resolution 68/32. They invited Member States, the UN system and the civil society, including non-governmental organizations, academia, parliamentarians, the mass media and individuals, to commemorate and promote the International Day for the Total Elimination of Nuclear Weapons through all means of educational and public awareness-raising activities. They also expressed their commitment to work together with the objective that the International Day for the Total Elimination of Nuclear Weapons becomes one of the effective ways to focus international public attention on the dangers of nuclear weapons, the necessity for their total elimination and the advantages of nuclear disarmament for development as well as for international peace and security.
Moreover, the Ministers underlined the importance of UNGA resolutions 68/32, 69/58, 70/34, 71/71 and 72/251 as a roadmap on nuclear disarmament and accordingly stressed the need for an active participation of NAM Member States in all activities related to their implementation, including enhancing public awareness and education on this issue. They commended all efforts aiming at promoting the implementation of these resolutions, including those undertaken by the Group of 21 in the Conference on Disarmament and the NAM Chapter in Vienna.

The Ministers called for further international, regional and national efforts aimed at advancing the goal of nuclear disarmament. In this regard, they noted with appreciation the efforts of the Community of Latin American and Caribbean States (CELAC), and also noted the adoption of a “Special Declaration on Nuclear Disarmament” at its Second Summit, held in Havana, Cuba, on 28 and 29 January 2014, a “Special Declaration on the Urgent Need for a Nuclear Weapon Free World” at its Third Summit, held in Belen, Costa Rica, on 27 and 28 January 2015, a “Special Declaration on the commitment to advance in the multilateral negotiations on Nuclear Disarmament”, at its Fourth Summit, held in Quito, Ecuador, on 27 January 2016, and further noted the adoption of a “Special Declaration on Nuclear Disarmament” at its Fifth Summit, held in the Dominican Republic, on 25 January 2017.

The Ministers, in reiterating their support for a comprehensive consideration of the UN disarmament agenda and the ways and means of revitalizing and enhancing the disarmament machinery, reaffirmed that a Fourth Special Session of the UN General Assembly devoted to Disarmament (SSOD-IV) remains the most appropriate forum for furthering the priorities established by SSOD-I, including nuclear disarmament as the highest priority for the international community. In this context, while recalling the UNGA resolutions 65/66 and 72/49 and its decision 70/551 entitled “Convening of the fourth special session of the General Assembly devoted to disarmament”, they welcomed the successful outcome of the Open-Ended Working Group, convened by resolution 65/66 of the General Assembly and its decision 70/551, which held its substantive sessions in 2016 and 2017, under the able Chairmanship of Ecuador, adopting by consensus recommendations for objectives and agenda for the Fourth Special Session of the General Assembly devoted to Disarmament (SSOD-IV). They further welcomed the endorsement, by the Assembly, of the report of the Open-Ended Working Group and the substantive recommendations contained therein, and stressed the importance of continuing consultations on the next steps for convening of the fourth special session of the General Assembly devoted to disarmament.

The Ministers, while recalling the vital importance of the principles of equitable geographic representation and gender balance, called for the fair application of these principles in the appointment and recruitment to leadership, senior and managerial positions in the UN Office for Disarmament Affairs. The Ministers called also for transparency and balanced representation in the composition of the membership of the Groups of Governmental Experts established in the field of disarmament and international security. They also underlined the importance of transparency and openness of the work of such groups.

The Ministers reaffirmed that the total elimination of nuclear weapons is the only absolute guarantee against the use or threat of use of nuclear weapons. Pending the total elimination of nuclear weapons, they called for the early commencement of negotiations on effective, universal, unconditional, non-discriminatory, irrevocable and legally binding security assurances to all NNWS by all the nuclear-weapon States against the use or threat of use of nuclear weapons under all circumstances as a matter of high priority. They expressed concern that despite long standing requests by NNWS to receive such legally binding universal assurances, no tangible progress has been achieved in this regard.

The Ministers stressed the significance of achieving universal adherence to the Comprehensive Nuclear-Test-Ban Treaty, including by all NWS, which, inter alia, should contribute to the process of nuclear disarmament. They reiterated that if the objectives of the
Treaty were to be fully realized, the continued commitment of all States signatories, especially the NWS, to nuclear disarmament would be essential. In this context, the ratification of the CTBT by Myanmar and Swaziland was welcomed.

225. The Ministers recalled the commitments made towards the full implementation of the New START Treaty between the Russian Federation and the United States, as well as the need for follow-up measures in order to achieve deeper reductions in their nuclear arsenals. They stressed that reductions in deployments and in operational status, although they may contribute to risk reduction, cannot substitute for irreversible cuts in, and the total elimination of, nuclear weapons. In this context, they called on the United States and the Russian Federation to apply the principles of transparency, irreversibility and verifiability to such cuts, to further reduce their nuclear arsenals, both warheads and delivery systems, thus contributing to the fulfillment of their nuclear disarmament obligations and facilitating the realization of a world free of nuclear weapons at the earliest date.

226. The Ministers took note of the successful completion of the commitments, by the Russian Federation and the United States, under the New START treaty, and called for the renewal of the commitments agreed within the framework of said Treaty. Nonetheless, they expressed their grave concern over the US Nuclear Posture Review and its National Security Strategy, which goes against legal obligations and undertakings to accomplish the total elimination of their nuclear arsenals and threatens international peace and security.

227. The Ministers continued to be concerned over the negative implications of the development and deployment of anti-ballistic missile (ABM) defense systems and the threat of weaponization of outer space which have, inter alia, contributed to the further erosion of an international climate conducive to the strengthening of international security. The abrogation of the ABM Treaty brought new challenges to international peace and stability and the prevention of an arms race in outer space. They remained seriously concerned at the negative security consequences of the deployment of strategic missile defence systems which could trigger an arms race(s) and lead to the further development of advanced missile systems and an increase in the number of nuclear weapons.

228. The Ministers recognized the common interest of all humankind and the inalienable, legitimate sovereign rights of all States in the exploration and use of outer space for exclusively peaceful purposes, and reconfirmed their stand to oppose and reject any act denying or violating it and emphasized that prevention of an arms race in outer space, including a ban to deploy or use weapons therein, would avert a grave danger for international peace and security. They further emphasized the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space. They also reemphasized the urgent need for the commencement of substantive work in the CD, inter alia, on the prevention of an arms race in outer space, taking note of the joint Russian-Chinese initiative of a draft treaty on the “Prevention of the Placement of Weapons in Outer Space, the Threat or Use of Force Against Outer Space Objects” (PPWT) presented in the Conference on Disarmament on 12 February 2008 and in 2014. They noted that this initiative is a constructive contribution to the work of the Conference, and is a good basis for further discussion toward adopting an international legally-binding instrument. In this context, they noted the adoption of General Assembly resolution 72/27 on no first emplacement of weapons in outer space with a view to ensuring its exclusive peaceful use. They also welcomed the adoption of General Assembly resolution 72/250 on “Further practical measures for the prevention of an arms race in outer space”, which calls for the establishment of a United Nations Group of Governmental Experts to consider and make recommendations on substantial elements of an international legally binding instrument on the prevention of an arms race in outer space, including, inter alia, on the prevention of the placement of weapons in outer space. They further urged all Member States, in particular those with major space capabilities, to contribute actively to the goal of preventing an arms race in outer space as an essential condition for the promotion of international cooperation in the exploration and use of outer
space for peaceful purposes. They called for the promotion and strengthening of international cooperation in the exploration and use of outer space for peaceful purposes.

229. The Ministers, while reaffirming the Declaration on Information and Communication Technologies (ICTs) of the 17th Ministerial Conference of NAM held in Algeria in May 2014, and noting that considerable progress has been made in developing and applying the latest ICTs, they expressed concern that these technologies and means can potentially be used for purposes that are inconsistent with the objectives of maintaining international stability and security and may adversely affect the integrity of the infrastructure of States to the detriment of their security in both civil and military fields. They also noted with concern cases of illegal use of new ICTs to the detriment of Members States of the Movement, and expressed strong rejection to those violations. In this regard and while taking into account the ongoing efforts within the United Nations, they called upon Member States to further promote at multilateral levels the consideration of existing and potential threats from the malicious use of ICTs, as well as possible strategies to address these threats. They emphasized that ICTs should be utilized by Member States in a manner consistent with international law and the UN Charter. They called for the intensification of efforts towards safeguarding cyberspace from becoming an arena of conflict, and ensuring instead the exclusive peaceful uses which would enable the full realization of the potential of ICTs for contributing to social and economic development. They stressed that the development of any international legal framework to address issues related to the use of ICTs with implications on international peace and security should take into account the concerns and interests of all States and be based on consensus and pursued within the UN with the active and equal participation of all States. They highlighted the central role of governments in areas related to public policy aspects of ICT security.

230. The Ministers reaffirmed the Declaration on Information and Communication Technologies of the 17th Ministerial Conference of NAM held in Algeria, and reiterated the importance of ensuring that the use of such technologies is fully in accordance with the purposes and principles of the Charter of the United Nations, International Law and, especially, the principles of sovereignty, non-interference in the internal affairs and the well-established principle of peaceful coexistence among States.

231. The Ministers remained convinced of the need for a multilaterally negotiated, universal, comprehensive, transparent and non-discriminatory approach toward the issue of missiles in all its aspects as a contribution to international peace and security. They expressed their support for efforts to be continued within the UN to explore further the issue of missiles in all its aspects. In this regard, they emphasized the contribution of peaceful uses of space technologies, including space launch vehicle technologies, to human advancement, such as for telecommunications and data gathering on natural disasters. They also emphasized the need to keep the issue of missiles in all its aspects on the agenda of the UN General Assembly and welcomed that the Panel of Governmental Experts established in accordance with Resolution 59/67 successfully concluded its work in 2008 and submitted its report to the 63rd session of the UN General Assembly. While welcoming the consensus adoption of the UNGA decision 69/517 on “Missiles”, they encouraged follow up efforts to further examine the elements contained in the conclusions of the Secretary-General’s Report A/63/176. Pending the achievement of such a universal approach related to delivery systems for weapons of mass destruction, any initiative to address these concerns effectively and in a sustainable and comprehensive manner should be through an inclusive process of negotiations in a forum where all States could participate as equals. They stressed the importance of the security concerns of all States at regional and global levels in any approach to the issue of missiles in all its aspects.

232. The Ministers believed that the establishment of Nuclear-Weapon-Free zones (NWFZs) created by the treaties of Tlatelolco, Rarotonga, Bangkok, Pelindaba, the Central Asian Nuclear-Weapon-Free Zone treaty as well as Mongolia’s Nuclear-Weapon-Free-Status are positive steps and important measures towards strengthening global nuclear disarmament and nuclear non-proliferation. They reiterated that in the context of NWFZs, it is essential that NWS should
provide unconditional assurances against the use or threat of use of nuclear weapons to all States of the zone. They urged States to conclude agreements freely arrived at among the States of the region concerned with a view to establishing new NWFZs in regions where they do not exist, in accordance with the provisions of the Final Document of the First Special Session of the General Assembly devoted to Disarmament (SSOD-I) and the Principles and Guidelines adopted by the UN Disarmament Commission in 1999. They also called upon all the nuclear-weapon States to ratify related protocols to all treaties establishing nuclear-weapon-free zones, withdraw any reservations or interpretative declarations incompatible with their object and purpose, and respect the denuclearization status of these zones.

233. The Ministers welcomed the anniversaries of all treaties establishing nuclear-weapon-free zones. In this regard, they welcomed the fiftieth anniversary of the Treaty of Tlatelolco, which created the first nuclear-weapon-free zone established in the world, and recognized its contributions to the cause of disarmament and non-proliferation. Similarly, they welcomed the twentieth anniversary of the entry into force of the Treaty on the Southeast Asia Nuclear Weapon-Free Zone (Bangkok Treaty) on 27 March 2017, and recognized the importance of its full and effective implementation to preserve the Southeast Asian region as a nuclear-weapon-free zone.

234. The Ministers welcomed the 25th Anniversary of the declaration of Mongolia’s nuclear-weapon-free status on 25 September 2017 and commended Mongolia’s efforts towards a world free of nuclear weapons. They also recalled the convening of the Third Conference of the States Parties and Signatories to Treaties that Established Nuclear Weapon Free Zones and Mongolia held in New York, on 24 April 2015, the Ministers called on the States parties and signatories to those Treaties to implement further ways and means of co-operation among themselves, their treaty agencies and other interested States. They expressed their support for Mongolia’s nuclear-weapon-free status and its policy aimed at institutionalizing that status.

235. The Ministers reiterated their full support for the establishment in the Middle East of a zone free of nuclear weapons and all other weapons of mass destruction. As a priority step to this end, they reaffirmed the need for the speedy establishment of a NWFZ in the Middle East in accordance with the Security Council Resolution 487 (1981) and paragraph 14 of the Security Council Resolution 687 (1991) and the relevant General Assembly resolutions adopted by consensus. They called upon all parties concerned to take urgent and practical steps towards the fulfillment of the proposal initiated by Iran in 1974 for the establishment of such a zone. Pending its establishment, they demanded on Israel, the only country in the region that has not joined the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) nor declared its intention to do so, to renounce possession of nuclear weapons, to accede to the NPT without precondition and further delay, to place promptly all its nuclear facilities under International Atomic Energy Agency (IAEA) full-scope safeguards according to Security Council Resolution 487 (1981) and to conduct its nuclear related activities in conformity with the non-proliferation regime. They called for the earliest implementation of relevant IAEA resolutions on “Application of IAEA Safeguards in the Middle East”. They expressed great concern over the acquisition of nuclear capability by Israel which poses a serious and continuing threat to the security of neighboring and other States, and condemned Israel for continuing to develop and stockpile nuclear arsenals. In this context they also condemned the statement made by the then Prime Minister of Israel on 11 December 2006, related to the possession of nuclear weapons by Israel. They urged the continued consideration of the issue of Israeli nuclear capabilities in the context of the IAEA, including at the General Conference. They were of the view that stability cannot be achieved in a region where massive imbalances in military capabilities are maintained particularly through the possession of nuclear weapons, which allow one party to threaten its neighbors, and the region. They also called for the total and complete prohibition of the transfer of all nuclear-related equipment, information, material and facilities, resources or devices and the extension of assistance in the nuclear related scientific or technological fields to Israel. In this regard, they expressed their serious concern over the continuing development whereby Israeli scientists are provided access to the nuclear facilities of one NWS. This development
will have potentially serious negative implications on security in the region as well as the reliability of the global non-proliferation regime.

236. The Ministers took into consideration the draft resolution tabled by the Syrian Arab Republic, on behalf of the Arab Group, before the Security Council on 29 December 2003 on the establishment of a zone free of all weapons of mass destruction in the Middle East. They welcomed the initiative presented in 1990 by the Arab Republic of Egypt on the establishment of a zone free of nuclear weapons and all other weapons of mass destruction in the Middle East, and its initiative presented before the 68th session of the United Nations General Assembly on 28th September 2013 containing implementation steps in support of the establishment of the Zone. They also stressed that necessary steps should be taken in different international fora for the establishment of such a zone in the Middle East. They took note with appreciation of the letters sent, in 2013 and 2014, to the United Nations Secretary-General, renewing the support for the establishment of a zone free of all weapons of mass destruction, reflected in the note A/68/781 by the Secretary-General, by: Algeria, Bahrain, Comoros, Djibouti, Egypt, Iran (Islamic Republic of), Iraq, Jordan, Kuwait, Lebanon, Libya, Mauritania, Morocco, Oman, Palestine, Qatar, Saudi Arabia, Somalia, Sudan, Tunisia, United Arab Emirates and Yemen.

237. The Ministers reiterated their support for the efforts of the Arab Group in Vienna to keep the question of the Israeli nuclear capabilities under consideration of the General Conference of the IAEA.

238. The Ministers underscored the Movement’s principled position concerning non-use or threat of use of force against the territorial integrity of any State. In this regard, they condemned the Israeli attack against a Syrian facility on September 6, 2007, which constitutes a flagrant violation of the UN Charter and welcomed Syria’s cooperation with the IAEA in this regard.

239. The Ministers emphasized the importance of the observance of environmental norms in the preparation and implementation of disarmament and arms limitation agreements, and in this regard, they welcomed the adoption of General Assembly Resolution 72/47 on this matter without a vote. They reaffirmed that international disarmament forums should take fully into account the relevant environmental norms in negotiating treaties and agreements on disarmament and arms limitation and that all States, through their actions, should contribute fully to ensuring compliance with the aforementioned norms in the implementation of treaties and conventions to which they are parties.

240. The Ministers emphasized the importance of the UN activities at the regional level to increase the stability and security of its Member States, which could be promoted in a substantive manner by the maintenance and revitalization of the three regional centers for peace and disarmament.

241. The Ministers of NAM States Parties to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), while reaffirming the package of agreements of the 1995 Review and Extension Conference of the NPT and the Final Document of the 2000 Review Conference of the NPT, and recognizing the crucial role of the NPT in nuclear disarmament, nuclear non-proliferation and the peaceful uses of nuclear energy, were of the view that the “Conclusions and Recommendations for Follow-on actions” of the 2010 Review Conference of the NPT, represent an outcome that can be built upon and further enhanced in the near future, to fully address the priorities of the Movement, in particular to realize a world free from nuclear weapons. They called upon NWS to implement fully and effectively their obligations under the Treaty, in particular in the area of nuclear disarmament, and the outcomes of its Review Conferences, in particular the 1995 Review and Extension Conference, and the 2000 and 2010 Review Conferences.

242. The Ministers of NAM States Parties to the NPT stressed the importance of the review of
the operation of the Treaty in the framework of the NPT Review Conference and in this context emphasized that the inclusion of the Review Part of the Final Document of the 2010 NPT Review Conference as an opinion of the President and not as a consensus language should not be considered as a precedent to be followed in the future without prejudice to the prerogatives of the Review Conference.

243. The Ministers of NAM States Parties to the NPT reiterated the importance of the full implementation of the action plans adopted by the 2010 NPT Review Conference on nuclear disarmament, on nuclear non-proliferation, on peaceful uses of nuclear energy and on the implementation of the 1995 resolution on the Middle East. They expressed concern at the lack of agreement on a number of key priorities of NAM States Parties to the NPT and agreed to continue their collective efforts in pursuing the realization of their priorities at the NPT Review Conferences.

244. The Ministers of NAM States Parties to the NPT welcomed the adoption by consensus of a detailed plan of action on “the Middle East, particularly implementation of the 1995 resolution on the Middle East” in the “Conclusions and Recommendations for Follow-on actions” of the 2010 NPT Review Conference.

245. While expressing deep concern over the long delay in the implementation of the 1995 Resolution on establishment of a nuclear-weapon-free zone in the Middle East, the Ministers of NAM States Parties to the NPT strongly urged the United Nations Secretary-General and the three cosponsors of the 1995 Resolution on the Middle East to fully implement it, without any further delay, to achieve on the establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction adopted by the 2010 NPT Review Conference. Recalling the consensus decision contained in the Final Document of the 2010 NPT Review Conference on convening, in 2012, a Conference on the establishment of a NWFZ in the Middle East, they expressed their profound disappointment and serious concern that the conference was not convened in 2012 as scheduled. They underscored that the failure to convene the Conference is contrary to the letter and spirit of the 1995 Resolution on the Middle East and contradicts and violates the collective agreement of the States Parties contained in the Final Document of the 2010 NPT Review Conference. They strongly rejected the arguments presented by the Conveners for not convening the Conference on schedule.

246. NAM States Parties to the NPT expressed their disappointment that as a result of the opposition by the US, UK and Canada at the concluding session of the 2015 NPT Review Conference, consensus on measures regarding the process to establish a Middle East zone free of nuclear weapons and all other weapons of mass destruction was not achieved. They further underscored that efforts related to the establishment of the Zone should be undertaken in accordance with the 1995 Resolution on the Middle East as well as the relevant United Nations Resolutions. The Ministers reiterated in this regard the common position of the NAM States Parties to the NPT as reflected in working paper NPT/CONF.2015/WP.49 presented at the 2015 Review Conference, and called for concrete and urgent steps for its implementation;

247. The Ministers of NAM States Parties to the NPT reiterated their call for the firm commitment by all States Parties to the Treaty to the full and indiscriminate implementation of all the provisions of the Treaty. They further called for the full implementation of the 13 practical steps for systematic and progressive efforts to implement Article VI of the Treaty, particularly an unequivocal undertaking by the NWS to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament. Pending the total elimination of nuclear weapons, they underlined the agreement by consensus at the 2010 Review Conference of the NPT, which reaffirmed the previous agreements, on practical steps for systematic and progressive efforts to eliminate nuclear weapons; the implementation of the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the NPT; and on providing effective, unconditional and non-discriminatory universal legally binding security assurances to all NNWS parties to the Treaty, which would strengthen the nuclear non-proliferation regime.
248. The Ministers of NAM States Parties to the NPT called upon the NWS to fully comply with their commitments not to use or threaten to use nuclear weapons against NNWS parties to the Treaty or NWFZs at any time or under any circumstances, pending the conclusion of a legally binding instrument on security assurances.

249. The Ministers reaffirmed the inalienable right of developing countries to develop research, production and use of nuclear energy for peaceful purposes without discrimination. They continued to note with concern that undue restrictions on exports to developing countries of material, equipment and technology, for peaceful purposes persist. They again emphasized that proliferation concerns are best addressed through multilaterally negotiated, universal, comprehensive and non-discriminatory agreements. Non-proliferation control arrangements should be transparent and open to participation by all States, and should ensure that they do not impose restrictions on access to material, equipment and technology for peaceful purposes required by developing countries for their continued sustainable development. They expressed their full confidence in the impartiality and professionalism of the IAEA and strongly rejected any politically motivated attempts by any State to politicize the work of the IAEA, including its technical co-operation programme, in violation of its Statute, as well as any pressure or interference in the Agency’s activities which could jeopardize the efficiency and credibility of the IAEA and the inalienable right of developing countries to develop research, production and use of nuclear energy for peaceful purposes without discrimination.

250. The Ministers of NAM States Parties to the NPT emphasized once more that nothing in the Treaty shall be interpreted as affecting the inalienable right of all the parties to the Treaty to develop research, production and use of nuclear energy for peaceful purposes without discrimination and in conformity with Articles I and II of the Treaty. They stressed that this right constitutes one of the fundamental objectives of the Treaty. In this connection, they confirmed that each country’s choices and decision in the field of peaceful uses of nuclear energy should be respected without jeopardizing its policies or international co-operation agreements and arrangements for peaceful uses of nuclear energy and its fuel-cycle policies.

251. The Ministers stressed the need for the further development of the applications of nuclear energy for peaceful purposes in developing countries, which contributes to the attainment of their respective national sustainable development goals, and the full respect for their right to participate in the fullest possible exchange of equipment, materials and scientific and technological information for the peaceful uses of nuclear energy. They underlined particularly the responsibility of developed countries to facilitate, to the fullest extent possible, the transfer, to developing countries, of nuclear equipment, materials, scientific and technological information for peaceful purposes. They also encouraged the IAEA to continue supporting developing countries in realizing the Sustainable Development Goals (SDGs), in particular through its technical cooperation programme, which is essential for the promotion and transfer of nuclear technology for peaceful uses.

252. The Ministers recalled the successful conclusion of nuclear negotiations between the Islamic Republic of Iran and E3/Eu+3, resulting in the finalization of the Joint Comprehensive Plan of Action (JCPOA) on 14 July 2015 adopted by Security Council resolution 2231. The Ministers called for its full implementation by all its participants and underlined that this agreement showed once again that dialogue and diplomacy are the most appropriate means to resolve such issues, as the Movement has always advocated.

253. The Ministers took note of the adoption, through a vote, in 2010 and 2011, by the IAEA Board of Governors, of three proposals of assurance of supply mechanisms in the framework of the multilateral approaches to the nuclear fuel cycle. They highlighted that this issue should be conducted through wide, integral and transparent consultations and negotiations, focusing on its technical, legal, political and economic implications, before any further decision is taken about this complex and sensitive matter. They emphasized that decisions should be made by consensus, with the participation of all IAEA member States, and
any proposal from IAEA must be consistent with its Statute, without any prejudice to the inalienable right of its member States to research, develop and use for peaceful purposes of nuclear sciences, in all its aspects, including the inalienable right of each State Party, if it so decides, to develop, for peaceful purposes, a full national nuclear fuel cycle in accordance with its rights and obligations under the Treaty on the Non-Proliferation of Nuclear Weapons.

254. The Ministers, emphasising the importance of the positive role played by the Non-Aligned Members in the IAEA, stressed the necessity that all members of the IAEA strictly observe its Statute. They stressed that any pressure or interference in the Agency’s verification process, which could jeopardize the efficiency and credibility of the Agency, should be avoided. They recognized that the IAEA is the sole competent authority for verification of compliance with the obligations under the respective safeguard agreements of the Member States. They also reaffirmed that a clear distinction has to be made between the legal obligations of Member States under their respective safeguards agreements and their voluntary undertakings, in order to ensure that such voluntary undertakings are not turned into legal safeguards obligations. Bearing in mind the Agency’s responsibility in protecting safeguards’ confidential information and given the undesirable incidents of leakage of such information, they emphasized the need for strengthening the regime for the protection of safeguards confidential information.

255. The Ministers reaffirmed the inviolability of peaceful nuclear activities and that any attack or threat of attack against peaceful nuclear facilities - operational or under construction- poses a great danger to human beings and the environment, and constitutes a grave violation of international law, principles and purposes of the UN Charter and regulations of the IAEA. They recognized the urgent need for a comprehensive multilaterally negotiated instrument prohibiting attacks or threat of attacks on nuclear facilities devoted to peaceful uses of nuclear energy.

256. The Ministers affirmed the need to strengthen the Radiological Safety and Protection Systems at facilities utilizing radioactive materials as well as at radioactive waste management facilities, including the safe transportation of these materials. They reaffirmed the need to further strengthen existing international regulations relating to safety and security of transportation of such materials. They noted the efforts of the IAEA in this regard, including through the IAEA Action Plan on Nuclear Safety which was unanimously endorsed by the IAEA General Conference. While reiterating the need to take appropriate measures to prevent any dumping of nuclear or radioactive wastes, they called for effective implementation of the Code of Practice on the International Transboundary Movement of Radioactive Waste of the IAEA as a means of enhancing the protection of all States from the dumping of radioactive waste on their territories.

257. The Ministers recognized that the primary responsibility for nuclear safety and nuclear security rests with the individual States. In that sense, they underlined that States with nuclear power programs have a central role in their own countries in ensuring the application of the highest standards of nuclear safety and the responsibility for providing a timely, transparent and adequate response to nuclear accidents in order to minimize their consequences. They stressed the need for a rapid, timely, continuous, reliable and transparent dissemination of information on nuclear accidents with significant trans-boundary radiological effects in accordance with relevant international conventions.

258. The Ministers emphasized the need to improve national, regional and international preparedness and response to nuclear accidents and called for a strengthened role of the IAEA in emergency preparedness and response, including through assisting Member States, upon their request, on emergency preparedness and response to nuclear accidents, promoting capacity building, including education and training in the field of crisis management.

259. The Ministers emphasized that measures and initiatives aimed at strengthening nuclear safety and nuclear security must not be used as a pretext or leverage to violate,
deny or restrict the inalienable right of developing countries to develop research, production and use of nuclear energy for peaceful purposes without discrimination.

260. The Ministers emphasized that the IAEA is the sole inter-governmental organization within the UN system with the mandate and expertise to deal with the technical subjects of nuclear safety and nuclear security.

261. The Ministers stressed that the issues related to proliferation, should be resolved through political and diplomatic means, and that measures and initiatives taken in this regard should be within the framework of international law, relevant conventions and the UN Charter, and should contribute to the promotion of international peace, and security.

262. The Ministers of NAM States Parties to the Biological and Toxin Weapons Convention (BTWC) reaffirmed that the possibility of any use of bacteriological (biological) agents and toxins as weapons should be completely excluded, and the conviction that such use would be repugnant to the conscience of humankind. They recognized the particular importance of strengthening the Convention through the resumption of the multilateral negotiations for a legally binding Protocol dealing with all Articles of the Convention, in a balanced and comprehensive manner, including through verification measures bearing in mind that the lack of such verification regime poses a challenge to the effectiveness of the Convention, and urged the party rejecting negotiations to reconsider its policy. They expressed satisfaction that currently 180 States are Parties to the Convention, and also stressed the importance of universal adherence to the Convention and, in this context, welcomed the recent accession of Angola, Cote d’Ivoire, Dominica, Guinea, Liberia, Nepal, State of Palestine, and Vanuatu to the Convention. They reiterated their call to promote international cooperation for peaceful purposes, including scientific-technical exchange. They underlined the importance to maintain close coordination among the NAM States Parties to the Convention and highlighted that the BTWC forms a whole and that, although it is possible to consider certain aspects separately, it is critical to deal with all of the issues interrelated to this Convention in a balanced and comprehensive manner.

263. The Ministers of NAM States Parties to BTWC welcomed the active participation by NAM States Parties in the 8th BTWC Review Conference and the BTWC Meeting of States Parties (MSP), held respectively from 07-25 November 2016 and 04-08 December 2017, in Switzerland, to advance their positions in this Convention. They welcomed the consensus outcome adopted at the 2017 MSP under the able Chairmanship of India. They reaffirmed the importance of strengthening the full effective and balanced implementation of all articles of the convention and, in this regard, reiterated their commitment to work in the inter-sessional period, in particular on Cooperation and Assistance, with a particular focus on strengthening cooperation and assistance under article X, review of developments in the field of S and T related to the convention, strengthening national implementation, assistance, response and preparedness, and institutional strengthening of the convention.

264. They also welcomed their key role in the adoption of the important decisions related to the implementation of Article X of the BTWC, especially by emphasizing the need for enhancing international cooperation, assistance and exchanges in toxins, biological agents equipment and technology for peaceful purposes, bearing in mind the Action Plan on the implementation of Article X submitted by the NAM States Parties at the Sixth Review Conference, and the additional NAM States Parties’ proposal on an institutional mechanism for international cooperation and compliance with Article X presented more recently. They further encouraged the BTWC States Parties to implement the Article X, as set forth in the Final Documents of the seventh and eighth BTWC Review Conferences. They reiterated the importance to strengthen the operationalization of cooperation database which was established by the Seventh Review Conference to ensure that specific, timely and concrete offers of cooperation under Article X are provided by States Parties in the database and to consider the ways to improve reporting on this issue, taking into account the current lack of effectiveness of the referred database—and welcomed the VIII Review Conference decision regarding the maintenance of a Sponsorship
Programme, funded by voluntary contributions from States Parties, in order to support and increase the participation of developing States Parties in the meetings of the inter-sessional programme in the framework of the BTWC.

265. The Ministers of NAM States Parties to the BTWC emphasized the importance of the BTWC role in the international legal architecture related to WMD and in particular in the total prohibition on all biological and toxin weapons. They further emphasized the need for enhancing, without restrictions, international cooperation and assistance and exchanges in toxic biological agents equipment and technology for peaceful purposes without any discrimination, in conformity with the Convention. They reaffirmed that the respective mandates of this Convention and other international organizations should be respected, while utilizing the experiences of the relevant multilateral organizations dealing with human and animal health on issues that are of direct relevance to the Convention, and that no actions should be taken to undermine the convention and/or interfere with its mandate.

266. The Ministers of NAM States Parties to the Chemical Weapons Convention (CWC) welcomed the successful conclusion of its Third Review Conference. They reiterated that a transparent, holistic and balanced approach shall prevail in follow-up to the recommendations adopted by the Third Review Conference, and encouraged the continuation of discussions aimed at drafting a document on the Future Priorities of the OPCW, with a view for it to be considered during the Fourth Review Conference. They invited all States that have not yet signed or ratified the Convention to do so as soon as possible with a view to its universality. They reaffirmed that the effective contribution of the Convention to international and regional peace and security can be enhanced through its full implementation, and in this context also encouraged all States Parties that have not yet done so to engage with the Technical Secretariat of the Organization for the Prohibition of Chemical Weapons on the steps that need to be undertaken for the national implementation of the Convention. They reaffirmed the importance of international cooperation in the field of chemical activities for purposes not prohibited under CWC. They reiterated their call on the developed countries to promote international cooperation for the benefit of States Parties through the transfer of technology, material and equipment for peaceful purposes in the chemical field and the removal of all and any restrictions that are contrary to the letter and spirit of the Convention. They recalled that the full, balanced, effective and non-discriminatory implementation of all provisions of the Convention, in particular economic and technical development through international cooperation, is fundamental to the achievement of its object and purpose. They also reaffirmed the need to respect the principles included in the Convention, and called upon States parties to the CWC to avoid the polarization and politicization of the work of the Organization, while encouraging States Parties to continue working cooperatively in the interest of consensus.

267. The Ministers of the NAM States Parties to the CWC welcomed those States that have successfully destroyed all declared Category 1 Chemical Weapons. They further welcomed that, upon completion of the destruction of the remaining Category 2 Chemical Weapons in Libya, on 23 November 2017, the total amount of destroyed Category 2 Chemical Weapons has reached 100%. They expressed their serious concern that certain possessor States parties did not meet their obligations regarding the deadlines for the total elimination of chemical weapons and that nearly 4% of declared chemical weapons still remained to be destroyed as of 31 October 2017. They therefore urged the remaining possessor State Party to take every necessary measure to ensure its compliance with its “Detailed plan for the destruction of Chemical Weapons remaining after the final extended destruction deadline of 29 April 2012”, in the shortest time possible, in order to uphold the credibility and integrity of the Convention.

268. The Ministers of the NAM States Parties to the CWC underlined that the use of chemical weapons and toxic chemicals as a weapon anywhere by anyone and under any circumstances is reprehensible and completely contrary to the provisions of the Convention, legal norms and standards of the international community. They acknowledged the total elimination of the Syrian chemical weapons and the constructive cooperation of the Syrian Arab Republic
regarding the implementation of the provisions of the Convention. They also commend the cooperation of the Syrian Arab Republic in implementing the relevant Executive Council of the OPCW decisions, in particular decisions taken by Executive Council with regard to destruction of Syrian chemical weapons production facilities.

269. The Ministers of NAM States Parties to the CWC reaffirmed that the implementation of the Article X of the CWC on assistance and protection against chemical weapons make a significant contribution to countering the threats of use of chemical weapons. They stressed the importance of achieving and maintaining a high level of readiness of the OPCW to provide timely and needed assistance and protection against use or threat of use of chemical weapons, including assistance to the victims of chemical weapons. They highlighted the need for all States Parties, particularly those in a position to do so, to contribute to the Voluntary Fund of Assistance to ensure that the capacity of the Technical Secretariat is able to provide, upon the request of States Parties, timely, adequate and effective assistance, with a view to responding to the growing demands from States Parties.

270. The Ministers of NAM States Parties to the CWC welcomed the decision on Components of an agreed framework for the full implementation of Article XI adopted at the 16th Conference of the States Parties to the CWC and considered it as a positive step towards achieving the goal of the full, effective and non-discriminatory implementation of Article XI. They attached high importance to the adoption of a Plan of Action for the full, effective and non-discriminatory implementation of all the provisions of Article XI. They welcomed the proposal of the Action Plan of Article XI presented by the NAM CWC States and China, which is currently being discussed at the OPCW. They looked forward to the continuation of Article XI consultations with a view to further deliberate the Document of the facilitators as soon as possible for negotiations by delegations in order to adopt a decision in this regard. They welcomed the holding of the annual review and evaluation workshop of the components of an agreed framework for the full implementation of article XI and stressed the importance of the active participation of States Parties in the annual workshops. In this context, and taking into account the importance of adopting an Action Plan for the full, effective and non-discriminatory implementation of Article XI, they considered that States Parties to the CWC should present concrete recommendations and proposals before the Fourth Review Conference. To that end, they called upon NAM States Parties to the CWC to continue engaging in discussions towards this end, within the framework of the NAM Chapter in The Hague.

271. The Ministers of NAM States Parties to the CWC, while paying due respect to the chemical weapons victims and their families, declared their firm conviction that international support to provide special care and assistance to all victims suffering the effects of exposure to chemical weapons is an urgent humanitarian need and that the States Parties to the Convention as well as the OPCW should pay urgent attention to meeting these needs. In this context, they welcomed the decision adopted at the 16th Session of the Conference of States Parties to establish an International Support Network for Victims of Chemical Weapons and a voluntary Trust Fund for this purpose. In this regard, they expressed their appreciation to States Parties for their contributions to the Voluntary Trust Fund for the Network for Victims of Chemical Weapons, and encouraged all States Parties to consider actively contributing to the Trust Fund.

272. They welcomed the adoption by consensus of the General Assembly Resolution 72/42 entitled “Measures to prevent terrorists from acquiring weapons of mass destruction” and underlined the need for this threat to humanity to be addressed within the UN framework and through international cooperation. While stressing that the most effective way of preventing terrorists from acquiring weapons of mass destruction is through the total elimination of such weapons, they emphasized that progress was urgently needed in the area of disarmament and non-proliferation in order to help maintain international peace and security and to contribute to global efforts against terrorism. They called upon all Member States to support international efforts to prevent terrorists from acquiring weapons of mass destruction and their means of delivery. They also urged all Member States to take and strengthen national measures, as appropriate, to prevent terrorists from acquiring weapons of mass destruction, their means of delivery and materials and technologies related to their manufacture.

They further cautioned against the continuing practice of the Security Council to utilize its authority to define the legislative requirements for Member States in implementing Security Council decisions. In this regard, they stressed the importance of the issue of non-state actors acquiring weapons of mass destruction to be addressed in an inclusive manner by the General Assembly, taking into account the views of all Member States.

276. Mindful of the threat posed to humankind by the existing weapons of mass destruction, particularly nuclear weapons and underlining the need for the total elimination of such weapons, the Ministers reaffirmed the need to prevent the emergence of new types of weapons of mass destruction and therefore supported the necessity of monitoring the situation and triggering international action as required. 278. The Ministers reaffirmed the sovereign right of States to acquire, manufacture, export, import and retain conventional arms and their parts and components for their self-defense and security needs. They expressed their concern about unilateral coercive measures and emphasized that no undue restriction should be placed on the transfer of such arms and their parts and components to States.

279. The Ministers recognized the significant imbalance in the production, possession and trade in conventional weapons between the industrialized and the Non-Aligned Countries, and called for a significant reduction in the production, possession and trade of conventional
weapons by the industrialized states with a view to enhancing international and regional peace and security.

280. The Ministers  *remained* deeply concerned over the illicit transfer, manufacture and circulation of small arms and light weapons (SALW) and their excessive accumulation and uncontrolled spread to unauthorized recipients in many regions of the world. They  *recognized* the need to establish and maintain controls over private ownership of small arms. They  *called on* all States, in particular major arms producing States, to ensure that the supply of small arms and light weapons is limited only to Governments or to entities duly authorized by Governments and to implement legal restrictions and prohibitions preventing the illicit trade in small arms and light weapons. They  *encouraged* all initiatives by States to mobilize resources and expertise as well as to provide assistance to strengthen the full implementation of the UN Program of Action to Prevent, Combat and Eradicate the Illicit Trade in SALW in All Its Aspects.

282. The Ministers  *emphasized* that the international assistance to support the implementation of the Programme of Action is still not commensurate with the needs of affected countries, taking into account the growing magnitude of the illicit trade in small arms and light weapons in all its aspects and the danger it continues to pose. They called for ensuring the adequacy, effectiveness and sustainability of such international assistance. They  *called for* the provision of concrete assistance, including technical and financial assistance to developing countries upon their request. They  *emphasized* that such assistance should not be made conditional on being part of, or detracting from, the recipient States’ Official Development Assistance. They also  *called on* the UN, in its activities in support of the implementation of the PoA, to rely further on the expertise available in developing countries.

283. The Ministers  *noted* the adoption, by vote, of the Arms Trade Treaty by the UN General Assembly on 2nd April 2013 and its entry into force on 24 December 2014. They also  *noted* that the Treaty aims at regulating trade in conventional weapons, including small arms and light weapons. They also  *underscored* that its implementation should, in no way, affect the sovereign right of States to acquire, manufacture, export, import and retain conventional arms and their parts and components for their self-defense, security needs and the maintenance of their territorial integrity. The Ministers of NAM States Parties to the ATT  *emphasized* the importance of ensuring a leading role for NAM States Parties from those regions most affected by the illicit trade of conventional arms in the implementation of the Treaty, as well as in any future institutional arrangements of the Treaty.

284. The Ministers  *expressed* their concern by the continued maneuvers to politicize the implementation of the Arms Trade Treaty (ATT).
285. The Ministers continued to deplore the use, in contravention of international humanitarian law of anti-personnel mines in conflict situations aimed at maiming, killing and terrorizing innocent civilians, denying them access to farmland, causing famine and forcing them to flee their homes eventually leading to de-population and preventing the return of civilians to their place of original residence. They called upon all States in the position to do so, to provide the necessary financial, technical and humanitarian assistance to landmine clearance operations, the social and economic rehabilitation of victims as well as to ensure full access of affected countries to material equipment, technology and financial resources for mine clearance.

They called on the States primarily responsible for laying these mines and leaving explosives outside their territories during the Second World War to cooperate with the affected countries and provide mine action support to affected countries, including information exchange, maps indicating the locations of mines and explosives, technical assistance for mine clearance, defrayal of the costs of clearance and compensation for any losses caused by mines-laid.

The Ministers of NAM States Parties to the Convention on Prohibition or Restrictions on the Use of Certain Conventional Weapons Which May be deemed to be Excessively Injurious or to Have Indiscriminate Effects (CCW) and its Protocols encouraged States to become parties to the Convention and its Protocols. NAM is of the view that Lethal Autonomous Weapon Systems (LAWS) raise a number of ethical, legal, moral and technical, as well as international peace and security related questions which should be thoroughly deliberated and examined in the context of conformity to international law including international humanitarian law and international human rights law. In this regard, NAM States Parties to the Convention on Certain Conventional Weapons (CCW) welcome the informal meetings of CCW experts on Lethal Autonomous Weapon Systems held in Geneva in 2014, 2015 and 2016 and support continued deliberations on this issue in the CCW on the basis of an agreed mandate. They also expressed concern at the increasing global military expenditure, which could otherwise be spent on development needs. They further stressed the importance of the reduction of military expenditures, in accordance with the principle of undiminished security at the lowest level of armaments, and urged all States to devote resources made available from there to economic and social development, in particular in the fight against poverty. They expressed firm support for the unilateral, bilateral, regional and multilateral measures aimed at reducing military expenditures, thereby contributing to strengthening regional and international peace and security and recognized that confidence building measures assisted in this regard.

Terrorism

295. The Ministers, while reiterating the respect for sovereignty, territorial integrity and political independence of all States in accordance with the UN Charter, reaffirmed and underscored the validity and relevance of the Movement’s principled position concerning terrorism, as follows:

295.1. Terrorist acts constitute one of the most flagrant violations of international law, including international humanitarian and human rights law, in particular the right to life, leading to the lack of the full enjoyment of human rights and fundamental freedoms of peoples, and that such acts endanger the territorial integrity and stability of States as well as national, regional and international security, destabilize legitimately constituted governments or the prevailing constitutional order and political unity of States, affect the stability of nations and the very basis of societies, as well as create adverse consequences on the economic and social development and cause the destruction of the physical and economic infrastructure of States;

295.2. Terrorism cannot and should not be associated with any religion, nationality, civilization or ethnic group, and that these attributions should not be used to justify terrorism or counter-terrorism measures that include, inter alia, profiling of terror suspects and intrusion on individual privacy;

295.3. Criminal acts intended or calculated to provoke a state of terror in the general public, a group of persons or particular persons for whatever purposes, wherever, by
whomever, against whomsoever committed are, in any circumstance, unjustifiable, whatever the considerations or factors that may be invoked to justify them;

295.4. The Ministers condemned all forms of incitement to terrorism, under whatever guise of justification, resulting in the loss of life and the destruction of private and public property. The Ministers emphasized the need to combat the violent extremist ideology inciting terrorism irrespective of its origin;

295.5. Terrorism should not be equated with the legitimate struggle of peoples under colonial or alien domination and foreign occupation for self-determination and national liberation. The brutalization of people remaining under foreign occupation should continue to be denounced as the gravest form of terrorism, and that the use of State power for the suppression and violence against peoples struggling against foreign occupation in exercising their inalienable right to self-determination should continue to be condemned. In this regard, and in accordance with the UN Charter, international law and the relevant UN resolutions, the struggle of peoples under colonial or alien domination and foreign occupation for self-determination and national liberation does not constitute terrorism (A/res/46/51 of 9 December 1991);

295.6. The Movement reaffirmed its principled position under international law and in accordance with General Assembly resolution 46/51 of 9 December 1991 as well as other relevant UN resolutions on the legitimacy of the struggle of peoples under colonial or alien domination and foreign occupation for national liberation and self-determination, which does not constitute terrorism, and once again called for the definition of terrorism to differentiate it from the legitimate struggle of peoples under colonial or alien domination and foreign occupation for self-determination and national liberation;

295.7. The financing of terrorism is a matter of grave concern that must be fought with determination. In this regard, the Ministers strongly condemned criminal incidences of hostage-taking with resultant demands for ransoms and/or other political concessions by terrorist groups, and called upon all States to cooperate actively in order to address this issue, in all its aspects including its legal aspects. They invited Member States to take the necessary measures to prevent terrorists from benefitting from hostage-taking, including ransom payments and political concessions.

295.8. The Ministers reiterated the obligation of Member States to prevent and suppress the financing of terrorist acts and to criminalize the willful provision or collection, by any means, directly or indirectly, of funds by their nationals or in their territories with the intention that the funds be used, or with the knowledge that they are to be used, in order to carry out terrorist acts.

296. In this context, the Ministers took note of the UNSC resolution 2133 of 27 January 2014 condemning such incidents of kidnapping and hostage-taking, publication of the “Algiers Memorandum on Good practices on Preventing and denying the Benefits of Kidnapping for Ransom by terrorists”, and of the “Rabat Memorandum on good practices for effective counterterrorism practice in the Criminal Justice Sector”;

300. The Ministers encouraged Member States, in their efforts to counter terrorism, to utilize the expertise and resources of the United Nations Counter Terrorism Centre (UNCCT), in particular, the capacity-building component in supporting Member States upon their request, and to collaborate with it and contribute to the implementation of its activities within the UNOCT, including through the development, funding and implementation of capacity-building projects, in order to mobilize a more systematic response to terrorism at the national, regional and global levels, with a special emphasis on the national level.

301. The Ministers expressed grave concern over the acute and growing threat posed by foreign terrorist fighters; namely, individuals who travel to a State other than their States of residence or nationality for the purpose of the perpetration, planning or preparation of, or participation in, terrorist acts or providing or receiving terrorist training, including in connection with armed conflict.

The Ministers took note, in this regard, of the publication of “The Hague – Marrakech Memorandum on Good Practices for more effective Response to the FTF phenomenon” and called upon all Member States in accordance with their obligations under international law, to address the threat posed by foreign terrorist fighters.

305. Acknowledging the serious danger and threats posed by terrorism and terrorist acts to the international community, consistent with and guided by the Movement’s principled positions thereof as well as affirming the need to defend, preserve and promote these positions, the Ministers agreed to undertake the following measures:
305.1. Strongly and unequivocally condemn, as criminal, and reject terrorism in all its forms and manifestations, as well as all acts, methods and practices of terrorism wherever, by whomever, against whomsoever committed, including those in which States are directly or indirectly involved, which are unjustifiable whatever the considerations or factors that may be invoked to justify them, and in this context, reaffirm their support for the provisions contained in General Assembly resolution 46/51 of 9 December 1991 and other relevant UN resolutions;

They deplored that Israel has continued to deliberately ignore the recommendations made in the above-mentioned reports, resolutions and inquiries without consequence, and reiterated their call for the establishing accountability for the grave breaches and crimes perpetrated and for justice for the victims of these crimes. They stressed that, in addition to violating countless provisions of human rights law, such collective punishment measures by Israel are tantamount to grave breaches of international humanitarian law, by which it is bound as the occupying Power and with which it must scrupulously comply. They stressed in this regard the need to ensure protection for the Palestinian civilian population in accordance with international humanitarian law and the relevant Security Council resolutions regarding the protection of civilians in armed conflict.
347. The Ministers continued to call for accountability for the crimes and violations committed by Israel, the occupying Power, during its December 2008-January 2009 and July-August 2014 military aggressions against the Palestinian civilian population in the Gaza Strip. They reiterated the call for the international community, including the Security Council, to ensure serious follow-up efforts to bring an end to Israel’s impunity and to realize justice for the victims, including action to follow-up the findings contained in the report of the “United Nations Fact-Finding Mission on the Gaza Conflict” (Goldstone Report). They further stressed the importance of the investigation by the Independent Commission of Inquiry established by the Human Rights Council, pursuant to its resolution S-21/1 of 23 July 2014, as well as by the Board of Inquiry dispatched by the UN Secretary-General, towards establishing accountability for the crimes perpetrated in July and August 2014 and ensuring justice for the many innocent victims.

348. The Ministers reaffirmed the obligations of the High Contracting Parties to the Geneva Conventions with regard to penal sanctions, grave breaches and responsibilities. They welcomed the reconvening of the Conference of High Contracting Parties to the Fourth Geneva Convention on measures to enforce the Convention in the Occupied Palestinian Territory, including East Jerusalem, and to ensure its respect in accordance with common article 1, as called for by the relevant resolutions of the General Assembly and the Human Rights Council. They expressed appreciation to Switzerland, in its capacity as Depositary of the Geneva Conventions, for convening the Conference. They welcomed the Declaration endorsed by the Conference, reaffirming, inter alia, the statement of 15 July 1999 and the Declaration of 5 December 2001 and 17 December 2014; expressing the deep concern about the continued impact of the Israeli occupation; and calling upon Israel, the occupying Power, to fully and effectively respect the Fourth Geneva Convention in the Occupied Palestinian Territory, including East Jerusalem.

349. The Ministers reiterated the urgency of reconstructing Gaza, particularly following the massive destruction inflicted by the occupying Power in July and August 2014. They called upon the international community to fulfill the pledges made at the Conference on Palestine hosted by Egypt and Norway in Cairo on 12 October 2014 for reconstruction, humanitarian aid and development in Gaza. They also called for serious efforts to compel Israel, the occupying Power, to allow for the entry of all necessary construction materials for the repair of the thousands of destroyed and damaged Palestinian homes, properties and infrastructure and UN facilities, including UNRWA schools. They also stressed the necessity of sustained commercial flows, including both imports and exports, to promote the recovery of livelihoods, businesses, and industry in Gaza and its economic viability and to alleviate the staggering levels of unemployment and poverty that continue rise due to the blockade and destruction. They stressed that the crisis situation in the Gaza Strip must be comprehensively addressed, in accordance with international law, including humanitarian and human rights law, and the relevant UN resolutions, in the overall context of the belligerent Israeli military occupation of the Palestinian Territory since 1967, including East Jerusalem, with a view to addressing the root causes, bringing the occupation to a complete end, and achieving a just and lasting peace.

350. The Ministers reiterated their categorical condemnation of Israel’s continuing illegal campaign of settler colonization in the Occupied Palestinian Territory, including East Jerusalem. They also condemned the violence, terror, provocations and incitement by Israeli settlers against Palestinian civilians and properties, including homes, orchards, mosques and churches. They deplored all illegal Israeli actions associated with this destructive colonization campaign, particularly ongoing land confiscations; the construction and expansion of illegal settlements, settlement “outposts” and settlement infrastructure; the transfer of more Israeli settlers; the construction of the Wall; home demolitions; residency revocations; forced displacement of civilians; excavations; and the imposition of arbitrary and racist residency and movement restrictions via a permit regime and hundreds of checkpoints throughout the Occupied Palestinian Territory, especially in and around Occupied East Jerusalem.
351. The Ministers reiterated that such policies and measures by Israel, the occupying Power, constitute grave breaches of international law and flagrant defiance of UN resolutions and the 9 July 2004 Advisory Opinion of the International Court of Justice, and in this regard recalled the responsibilities of States not to support, facilitate or cooperate, directly or indirectly, with such unlawful policies and to undertake practical measures to bring them to a halt. They urged the undertaking of serious efforts, collectively and individually, to ensure respect of the legal obligations defined in the ICJ Advisory Opinion, including by the High Contracting Parties to the Fourth Geneva Convention.

352. The Ministers stressed the incompatibility of peace negotiations with Israeli colonization activities, and demanded an immediate cessation and reversal of all such illegal activities. They expressed deep concern about the extensive physical, economic and social devastation being caused by the Israeli settlements, Wall and network of checkpoints, which are severing the Palestinian Territory into separate areas, including several walled cantons; isolating East Jerusalem from the rest of the Territory; forcibly displacing thousands of Palestinians from their homes, including many Bedouin families, particularly in the Jordan Valley; and completely destroying some communities. They stressed that such actions gravely undermine the contiguity, integrity, viability and unity of the Occupied Palestinian Territory and jeopardize the prospects for physically achieving the two-State solution for peace on the basis of the 1967 borders. They recalled in this regard the “United Nations Register of Damage caused by the Construction of the Wall in the Occupied Palestinian Territory”, and called for the speedy fulfillment of its mandate in order to redress the losses and suffering being endured by the Palestinian people as a result of the Wall.

353. The Ministers reaffirmed all relevant Security Council and General Assembly resolutions calling for a cessation of all Israeli settlement activities, including those relating to Jerusalem and confirming that it is an integral part of the Occupied Palestinian Territory; demanded their full implementation; and considered that all Israeli measures aimed at altering the legal, geographic and demographic character and status of Jerusalem and of the Occupied Palestinian Territory as a whole are null and void and have no legal validity whatsoever. They also recalled Israel’s obligations under the Quartet Roadmap to freeze all settlement activities, including so-called “natural growth”. They reaffirmed that these unlawful measures will not be recognized by the international community and cannot alter the terms of reference of a peaceful solution nor negate the inalienable rights of the Palestinian people;

354. The Ministers expressed alarm about continued provocations and incitement by Israeli extremists and officials in Occupied East Jerusalem, particularly at Al-Aqsa Mosque, which have aggravated tensions and religious sensitivities and resentment and risk the outbreak of a religious conflict. They called for the cessation of all provocations and aggressions in this regard and for respect for the sanctity of holy sites, rejecting any attempts to alter the status quo. They also expressed support for Jordan in preserving and administrating the Islamic and Christian Holy sites in Jerusalem, including Al-Haram al-Sharif and the Hashemite historic Custodianship of the sites as exercised by His Majesty King Abdullah II ibn al-Husain. They also recalled the International Conference on Jerusalem held in Doha in February 2012 and welcomed the establishment of the “Jerusalem Support Fund” by the State of Qatar, and expressed support for the “Palestinian Strategic Plan for the Development of the Vital Sectors in Jerusalem”. They further stressed the need to approach the appropriate United Nations bodies to establish an international commission to investigate all the measures taken by Israel, the occupying Power, in the City aimed at altering and erasing its Islamic and Arab features and status.

355. The Ministers commended the efforts of His Majesty King Mohammed VI as Chair of Al-Quds Committee of the Organization of the Islamic Cooperation (OIC) and welcomed in this regard the conclusions and the final communiqué of the 20th session of Al-Quds Committee, held in Marrakech, Morocco on 17-18 January 2014. 357. The Ministers concluded that illegal Israeli settlement activities in the Occupied Palestinian Territory, including East Jerusalem, remain the major obstacle to peace, impairing all efforts to advance negotiations and achieve peace based on the two-State solution in accordance with the relevant UN resolutions, the Madrid principles, the Arab Peace Initiative and the Road Map. They reiterated the calls for a full cessation of all such illegal activities, which entrench Israel’s nearly half-century military occupation in contradiction to legal obligations and the consensus global calls for an end to the occupation. They cautioned that only a small chance remains to salvage the two-State solution on the pre-1967 borders, which, if thwarted, would require the consideration of alternative solutions to end this prolonged conflict and injustice and realize the inalienable rights and freedom of the Palestinian people. If faced with continued Israeli defiance, they called for urgent action and practical measures by the international community, collectively as well as individually, to compel the occupying Power to cease completely its settlement campaign in the Occupied Palestinian Territory, including East Jerusalem, and to abide forthwith by all of its obligations under international law.

359. The Ministers condemned the occupying Power’s contempt of the Security Council and called for immediate measures to implement resolution 2334 (2016) and all other relevant resolutions regarding the Palestine question and to hold Israel accountable for its violations and grave breaches. They stressed the importance of the reports by the Secretary-General pursuant to the resolution for monitoring implementation, and called for serious follow-up by the Security Council to ensure respect of its resolutions and accountability. In this regard, reiterated that it is fundamentally unacceptable to delegate the fulfillment of the mandate of the Security Council to a state that has consistently adopted policies and practices that are inherently incompatible with the spirit and letter of the United Nations Charter and acts in blatant contempt to Security Council resolutions.

360. The Ministers also expressed grave concerns regarding ongoing violations being
perpetrated by Israel, the occupying Power, in Occupied East Jerusalem, including attempts aimed at altering the character, status and demographic composition of the City of Jerusalem. They urged the implementation of agreements reached in this regard, stressing that unity is vital for achieving the inalienable rights and legitimate national aspirations of the Palestinian people. They called on the international community to respect and support Palestinian reconciliation and to reject and demand a halt to Israeli punitive measures in this regard and called for support of the Palestinian national consensus government.

362. The Ministers called for urgent efforts to further support the development and strengthening of Palestinian national institutions, stressing the importance of this effort in laying strong foundations for the independence of the State of Palestine. In this connection, they strongly welcomed the important step taken, including by several Members of the Movement, in extending official recognition to the State of Palestine on the basis of the 1967 borders, as well as the recent recognition extended by Sweden and the calls for recognition by numerous European parliaments. They considered that such recognition constitutes a significant contribution to sustaining momentum towards the ultimate realization of independence. 364. The Ministers expressed deep concern about the critical situation and heightened vulnerability of Palestine refugees in the recent period, particularly due to the instability and crises throughout the region, which underscores the regional dimension of this problem and the urgent need for a just, comprehensive solution. They commended the efforts of the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) in providing
vital support and emergency assistance to the Palestine refugees in all fields of operation, particularly in the Gaza Strip and Syria at this time and urged increased donor support to the Agency for the implementation of its mandate, in particular in light of the dramatic reduction of funds by the Government of the United States of America. They rejected such decisions as punitive measures and called for upholding humanitarian principles and responsibilities. 367. The Ministers commended the many bilateral and multilateral efforts in the political, humanitarian, social, economic and developmental fields, undertaken by the Non-Aligned countries in support of the Palestinian people in their struggle to achieve their inalienable rights and full independence. They also recognized the efforts of the United Nations Committee on the Exercise of the Inalienable Rights of the Palestinian People and the contributions of Members of the Movement in this regard. They called for the intensification of all such cooperation and support in line with the principled positions of the Movement. In this context, recalled the State of Kuwait’s efforts to convene an international conference on the widespread and systematic violations of the rights of Palestinian children in the occupied territory of the State of Palestine.

610. The Ministers *expressed* their deep concern at the global financial and economic crisis and its negative impact on the world economy. They also recognized that the crisis has further accentuated the deficiencies and imbalances in the global financial and economic governance systems. In this context, they *urged* the international community to work on a vigorous, coordinated and comprehensive global response to the crisis, particularly to minimize the negative effects on the development efforts of developing countries and to ensure that development assistance commitments are not compromised, and to undertake immediate actions and initiatives to overcome these challenges. In this regard, they recognized the central role of the United Nations.

611. The Ministers also *urged* that economic policies adopted by developed countries should not undermine global growth, particularly in developing countries. The Ministers emphasized the need to address the crisis with the goal of promoting human development, including through actions aimed at supporting strong, sustained, inclusive and equitable economic growth, increased trade, through enhanced market access and trade financing for developing countries, poverty eradication and sustainable development;

613. In this regard, the Ministers *urged* the developed countries to fulfill their ODA commitments in a timely and predictable manner, as has been agreed in the Major United Nations Conferences and Summits. They also *underscored* the need for additional financial resources to address the crisis, failure to do so will severely jeopardize the achievement of the IADGs, including SDGs.

614. The Ministers *stressed* that the financial and economic crisis had exacerbated the ongoing global food crisis, and also undermined the efforts of developing countries to achieve food security. They *expressed* their concern that this situation is eroding progress already achieved and is pushing millions of people into poverty and hunger. In this regard, they urged developed countries to fulfill their commitments to support developing countries to face the
615. The Ministers further highlighted the urgent need for a substantive and comprehensive reform of the international economic and financial system and architecture, including policies, mandates, scope and governance, to better enable it to respond and prevent financial and economic emergencies, effectively promote development and equitably serve the needs of Member States, particularly developing countries. International Financial Institutions in particular must have a clear development orientation. The Ministers called on all Member States to participate in an open, inclusive and transparent dialogue for a new international economic and financial system and architecture.

616. The Ministers also expressed deep concern at the inadequate voice and representation of developing countries in the Bretton Woods Institutions, including the existing lack of representation of developing countries at the top leadership positions at the World Bank and the International Monetary Fund.

617. In this regard, the Ministers stressed the urgency of reforming the international financial system, including through an ambitious and expeditious reform of the Bretton Woods institutions, particularly their governance structures, based on the full and fair representation of developing countries, in order to address the democratic deficit in those institutions and improve their legitimacy; and that these reforms must reflect current realities and ensure the full voice and participation of developing countries to support developing countries in the implementation of activities for sustainable development, including through the provision of resources, without conditionalities.

618. In this context, and as one of the main challenges featuring the current international situation since the 17th NAM Summit held in Margarita, the Ministers underlined their deep concern with the scope and seriousness of the remaining effects of the international financial and economic crisis affecting the world today and its severe adverse impact on development, including the realization of sustained, inclusive and equitable economic growth and poverty eradication in all its forms and dimensions and sustainable development, particularly for developing countries, as well as for the attainment of the internationally agreed development goals, including the Sustainable Development Goals building upon the achievements of the Millennium Development Goals and seeking to address their unfinished business, and therefore the Ministers recognized the need to work collectively in order to reform the international financial and monetary architecture and economic governance structures with a view to improving the functioning of the international economic system and mitigating the impacts of the crisis on development.

619. The Ministers stressed, in that regard, that the recovery of the global financial and economic crisis is uncertain and uneven, and there is no guarantee that the relapse will not occur. The Ministers underlined that the systemic problems facing the global economy have to be resolved, including through the full accomplishment of the reform of the global financial system and architecture;

620. The Ministers expressed concern at the volatility in currency exchange rates and its adverse impact on international trade, economic growth and development, and emphasized the importance of examining this problem including the possibility of evolving to a more stable international monetary system.

621. The Ministers expressed concern that the world financial and economic crisis is still threatening the debt sustainability in some developing countries, inter alia, through its impact on the real economy and the increase in borrowing undertaken in order to mitigate the negative impacts of the crisis, and in that regard called upon all Governments to promote and contribute to the discussions within the United Nations and other appropriate forums, including the IMF and the World Bank, on the need and feasibility of new sovereign debt restructuring and debt resolution mechanisms that take into account the multiple dimensions of debt sustainability.
and its role on the achievement of the internationally agreed development goals, including the Sustainable Development Goals.

623. The Ministers recalled that sovereign debt restructuring has been a crucial issue for developing countries in past decades and recent years. The Ministers noted the concerns expressed concerning the so-called “vulture funds” and their actions of a highly speculative nature, which pose a risk to all future debt-restructuring processes for both developing and developed countries. The Ministers therefore stressed the importance of preventing vulture funds from paralyzing the debt-restructuring efforts of developing countries.

624. The Ministers emphasized the need for a timely, effective, comprehensive and durable solution to the debt problems of developing countries and in this regard called for the continued formulation and implementation of initiatives, including addressing significant debt relief for all developing countries. In this regard, the Ministers welcomed the related discussions at the United Nations by the General Assembly, the Financing for Development process and the Ad Hoc Committee on Sovereign Debt Restructuring and took note of the discussions at the IMF and the World Bank, within their respective mandates. 625. The Ministers recognized the work carried out by International Monetary Fund, the United Nations Conference on Trade and Development, the Department of Economic and Social Affairs of the Secretariat and the Paris Club on sovereign debt restructuring. They also recognized the roles of the United Nations and the international financial institutions in accordance with their respective mandates, and encouraged them to continue to support global efforts towards sustainable development and a durable solution to the problem of the debt of developing countries.

626. The Ministers expressed serious concern about the substantial increase in the financial stability risks of many developed economies and, in particular, their high structural fragilities in financing sovereign debt created as a result of transferring private risk to the public sector. In this regard, we call for urgent and coherent solutions to reduce sovereign risk in developed economies in order to prevent contagion and to mitigate its impact on the international financial system and on developing countries.

627. The Ministers stressed the importance of the Third International Follow-up Conference on the Financial and Economic Crisis and its Impact on Development for 2015, in light of the continuity of the crisis and its negative impacts, particularly on the economies of developing countries which negatively affect the efforts of developing countries to achieve the internationally agreed development goals, including the SDGs.

628. The Ministers welcomed the convening of a Special Session of the Human Rights Council on the impact of the global economic and financial crisis on the universal realization and effective enjoyment of human rights, held in Geneva on 20 February 2009, and encouraged all States to work for the implementation of the resolution adopted in that session.

629. The Ministers expressed their concern over illicit financial flows and related thereto tax
avoidance and evasion, corruption and money laundering, by using certain jurisdictions and practices, with negative impacts for the world economy and, in particular for developing countries. They maintained that while there is increasing recognition of the importance of international cooperation on tax matters, there is still no single global inclusive forum for international tax cooperation at the intergovernmental level. There is also not enough focus on the development dimension of these issues. In this context, the Ministers reiterated the need to fully upgrade the United Nations Committee of Experts on International Cooperation in Tax Matters into an intergovernmental body and to provide adequate resources to the Committee to fulfill its mandate as well as increase the participation of experts from developing countries at its meetings.

630. The Ministers emphasized further that industrial development and policies to enhance productive capacities can generate employment and incomes for the poor and, therefore, be an engine for poverty eradication and for achieving internationally agreed Development goals, including the SDGs.

631. The Ministers encouraged regional, sub-regional and interregional cooperation as a platform for international industrial cooperation aiming to promote investment and technology transfer, to disseminate good policies and practices as well as to foster job creation, including for youth and women, and in this regard, the efforts of the United Nations Industrial Development Organization to assist developing countries in their industrialization objectives must be supported.

632. The Ministers will work towards full and equal access to formal financial services for all. The Ministers will also work for the international system to ensure that the policy and regulatory environment supports financial market stability and promotes financial inclusion in a balanced manner and with appropriate consumer protection. The Ministers encouraged, as appropriate and in accordance with national laws and regulations, the use of innovative tools, including mobile banking, payment platforms and digitized payments. The Ministers looked forward to strengthening financial literacy and capacity development for developing countries, including through the United Nations development system.

**Unemployment**

633. The Ministers expressed their concern over the serious jobs challenge and widespread deficits of decent work that the world faces, with particular impacts on youth. The Ministers acknowledged that according to ILO Global Employment and Social Outlook Trends (2018) the global unemployment rate has been stabilizing after a rise in 2016 expected to have reached 5.6 per cent in 2017, with the total number of unemployed exceeding 192 million persons. Also, almost 1.4 billion workers were estimated to be in vulnerable employment in 2017, and an additional 35 million are expected to join them by 2019, affecting three out of four workers in developing countries. The number of workers living in extreme poverty is expected to remain stubbornly above 114 million for the coming years, affecting 40 per cent of all employed people in 2018. In this regard, they expressed deep concern about the increase in inequalities and the insufficient employment opportunities, including quality positions, to maintain the rhythm of a growing labor force, bearing in mind the fundamental importance of equality of opportunities, education and professional development in the context of the effective right of young people to work, underscoring that the full, decent and productive employment of young people plays an important role in its empowerment, and it could contribute, among other things, to prevent extremism, terrorism and social, economic, and political instability. Similarly, they urged UN Member States to address the global challenge of youth unemployment by developing and implementing strategies that give young people everywhere a real chance to find decent and productive work. In this regard, the Ministers welcomed the designation of 15th July as the World Youth Skills Day, by the General Assembly, as a means to strengthen young people’s access to decent work and labor markets.
Africa

They stressed their commitment to provide and strengthen support to the special needs of Africa and stress that eradicating poverty, particularly in Africa, is the greatest global challenge facing the world today. They underlined the importance of accelerating sustainable broad-based economic growth, which is pivotal to bringing Africa into the mainstream of the global economy. The Ministers *expressed* concern that the pledge made by the G8 at Gleneagles to double the Official Development Assistance (ODA) towards Africa from US $25 billion to US $50 billion by 2010 was not reached.

643. The Ministers *reaffirmed* that Official Development Assistance remains the main source of international financing for development for many developing countries and that it is essential as a catalyst for development, facilitating the achievement of national development objectives, including the unfinished business of the Millennium Development Goals, the sustainable development goals and the 2030 Agenda in accordance with paragraph 246 of the outcome document of the United Nations Conference on Sustainable Development (“The future we want”).

644. The Ministers further recalled that the SAMOA Pathway also set out new modalities for strengthened action on a range of challenges and priorities concerning small-island developing States and demonstrated how partnerships with different stakeholders could be nurtured and utilized as one of the important means to implement the outcome document and build resilience to the particular challenges faced by SIDS. 654. The Ministers have noted with serious concern that Small Island Developing States (SIDS) continue to be denied access to concessional finance from international financial institutions based on Gross Domestic Product (GDP) per capita criterion established several decades ago. The SIDS thus have serious difficulties in mobilizing financial resources to undertake much-needed infrastructure development projects which require sustainable financing. The Ministers called upon the international financial institutions and the UN to address this issue expeditiously including undertaking an urgent review of the GDP per Capita criterion which prevents SIDS from access to concessional finance to fund development projects.

655. The Ministers called upon developed countries for the full implementation of the commitments that have been made in the Istanbul Programme of Action in its eight priority areas, including providing enhanced financial and technical support to develop productive capacities, meeting and reviewing quantitative official development assistance targets for the least developed countries, improving the quality of aid, implementing duty-free quota-free market access, enhancing the share of assistance for Aid for Trade, continuing with the provision of debt relief and the consideration of debt cancellation for the least developed countries in view of the impediment that debt constitutes for their development, implementing investment promotion regimes, enhancing transfer of technology, providing enhanced concessional start-up financing for innovative enterprises in the least developed countries and improving governance at all levels.

656. The Ministers also recalled the results of the first Summit Meeting of LLDCs on 14 September 2006 in Havana and emphasized the need for greater cooperation of the international community towards the full implementation of the declaration of the Ministers of Landlocked Developing Countries.

The Conference was held in the context of the 2030 Agenda for Sustainable Development Decade for Africa, and aimed at supporting the international efforts to help fostering the graduation of the LDCs.

658. The Ministers reiterated the importance of the mobilization of adequate financial resources and underlined the critical need for addressing expeditiously the renewed and structural challenges, notably eradicating poverty in all its forms and dimensions and achieving the 2030 agenda for sustainable development, hence enabling a considerable number of LDCs to meet the criteria for graduation from the category by 2020. The NAM Ministers also stressed the importance of the support of the international community to contribute towards the achievement of the targets for the LDCs.

659. The Ministers encouraged United Nations system organizations, including the United Nations Conference on Trade and Development, the United Nations Development Programme, the regional commissions and relevant international and regional organizations, within their respective mandates, to provide necessary support to landlocked developing countries and actively contribute to the preparatory review process and the comprehensive ten-year review conference itself.

660. The Ministers reaffirmed the special needs of and challenges faced by the landlocked developing countries caused by their lack of territorial access to the sea, aggravated by the remoteness from world markets and also the concern that the economic growth and social well-being of land-locked developing countries remain very vulnerable to external shocks as well as the multiple challenges the international community faces including the financial and economic crisis and climate changes.

661. The Ministers stressed the need for the international community to enhance development assistance to landlocked developing countries to help them overcome their
vulnerabilities, build resilience and set themselves on a path of sustainable social and economic development. They also stress the urgent need to address the special development needs of and challenges faced by the landlocked and transit developing countries through the full, timely and effective implementation of the Vienna Programme of Action.

663. The Ministers encouraged the relevant international organizations, including the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States, and the United Nations regional commissions, as well as relevant research institutions and other international organizations, to assist the landlocked developing countries in undertaking research on the vulnerability of landlocked developing countries to external shocks and in developing a set of vulnerability indicators that can be used for early warning purposes.

664. The Ministers noted the entry into force of the Multilateral Agreement for the Establishment of an International Think Tank for Landlocked Developing Countries in October 2017, and underscored the important role of the International Think Tank to support the development efforts of landlocked developing countries and, in this regard, urged those landlocked developing countries that have not yet done so to ratify the Agreement at their earliest convenience, and called upon all relevant stakeholders to support the work of the International Think Tank.

665. The Ministers welcomed the progress made since the establishment of the international think tank for the landlocked developing countries in Ulaanbaatar to enhance analytical capability within landlocked developing countries and to promote the exchange of experiences and best practices needed to maximize their coordinated efforts for the full and effective implementation of the Vienna Programme of Action and the Sustainable Development Goals.

666. The Ministers emphasized the need to continue to pay special attention to the situation of developing countries emerging from conflict, in particular LDCs, with a view to enabling them to rehabilitate and reconstruct, as appropriate, their political, social and economic infrastructures and to assist them in achieving their development objectives.

**Middle Income Countries**

667. The Ministers recognized the important role that Middle-Income Countries play in the promotion of global economic growth and development. However, they still face significant development challenges, especially in the areas of poverty eradication and inequalities, the adverse impact of climate change, and in achieving the Internationally Agreed Development Goals, including the SDG’s. They also confront the challenge of making the transition from resource driven growth to productivity driven growth. In this regard, the Ministers stressed the need for enhanced support by the United Nations System, the international financial institutions and all other stakeholders, for their development efforts through an appropriate framework for development cooperation with Middle Income Countries, in order to address those challenges, including by working in competent multilateral and international fora and also through bilateral arrangements on measures to enhance international cooperation with MICs and help them meet, inter alia, their socio-economic development and financial technical and technological development requirements.

668. The Ministers recognized that middle-income countries still face significant development
challenges and underlined that despite the recent progress achieved and the efforts made by middle-income countries, 73% of the world’s poor population lives in those countries. Cooperation aimed at those countries can have a multiplying effect by contributing significantly to the achievement of the internationally agreed development goals, including Sustainable Development Goals, as well as the achievement of full employment and the creation of jobs for the youth, the diversification of their economies, and the development of technologies continue to be huge challenges for middle-income countries.

669. The Ministers acknowledged that statistical averages based only on criteria such as per capita income do not reflect the actual particularities and development needs of middle-income countries, and recognizes that this type of classification fails to recognize the diversity among and with middle-income countries and disregards the multidimensional nature of development and poverty.

670. The Ministers recognized the need to better understand the multidimensional nature of development and poverty (adapted from PP22 A/RES/72/230 “Development cooperation with middle-income countries”). In this regard, The Ministers committed to continue promoting the use of criteria that rely on multidimensional indicators beyond Gross Domestic Product per capita, in order to adequately measure the progress of the countries of the movement in promoting sustainable development in its three dimensions.

671. The Ministers noted with concern that access to concessional finance is reduced as countries’ incomes grow. Middle-income countries may not be able to access sufficient affordable financing from other sources to meet their development needs. They encouraged multilateral development banks and other stakeholders to develop graduation policies that are sequenced, phased and gradual and to explore ways to ensure that their assistance best addresses the opportunities and challenges presented by the diverse circumstances of middle-income countries.

672. The Ministers called upon the international community, including international financial institutions, to continue to improve support for the development efforts of middle-income countries through targeted technical cooperation, the provision of resources, technology transfer and capacity-building, while taking into account their national priorities and development policies.

673. The Ministers acknowledged that official development assistance is still essential for a number of middle-income countries and that it has a role to play in targeted areas, taking into account the needs and domestic resources of these countries.

674. The Ministers welcomed the adoption of the GA resolution 72/230 entitled “Development cooperation with middle-income countries” and its decision to convene a high-level meeting of the UN General Assembly at the beginning of its seventy-third session to discuss the gaps and challenges of middle-income countries in the implementation of the 2030 Agenda for Sustainable Development.

675. The Ministers recalled the international Conferences on Development Cooperation with Middle Income Countries held in March 2007 in Madrid, Spain, in October 2007 in San Salvador, El Salvador, and in August 2008 in Windhoek, Namibia, in June 2013 in San Jose, Costa Rica, as well as the regional conferences on “increasing the competitiveness of African Middle Income countries” held in Cairo, Egypt, in March 2008, and “The Middle- Income Countries’ Perspective on Sustainable Development in CIS, Eastern and Southern Europe”, held in Minsk, Belarus, in May 2013, and “Fostering inclusive and sustainable industrial development in middle-income countries in Europe and Central Asia through innovation and technological learning: needs, potentials and best practices” held in Minsk, Belarus, in April 2015. And in this regard, the Ministers welcomed the adoption of GA resolution 68/222, 70/215 and 72/230 on “Development Cooperation with Middle Income Countries”. The Ministers once again emphasized the need for the UN to conduct a
A comprehensive review of existing practices of the international cooperation system, including the UN Funds, programmes and agencies, the international financial institutions and other international organization, including the organization for Economic Cooperation and Development, on their development cooperation with middle income countries, with a view to achieving more effective development cooperation and fostering international support for the development of these countries.

**Low Income Developing Countries**

676. The Ministers further recognized that low-income developing countries could also play an important role in the promotion of world economic growth, although they face important development challenges and special needs in the sphere of trade facilitation and the promotion of direct foreign investment flow, resist the adverse impacts of climate change and the eradication of poverty and require the urgent attention of the international community. In this regard, they stressed the need for the United Nations system to enhance its support to Low Income Developing Countries.

**Trade**

677. The Ministers underlined that trade is an engine for inclusive growth and poverty eradication in all its forms and dimensions and contributes to the promotion of sustainable development and they committed to overcome development challenges and inequalities between and within countries. In this regard they recommitted to promoting a universal, rules-based, open, transparent, predictable, inclusive, non-discriminatory and equitable multilateral trading system under the World Trade Organization (WTO), as well as meaningful trade liberalization. The Ministers emphasized the importance of facilitating the accession of developing countries to WTO, recognizing the contribution that it would make to the rapid and full integration of those countries into the multilateral trading system. In that regard, they urged the accession process to be accelerated without political impediments and in an expeditious and transparent manner for developing countries that had applied for membership in WTO.

678. The Ministers expressed serious concern over the adverse impacts of the global financial and economic crisis on global trade through, inter alia, rising protectionism, in particular, in developed countries which negatively affects exports of developing countries. They also reaffirmed the central importance of the development dimensions in trade negotiations and they maintained that a successful conclusion of the Doha Development Round launched in 2001 can only be achieved if the outcomes thereof, significantly address the imbalances and inequities in the multilateral trading system, in which the interests of developing countries could be reflected, as well as the need to fulfill of previous commitments.

679. The Ministers called on the EU to adopt a more flexible approach in the EPA negotiations with the concerned ACP Countries and provide the requisite support to finance adjustment costs and build supply capacity to be able to take advantage of the EPA.

680. The Ministers also reiterated the importance of fully responding to the concerns raised by developing countries in paragraph 8 of the Doha Plan of Action, in particular, regarding the realization of all areas of the Doha Work Programme, especially in Agriculture, Non-Agriculture Market Access, Services, Trade Related Intellectual Property Rights (TRIPS), Rules as well as operational and meaningful special and differential treatment for developing countries. The Ministers reiterated the importance of agriculture, as agriculture is the primary sector for the development of many developing countries, in particular LDCs. They also called for action to accelerate the work on the development related mandate concerning the TRIPS Agreement and the implementation related issues in the Doha Ministerial Declaration, especially on the issues of making intellectual property rules of TRIPS supportive of the objectives of the Convention on Biological Diversity as well as trade-related aspects of the TRIPS and Public Health. The Ministers stressed the importance of a strong multilateral trading system in safeguarding trade expansion that serves as a source of economic growth, job
creation, and sustainable development and poverty eradication.

681. The Ministers stressed that the substantial increase of non-tariff measures such as technical barriers to trade, sanitary and phyto-sanitary measures, private standards, discriminatory measures on non-commercial grounds and the use of agricultural subsidies by developed countries impedes the promotion of agricultural production and exports in developing countries and urged the developed countries to reduce them with a view to eliminate subsidies, non-tariff measures and other market-distorting measures.

682. The Ministers invited donors and beneficiary countries to implement the recommendations of the Task Force on the Aid for Trade Initiative established by the Director-General of the World Trade Organization, which aims to support developing and least developed countries in building their supply and export capacities, including development of infrastructure and institutions, and the need to increase their exports, and stressed in this regard the urgent need for its effective operationalization with sufficient additional, non-conditional and predictable funding.

683. The Ministers emphasized that the accession process to WTO should be accelerated without political impediments and in an expeditious and transparent manner for developing countries, in particular the LDCs, as well as countries with economies in transition, consistent with objective, clear and transparent criteria with full observance of the principle of special and differential treatment for Developing countries, in particular LDCs and taking into account their development level, bearing in mind paragraph 21 of General Assembly resolution 55/182 and subsequent developments, and called for the effective and faithful application of the WTO guidelines on accession by the LDCs.

684. The Ministers underlined the importance of international trade and trade facilitation as one of the priorities of the Almaty Programme of Action, and Vienna Programme of action, and noted that the Trade Facilitation Agreement of WTO are particularly important for landlocked developing countries to gain a more efficient flow of goods and services as well as improved international competitiveness resulting from lower transaction costs, and called upon the international community to ensure that the agreement on trade facilitation in the final outcome of the Doha Round fulfils the objective of lowering transaction costs by, inter alia, reducing transport time and enhancing certainty in transborder trade. The Ministers further urged developed countries to honour their commitments related to technical assistance and capacity building to enable developing countries to implement the TFA.

685. The Ministers underscored the important role of UNCTAD as the focal point within the UN system for the integrated treatment of trade and development and interrelated issues in the areas of finance, technology, investment and sustainable development and it should conduct research into an analysis of macroeconomic policies, trade, investment, finance, debt, poverty, international migration and emerging issues, and their interdependence, as referred to in the Accra Accord adopted in the 12th Conference of UNCTAD also in the Doha Mandate adopted in its 13th Conference, and the Nairobi Maafikiano adopted at its 14th Conference. Such research should be used to help developing countries to meet their development goals including poverty eradication to improve the welfare of their citizens and to address the opportunities and challenges created by globalization. They further reiterated the need to continue the operationalization of UNCTAD’s relevant functions in the areas of globalization, policy space and corporate responsibility and the reinvigoration of its intergovernmental machinery.

686. The Ministers took note of the UNCTAD-UNDP Creative Economy Report 2010 that provides empirical evidence,—in-depth analysis and new insights showing that the creative industries, linking economic, cultural, technological and social aspects of development at both the macro and micro levels, are among the most dynamic emerging sectors in world trade that could offer to developing countries new opportunities in the world economy. The
Ministers therefore encouraged UNCTAD to develop a technical assistance programme in creative economy in order to enhance and strengthen developing countries capacity to compete in these sectors. The Ministers further encouraged UNCTAD to fulfil its mandates and assist governments on issues related to the development dimension of the creative economy, in line with the three pillars of UNCTAD’s work by assisting developing countries and LDCs to enhance their creative economies for trade and development, in accordance with national plans and priorities;

691.1. Continue the coordination and cooperation between the G-77 and China and NAM, within their respective mandates, to strengthen the role of UNCTAD as the UN body in charge of an integrated treatment of trade, development and related matters in the field of finances, technology, investment and sustainable development;

691.2. Continue promoting the rejection of and the adoption of concrete actions against the enforcement of unilateral coercive economic measures at the several multilateral fora where NAM and G-77 and China are involved.

692. The Ministers expressed deep concern at the imposition of laws and other forms of coercive economic measures, including unilateral sanctions, against developing countries, imposed by a specific country or a group for political and economic purposes, which violates the Charter of the United Nations, rules and principles of international law and the rules of the World Trade Organization and also severely threatens freedom of trade and investment, and constitutes an interference in the internal affairs of other countries. The Ministers urged the ending of such coercive measures.

**South-South Cooperation**

693. Recognizing the increasing importance of South-South Cooperation and the changing context of North-South interdependence and terms of engagement, the Ministers called for a more energetic effort to deepen and enhance South-South cooperation, including triangular cooperation, bearing in mind that such cooperation is not a substitute for, but rather a complement to, North-South cooperation.

694. The Ministers noted the preparations of the High Level United Nations Conference on South-South Cooperation to commemorate the 40th anniversary of the Buenos Aires Plan of
Action (BAPA) to be held in Buenos Aires in March 2019. efforts by developing countries to attain food security and achieve Goal 2 of the 2030 Sustainable Development Agenda: “end hunger, achieve food security and improved nutrition and promote sustainable agriculture” and its related targets. The Ministers also underlined the need to address the issues that impede food supply chain and distribution of food which is a major setback taking into account that much has been achieved in efforts to increase global food production. In addition, it was agreed that there is also a need to address the issue of food loss, including through capacity building and transfer of technology to developing countries, as well as the issue of food waste, in particular in developed countries. The Ministers also took note of the limited progress that has been made in reducing hunger in the world. However, structural problems continue to sustain the widespread hunger, food insecurity and nutrition and poverty. The continuing international economic and financial crisis further put serious hindrances in the global effort to fight against hunger as it reverberates throughout the global system through trade, aid and financial links. The multiple and complex causes of this crisis require a comprehensive, coordinated and sustained response by the international community. The Ministers, therefore, called for the immediate elimination of all forms of agricultural subsidies and other market-distorting measures by developed countries.
